1910

My reputation has been built up by furnishing Seeds of the best quality as to purity and germination, and I shall always endeavor to furnish THE BEST SEEDS that can be procured and make prices as reasonable as possible. I am in a position to furnish good seeds at as low figures as any reliable house. I can and will meet all prices made by any one offering goods of equal value with mine, but I have no ambition to compete with those offering inferior stocks.

Brevity is the soul of business, and allow me to forcibly call your attention to this fact: My Seeds have stood the test of time—more than twenty years they have carried the positive assurance that to Plant Them Wisely meant to Reap Bountifully.

I thank you for your orders of the past, and to please you in the future is my earnest desire. I would ask your most careful consideration of my catalogue, which I feel will prove of interest and value to you.

SELLING EVERYTHING for the FARM, GARDEN and POULTRY YARD

That is what I am doing and have been doing for twenty years and I am pleased to say that my sales for three weeks during the past year were as much as our entire first year's business; that fact alone ought to show any fair minded person that I have the confidence of my customers and I hope tor a continuance of the same, and you can rest assured that I will do all in my power to please everyone who places their orders with me in the future.

I am always pleased to hear from my customers, whether they are satisfied or not and especially if everything is not just as represented. I do not intend that any just claim shall go unadjusted.

The prices quoted in this catalogue are those current at the time of going to press—January 15th, 1910. They are subject to change with the fluctuations of the market without notice.

THEO. KOSS.

MY NEW LOCATION at 488 National Ave. is in the heart of the business district of the South Side, within easy access to all parts of the city. My patrons are cordially invited to call on me when in the city and make my place of business their headquarters.

POULTRY SUPPLIES—I want to call your attention to this department of my business and the pages in this catalogue that are devoted to same. I carry the largest and most complete stock of Poultry Supplies in the Northwest, and can fill your orders for anything you want in this line.

WHAT I GUARANTEE.

1. I guarantee that if I cannot promptly fill your order for any item, that I will at once return the money sent for same.

2. I guarantee that I will not keep your money, send you "duc bill" or substitute something you do not want.

3. I guarantee that seeds ordered from this catalogue will prove of satisfactory purity and germination to you, or they may be returned at my expense, and the money that has been paid will be cheerfully and promptly refunded without "ifs or ands."

4. I prefer that remittance be made by Bank Draft, Express or Post Office Money Order, and I Guarantee that money sent in that way will reach me.

I accept postage stamps, currency or coin, but I Do Not Guarantee that money sent in that form will reach me.

SUGGESTIONS TO CUSTOMERS.

Cash should always accompany the order. No goods sent C. O. D.

SEEDS BY MAIL—All seeds in packets, ounces and quarter pounds will be sent postpaid by mail at prices quoted; on parcels containing more than a quarter pound postage must be added at the rate of 8 cents per pound; on Beans and Peas 8 cents per pint and 15 cents per quart, and on Corn, 6 cents per pint and 10 cents per quart.

SIGN YOUR NAME AND ADDRESS—Many orders reach me every season in which the Name and Post Office Address are lacking. It is of course impossible for me to fill these orders until they are identified.

SHIPPING DIRECTIONS—Shipping directions should accompany all orders. Where no particular mode of transportation is designated I shall exercise my best judgment, and forward by express, freight or mail, as may seem most advisable and available.

USE THE ORDER SHEET AND ADDRESSED ENVELOPE.

SPECIAL OFFER.

As an inducement to purchasers of my seeds in packets and ounces only, I make this most liberal offer, but I wish it thoroughly understood that it applies to orders for seed in PACKETS AND OUNCES ONLY, and not to orders for ¼ pounds, pints, quarts, or collections.

I issue a special Wholesale List for Market Gardeners, Truckers, and those buying more than $5.00 worth of Garden Seeds. Send for it, if this means you.

Awaiting your commands, I remain,

Milwaukee, Wis., January, 1910.

Yours truly,

THEO. KOSS, Seedsmen.
Comprising all the standard varieties as well as all novelties of real merit. Grown in climates and under conditions best suited to their perfect development.

**ASPARAGUS.**

**CULTURE.**—Sow the seed thinly in rows 1 foot apart in April or May. Thin out the seedlings to 3 or 4 inches in the row, saving the strongest; 4 to 5 pounds of seed required per acre. Set out the one-year-old plants the following spring, as per directions for planting the roots given below. An Asparagus bed for family use is more quickly established by planting two-year-old roots, which should be set out in the spring in a rich soil. Dig a trench 18 inches deep, in which put 8 to 10 inches of well-rotted manure. On this put 3 to 4 inches of good soil, and lay the roots 12 to 15 inches apart. Then fill up the trench with good soil, leaving the plants 4 to 6 inches below the surface. These rows for the family garden should be made 3 feet apart and should be given a good top-dressing of coarse manure, after the bed has been cut in the spring, and well forked in. The bed should not be cut until the third year after planting, so as to let the roots get fully established.

**One ounce of seed will sow 40 feet of row; 7,200 roots will plant an acre.**

**Columbian Mammoth White**—A new and distinct variety with pure white shoots of very large and vigorous growth and superior quality, remaining a long time in edible condition. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 65c.

**Palmetto**—Very early and desirable on account of its large size, regular growth, great productiveness and excellent quality. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 45c.

**Conover's Colossal**—A well tried standard variety, large size, quick growth, good quality. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

**ASPARAGUS ROOTS.**

Two-year-old roots.

**Columbian Mammoth White**—By express, 100, $1.00; 1000, $6.50.

**Palmetto**—By express, 100, 75c; 1000, $6.00.

**Conover's Colossal**—By express, 100, 60c; 1000, $5.00.

**BEETS.**

One ounce to 50 feet of drill; 5 pounds to the acre in drills.

**Culture.**—The best soil for beets is one that is rather light and thoroughly enriched with manure. For an early supply, sow in spring as soon as the ground becomes fit to work, in drills about 1 foot apart and 2 inches deep. For main crop, sow the first week in May, and for winter use sow in June.

**Edmund's Turnip**—A new and very superior variety. Nearly as early as the Eclipse. The skin and flesh are deep blood red in color, exceedingly sweet and tender, of good market size, round and smooth, with a single tap root, top very small. Cannot fail to give the highest satisfaction for winter or summer use. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

**Crosby's Egyptian**—An improved strain of the Egyptian. While being as early, it is much thicker, smoother, of better color and quality than its parent. A most desirable beet. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

**Early Blood Turnip**—Tender and a good late keeper. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 45c.

**Eclipse**—An early variety, globe shaped, smooth, with firm small top, very sweet, flesh fine and dark red color. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

**Long Smooth Blood Red**—Tender and sweet, excellent for winter use. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

**Swiss Chard or Silver Beet**—A distinct vegetable and much superior to the common beets for greens. If sown at the same time, it will be fit to use before them. Later the plants form broad, flat, beautiful white and wax-like stems to the leaves, which are very delicious cooked as beets, or pickled. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.
BEANS.

One quart to 100 feet of drill; 1½ bushels to the acre in drills.

Culture—About the first of May select a warm, dry, sheltered spot; dig and manure slightly; make drills 2 inches deep and 18 inches to 2 feet apart; drop the beans three inches apart in the drills, and cover not more than 2 inches deep.

DWARF WAX BEANS.

Davis’ Kidney Wax.—A new white, rustless, productive, wax-podded bean; pods flat, very long, white, straight and handsome; seeds clear white; excels all others in hardiness and productiveness. One of the best for shipping as snap beans and of the greatest value as a market variety. The length, uniformly perfect shape and fine color of the pods and the clear, white seed, make this one of the best for canners. It is just what they want: a long, straight, clear white pod which does not discolor in canning. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.50; bush., $5.50.

Improved Golden Wax.—In spite of all the new sorts of beans being introduced every year, our trade calls for more Golden Wax than any other variety. This great popularity is due largely to the fact that the variety we have is a great improvement on the old Golden Wax, having larger pods and being more prolific. This improved stock is one of the handsomest beans we have ever seen, the pods a dark, rich golden yellow color and of perfect shape. For family or market you make no mistake in planting them. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.50; bush., $5.50.

Improved Rust-Proof Golden Wax.—Exceedingly crisp and tender and of a most delicious flavor. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.50; bush., $5.50.

Prolific Black Wax.—Bright, rich yellow in color, very tender, rich and buttery when cooked. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.50; bush., $5.50.

DWARF GREEN-PODDED VARIETIES.

Improved Early Red Valentine.—About 10 days earlier than the common Early Valentine. In addition to this it is more robust and vigorous, and produces the true, round, curved pods very abundantly. Unexcelled in quality and uniformity of ripening, nearly the whole crop can be taken at one picking, usually within 35 days after planting. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.50; bu., $4.75.

Burpee’s Stringless Green Pod.—The only stringless green pod bush bean in cultivation. Consequently it surpasses all others in crisp, tender flavor. The finely shaped, long green pods are absolutely stringless, and are ready to market two weeks earlier than the Valentines. It is of immense value, not only to the market gardener, but also to the amateur who seeks a rare quality early for the home table. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.40; bu., $5.25.

Refugee, or Thousand to One.—Hardy, yields abundantly, and of fine quality. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.35; bu., $4.75.

Burpee’s Dwarf Lima.—A dwarf of bush form of the true large Lima which is of great value. They are of bush form, growing 18 to 20 inches high, of stout, erect growth, yet branching and vigorous; an immense yielder. Does not always produce dry sized beans here, but yields a crop of green ones. Pkt., 5c; pt., 15c; qt., 30c; peck, $1.75.

Henderson’s Dwarf Lima.—Grows in compact bush form, producing enormous crops of delicious Lima beans which can be as easily gathered as the common garden bush bean; is at least two weeks earlier than any of the climbing Limas; produces a continuous crop from the middle of July until frost. Enormously productive. Pkt., 5c; pt., 15c; qt., 30c; peck, $1.60.

BEANS—Pole or Running. One Quart to 150 Hills. King of the Garden Lima.—An improvement on the large white Lima, producing a continuous bloom and fruitage to the end of the season. Pods are of enormous size. Pkt., 5c; pt., 15c; qt., 30c; peck, $1.60.

Old Homestead, or “Kentucky Wonder.”—The pods, usually 7 inches or more in length, are so fleshy that they are greater in width than breadth, being deeply creased or “saddlebacked.” They are solidly meaty, stringless when young, and of the finest quality. If pods are gathered as they mature, the vines will continue to bear to the end of the season. Pkt., 5c; pt., 15c; qt., 30c; peck, $1.75.

German Black Wax Pole.—A superb variety, growing rapidly, very productive, rich golden yellow color, round, full and fleshy. Pkt., 5c; pt., 15c; qt., 30c; peck, $1.75.

Horticultural Pole.—Beans round, oval, speckled, popular for private use. Pkt., 5c; pt., 15c; qt., 30c; peck, $1.75.

Scarlet Runner.—Cultivated for ornamental purposes. Pkt., 5c; pt., 15c; qt., 30c.

BEANS—English.

Broad Windsor.—Largest and best. Pkt., 5c; pt., 15c; qt., 30c.
GROWN FOR FEEDING STOCK

MANGEL-WURZEL and SUGAR BEETS

We strongly recommend the Mangels and Sugar-Beets for feeding to cattle, sheep and swine. The roots grow to a very large size, make a much heavier yield than turnips, and are more nutritious and fattening for food during the winter, largely increasing the yield of milk in cows. They can be grown at trifling cost.

Culture.—All Mangels require a deep soil, so put a subsoil at least a foot to 18 inches deep and apply plenty of rich stable manure. Sow (five to eight pounds to the acre) in rows 18 inches to 2 feet apart, and thin to 8 inches in the row. As soon as frost occurs, dig the crop, and if wanted for gradual consumption during the winter, they should be heaped to a height of 5 or 6 feet on a dry, sloping situation. As the weather gets colder, cover with salt hay or corn-stalks, and afterward sufficient soil to protect from freezing weather. By this gradual process of covering all danger of heating is obviated.

Prize Long Red—A popular and very productive variety. Oz., 5c; ¼ lb., 10c; 1 lb., 20c; 5 lbs., 90c.

Mammoth Long Red—Remarkable for its handsome, thick, uniform shape and very broad shoulders, its diameter being greater and its weight much heavier than the Prize Long Red. Flesh is deep red, containing less water and more sugar than many other Mangels, making it more nutritious and milk-producing. Sheep also thrive better when fed on it, picking out pieces of it in preference to other kinds. Has been known to produce 60 tons to the acre. Oz., 5c; ¼ lb., 10c; 1 lb., 25c; 5 lbs., $1.00.

Golden Tankard—A smooth yellow-fleshed Mangel; the roots are of large diameter, tapering quickly at the bottom, which is quite broad, with only a small tap-root. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good land, and can be grown closely in rows. Oz., 5c; ¼ lb., 10c; 1 lb., 25c; 5 lbs., $1.00.

Champion Yellow Globe—A favorite round variety. Oz., 5c; ¼ lb., 10c; 1 lb., 25c; 5 lbs., $1.00.

Vilmorin’s Improved—An improved French variety, very rich, containing usually as high as 16 per cent of sugar. Oz., 5c; ¼ lb., 10c; 1 lb., 25c; 5 lbs., $1.00.

Klein Wanzleben—This kind is grown on a larger scale than any other sugar beet. The root is conical, straight and even, quite large at the head and rapidly tapering. It is easy to dig and is a heavy yielder. Oz., 5c; ¼ lb., 10c; 1 lb., 25c; 5 lbs., $1.00.

BRUSSELS SPROUTS.

One ounce will sow 300 feet of drill.

Brussels Sprouts are being more extensively grown and used. Home gardeners are finding out that this delicious vegetable can be as easily grown as cabbage. Sow in May and manage as Winter Cabbage. In the fall break the leaves down so that the little cabbage will have more room to grow.

Dwarf Improved—A fine strain. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., $1.15.
CABBAGE.

One ounce of seed will produce about 2,000 plants. Set 8,000 to 10,000 plants to the acre, of the early sorts, and 6,000 of the large, late kinds.

No vegetable is of greater importance than cabbage, and compared with the cost of seed, there is more money in growing cabbage than any other crop. It does not pay, therefore, to take any risk in buying seed. We have had our cabbage seed grown by the same growers for about sixteen years past, and it has proven of uniformly excellent quality, so that we pride ourselves on having the purest and highest grade of cabbage seed that is offered, or at least it is surpassed by none. The cabbage requires a deep, rich soil and thorough working to insure good, solid, full-sized heads. Sow early sorts in hot-beds in February or March, or in open ground as soon as it can be worked. Later or winter crops in May or June, in shallow drills six inches apart. When the plants are four inches high transplant to richly manured ground, the early kinds two feet apart; the fall and winter varieties three feet apart. Packets contain about 800 seeds. Slug Shot and tobacco dust are used to kill insects and worms.

Early Spring or Flat Parisian—An extra early flat-headed Cabbage, coming in with Jersey Wakefield. The great value of this extra early Cabbage lies in the fact that it is a true flat-headed sort. Planted on the same day as Early Jersey Wakefield, it was ready to cut with it and produced heads twice the weight of Wakefield. It is very solid and regular in shape, has few outside leaves, and possesses a very fine texture and flavor. On account of its having very small outside leaves, it can be planted as closely as any of the pointed-headed cabbages. No market-grower should be without Early Spring for his first crop. Pkt., 5c; oz., 20c; $2.00; 1 lb., $2.00.

Early Jersey Wakefield—Considered by many gardeners the very best first early variety. Of large size for so early a kind and is certainly deserving of its great popularity. Heads hard and solid, and have few outside leaves. Our seed is highest quality. American grown. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.25.

Charleston Large Wakefield—This grand variety is a trifle later than Jersey Wakefield, but produces much larger heads which are of perfect pyramidal shape, very solid, and with few outside leaves. One cabbage grower who is enthusiastic in its praise says: “It is first in head, first in market, and first in the hearts of gardeners.” Grows remarkably uniform, the heads are of even size and shape. Unequaled for market or family garden. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.25.

Henderson’s Early Summer—A most excellent variety. Twenty days later than the Wakefield, but it grows to fully double the size of the latter. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

Fottler’s Improved Brunswick—An early drum-head of large size, ready for market soon after first early sorts. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.50.

Succession—(True Stock.) A medium early variety and such a grand keeper, that it is valuable for both early and late use. The largest growers say it is one of the best marketing cabbages ever introduced, and I want to add that it is also fine for the home garden. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $1.85.

Large Late Drumhead—Large, round and solid. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.50.

Surehead—(Genuine Strain.) All head and always sure to head; this very popular variety is rightly named Surehead because it never fails to form a good, solid head, even on poor soil, but the richer the soil the larger and finer the head. It is the finest late cabbage in this country, and the best market variety, and heads the list for winter use. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

Premium Flat Dutch—The standard winter variety, low growth, heads large, round, solid and flat on top, an excellent keeper. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., $1.65.

Kossi Short-stem Drumhead.—Our improved and selected strain of this popular variety has greatly pleased thousands of our customers during the past ten years, and so greatly has it improved during the time that we have had it that in a large field it is almost impossible to find a head that is not solid and well formed. For sureness in heading, regularity of growth, and even, large, solid heads, it far surpasses any other strain of late cabbage which we have seen, ripening even with very short stem or stalk, and large thick heads of silky fine quality and of best keeping properties. It is almost all head and always sure to head. Pkt. 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.
CABBAGE—Continued.

Luxemburg.—Also known as Hard Head. Makes a very hard head of a large size and extraordinary weight, and is remarkable for its keeping qualities. An excellent sort for late spring use. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., $2.25.

The Holland.—The best cabbage for late spring sales and for shipping. This has become known in the past ten years as the most reliable cabbage for the shipping trade, and has been almost universally used in districts famous for cabbage growing, such as Racine, Wis., Central New York, Michigan districts and others. It is as hard as rock and a small sized head will weigh more than a large sized head of other sorts. Pkt., 10c; oz., 30c; ¼ lb., 85c; lb., $3.00.

Early Dark Red Erfurt.—Early and valuable for pickling. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

Mammoth Red Rock.—A market gardener's strain of unusual size, color and weight, the result of careful and intelligent selection. It has proven very valuable. Its handsome appearance, large size, solidity and good quality will make it very desirable to all who like red cabbage. Solid and as good a keeper as any red cabbage. Color very dark red. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Early Dwarf Ulm Savoy.—One of the earliest and sweetest of the Savoys. Heads round, solid; leaves, small, thick, fleshy; of fine deep green color, and of most excellent quality. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

Drumhead Savoy.—Heads large, round, compact, excellent for winter use. Pkt., 5c; oz., 15c; lb., 50c; lb., $1.60.

SWEET CORN. Prices subject to change.

One quart will plant 200 hills; one peck will plant an acre in hills.

Culture.—Plant in hills 3 feet apart each way and 5 or 6 kernels in a hill. The ground should be made rich with well-rotted manure. Hoe well. To have the finest Sweet Corn, it must be picked in just the right condition; that is when the skin of the grain breaks at the slightest puncture, and plantings should be made frequently enough to have a supply at this stage. The quality will be inferior if it is either a few days too old or too young.

Peep o' Day.—The two points of this remarkable new Corn are its extraordinary earliness and sweetness. The early varieties of Sweet Corn do not, as a rule, yield as heavily as the later sorts; but owing to the fact that the stalks bear from two to three ears each, and that they are very dwarf, which admits of their being planted close together, it not only gives an early yield, but it gives one of great productiveness as well. Pkt., 5c; pt., 10c; qt., 20c; peck, $1.15; bush., $4.00.

Golden Bantam.—This handsome new variety is one of the most delicious of all and generally believed to be the richest in flavor. It is an extremely early sort, of hardy, vigorous growth, so that it can be planted quite early. The stalks grow only about four feet high, but bear two or three good ears five or six inches long and of handsome golden yellow color. In flavor it is quite distinct from the white sorts and some have called it sweet as honey. I advise every one to give it a trial. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.25; bush., $4.50.

Cory.—The earliest, productive, and in great demand. Pkt., 5c; pt., 10c; qt., 20c; peck, $1.10; bush., $3.75.

Early Minnesota.—Early, very productive, and of excellent quality. Pkt., 5c; pt., 10c; qt., 20c; peck, $1.00; bush., $3.50.

Country Gentleman.—The most delicious of all sweet corns, the ears are somewhat smaller than the coarser varieties, but for private family use, where quality is preferred to size, it has no equal. Time of ripening is a little later than Stowell's Evergreen. Pkt., 5c; pt., 10c; qt., 20c; peck, $1.20; bush., $4.00.

Black Mexican.—Sweet and desirable for family use. When dry the kernels are black. The corn, when in condition for the table, cooks remarkably white, and is not excelled in tenderness by any other sort. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.15; bu., $4.00.

Stowell's Evergreen.—An excellent late variety, remaining a long time in a condition suitable for boiling. Pkt., 5c; pt., 10c; qt., 20c; peck, $1.15; bu., $3.75.

CORN—POP.

White Rice.—This is an exceedingly handsome variety of pop corn. It is a fine popper and produces very heavily. Pkt., 5c; pt., 10c; qt., 15c.

CORN—FIELD.

(See Farm Seed Department.)
CAULIFLOWER.

One ounce will produce about 2000 plants.

Cauliflower is the highest-priced vegetable seed on the entire list, but my customers can absolutely depend upon the seed listed below as being the very best obtainable.

Culture.—The treatment of Cauliflower is very similar to that of Cabbage. For spring crops the seed should be sown in hotbeds early in February, transplanting the young plants to the garden early in April. For the main or fall crop, seed should be sown about June and the young plants set out the latter part of July.

Early Snowball.—Throughout the country this is considered not only the earliest of all cauliflowers, but it is more certain to make a head than any other sort. Its dwarf habit and short outer leaves allow it to be planted as close as 18 to 20 inches apart each way, thus making it especially valuable to market gardeners. Our stock is extra choice and cannot be excelled. Pkt., 25c; ¼ oz., 75c; oz., $2.50; ½ lb., $3.00.

Extra Early Dwarf Erfurt.—Valuable for forcing. A very popular variety in Europe and with eastern gardeners. First quality. Pkt., 15c; ¼ oz., 60c; oz., $2.25; ½ lb., $8.00.

CORN SALAD OR PETTICUS.

Large Seeded.—Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

CRESS.

Extra Curled or Peppergrass.—The seed should be sown in drills about 15 inches apart, on rich ground and the plants well cultivated. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

True Water Cress.—Thrives only when its roots and stems are submerged in water. The seed should be sown along the border of small streams. Pkt., 5c; oz., 25c; ¼ lb., 90c.

CUCUMBERS.

One ounce will plant 50 hills; two pounds will plant one acre.

Cucumbers succeed best in a rich, loamy soil. For first early, sow in hotbeds, in berry boxes or in small flower pots, six weeks before they can be set out in open ground. When danger of frost is over transplant in hills four feet apart each way. For general crop plant in open ground in May, about twelve seeds in a hill. When danger of bugs is past thin to four strong plants in a hill. For pickling, plant in June. Sprinkle vines with plaster or air-slaked lime, or use Slug Shot, to protect from bugs.

Improved Early White Spine.—Fruit 6 to 8 inches long, remaining green longer than any other variety. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 90c.

Early Frame.—Early sort for table and pickling, of medium size, straight and handsome. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 90c.

Boston Pickling.—Very productive and of superior quality. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 90c.

Improved Long Green.—An old standard sort, one foot long. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., $1.00.

Koss' Cream City Pickle.—Early and very productive, flesh crisp and tender, fruit of dark green color, which they retain as pickles. This variety has been grown from my own special stock. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.15.

Nichol’s Medium Green.—Exceedingly productive, of medium size and always straight and smooth. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 90c.

Japanese Climbing.—Vines are extra strong, and foliage much more vigorous than other sorts, and from its climbing habit can be grown on trellises, etc., saving valuable space. It is very profitable, 40 to 50 cucumbers having been counted on single plants. Flesh thick and of fine flavor. Good for pickling and slicing. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., $1.25.

Snake.—A remarkable and very interesting curiosity. Cucumbers grow curled up like a snake with the head protruding, and some measure 6 feet in length. Grown chiefly as a curiosity and for exhibition. In packets only, each 10c.
One ounce will sow 100 feet of drill; 3 or 4 pounds for one acre.

An indispensable root for the farm, deserving of more general cultivation. Well managed, no crop pays better, and most farmers would find an acre or so desirable. A nutritious, succulent food in the winter for cattle, horses, sheep and pigs. For early, sow in spring as soon as the ground can be worked, in drills 10 inches apart, covering one-half inch; thin plants to three or four in. apart in row. For field culture rows should be of sufficient distance to admit use of a horse cultivator; sow seed from middle of April to first of June. A light, sandy loam, deeply tilled, is best; seed is slow to germinate; use care to firm soil after sowing. Average 800 to 1,000 bu. per acre.

**Early French Forcing**—Valuable for forcing, roots small and of fine flavor. Pkt., 5c; oz., 10c; $1.00.

**Early Scarlet Horn**.—Favorite extra early variety. Very early. Orange-scarlet, fine grained and agreeable flavor. Top small, short, stump-shaped root; grows well in shallow soil. Pkt., 5c; oz., 10c; $1.00.

**Oxheart, or Guerande**.—Most valuable variety in existence. Intermediate between Half-Long and Horn sorts; diameter 3 to 4 in. at neck; beautiful shape; rich orange color. Easily pulled; early as any, of best quality all season. Fine for stock; has yielded 1,200 bu. per acre. Cut tops with scythe and pull roots with potato hooks. Pkt., 5c; oz., 10c; $1.00.

**Chantenay**.—As a table variety it is first-class; in shape it is larger than the Scarlet Horn and also broader at the shoulder. The flesh is of beautiful rich orange color, and of the finest quality. It is medium early with small tops, and will give great satisfaction to both the market and private garden. Pkt., 5c; oz., 10c; $1.00.

**Nantes**.—Half long, stump rooted, color deep scarlet. Pkt., 5c; oz., 10c; $1.00.

**Danvers**.—Is in form about midway between the Long Orange and Short-horn class, growing generally with a stump root. It is of a rich, dark orange color, grows to a large size, is smooth and the flesh very close texture, with little core. It is a first-class carrot for all soils, and it is claimed that under good cultivation it will yield the greatest weight per acre with the smallest length of root of any grown. Pkt., 5c; oz., 10c; $1.00.

**Improved Long Orange**.—Desirable for garden or field. Grows to large size, averaging 12 in. in length and 3 in. in diameter at the top. Pkt., 5c; oz., 10c; $1.00.

**Large White Belgian**.—Excellent for stock. Oz., 5c; $1.00.

**Egg Plant.**

One ounce produces about 1,000 plants.

Culture.—Sow the seed in the hot-bed or greenhouse about March 1, transplant to 4 in. apart, and when the plants grow thick, transplant to 8 inches apart. Set in the field about May 20.

**New York Improved.**—Purple in color, large size and good quality. Pkt., 5c; oz., 30c; $1.00.

**Black Pekin.**—Round in form, solid and quite early. Pkt., 5c; oz., 20c; $1.00.

**Endive.**

One ounce of seed to 150 feet of row ...

Culture.—For early use, sow in May, scattering the seed thinly in drills 10 inches apart, covering it lightly, and for succession every two or three weeks until midsummer.

**Broad-leaved Batavian.**—More productive than others. Forms large heads of broad, thick leaves. Pkt., 5c; oz., 10c; $1.00.

**Green Curled Winter**.—Very hardy, leaves dark green, curly and tender. Pkt., 5c; oz., 10c; $1.00.

**Garlic—Knoblauch.**

Plant in rich soil early in spring. Rows one foot apart and about 3 inches in the row. Sets per $1.00, 20c; lb., 50c.
CELERY.

This we consider one of the luxuries of the garden. For first crop sow seed early in hotbeds, or in boxes in the house, in rich, moist soil, covering seed very lightly. For main crop sow in open ground in April or soon as soil is in good condition. Seed germinates slowly and if the weather is hot and dry protect with light covering of hay or straw. Stir soil as soon as plants are well up; thin out and transplant so that they stand about an inch apart in the row. If they grow too rapidly, shear the tops off when about 4 or 5 inches high and this will make them more stocky. For main crop set plants out between June 15th and July 15th, in rows 3 feet apart and plants 6 inches in the row.

Golden Self-Blanching.—This is by far the most popular variety now on the market. It is of medium earliness, of dwarf, compact habit, with thick, solid, heavily ribbed stalks, which blanch easily to a clear waxen yellow. When grown in rich, moist soil, the stalks are numerous and large with a solid heart of beautiful yellow. Pkt., 5c; oz., 35c; ¼ lb., $1.25; ½ lb., $1.50.

Kalamazoo.—This new distinct variety originated with a prominent celery grower of Kalamazoo, Mich., and is pronounced by those who know it best, “the best perfect type of Dwarf White Celery known.” Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Hartwell’s Perfection.—One of the very best sorts for market, owing to its great keeping qualities. Very solid and never hollow. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.40.

Evans’ Triumph.—This new celery is one of superb quality and one of the best keepers, remaining in condition for use much longer than most sorts. The very large solid stalks are of the finest quality and texture, crisp, brittle, tender and really nutty in flavor. It stands at the head of all late keeping celeries. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.50.

White Plume.—Stalks, portions of the inner leaves and heart naturally white, and become fit for use by simply tying up closely with soft twine. More used than any other by gardeners. Our seed highest quality. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Golden Heart.—Very fine when blanched, the hearts are of rich golden yellow. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.45.

Crawford’s Half Dwarf.—Color a yellowish white, very attractive. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.40.

Boston Market.—A bushy, white, solid, fine market variety. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.35.

Incomparable Dwarf Crimson.—Dwarf habit, exceedingly solid, fine, dark crimson color. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.50.

Soup Celery.—(Old Seed.) For flavoring. Oz., 5c; lb., 30c.

CELERIAC or Turnip Rooted Celery.—Sow seed and treat in first stages of growth as directed for celery. Set in rows two feet apart and six inches apart in the row. As the roots only are used no banking is necessary. When roots have reached a size of two inches in diameter they are ready for use. These are boiled, sliced and eaten with vinegar. To keep through winter, roots should be packed in moist sand or earth.

Large Erfurt.—Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25.

Large Smooth Prague.—Round, smooth roots, with very few side roots. This is the best and largest variety. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.35.

Apple Shaped.—Roots large, smooth and almost round in shape. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25.

KOHLRABI. Turnip-Rooted Cabbage.

One ounce will sow a drill of about 200 feet.

This vegetable is intermediate between the cabbage and turnip. The edible part is an enlargement of the stem and should be used when half grown as when full grown it is tough and fibrous. Sow in drills 18 inches apart and thin plants to 6 or 8 inches apart.

Early White Vienna.—The best market variety, tender. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Early Purple Vienna.—Different from the above only in color. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Large Green.—Used for feeding stock, bulbs large. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.40.
**LETTUCE.**

(One ounce will sow 100 feet of drill.)

No vegetable is more universally used than lettuce, and to be thoroughly appreciated it must be brought to the table fresh and unwilted. Quality depends largely upon rapid and vigorous growth. Sow in hotbed in March and in open ground as early as it can be worked, thinly in drills one foot apart. For succession, sow every three weeks during season. Thin out plants as they grow.

**Grand Rapids.**—There is nothing superior, if it has an equal, for growing under glass. It requires less care, will grow more weight in the same space, is not as liable to rot, and will keep longer without wilting than any other variety. It is of fine appearance, crisp and tender. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., $1.10.

**Tilton's White Star.**—A great favorite with market-gardeners. Superior for forcing as well as outdoor planting, splendid shipper, forms enormous heads. This variety retains its fresh appearance longer than many other varieties. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

**Prize Head.**—Very tender leaves, dark reddish brown. Heads large, of good flavor. We sell more of this than any other brown leaved variety. Always satisfactory. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 80c.

**Black Seeded Simpson.**—Nearly double the size of ordinary Curled Simpson. Stands summer well without becoming tough or running to seed quickly. By far the most popular variety for greenhouse forcing, making large, handsome heads in a very short time. Gardeners are always pleased with our seed. Pkt. 5c, oz. 10c; ¼ lb. 25c; lb. 85c.

**Deacon Cabbage.**—While this lettuce does not make as large a head as some others, the heads formed are very solid and of excellent flavor, and remain in condition for use as long as any variety in cultivation. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c.

**All the Year Round.**—Hardy, compact and crisp, with small, close heads. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c.

**Yellow Seeded Butter.**—Very crisp and tender. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c.

**Hanson.**—Heads green, with white hearts. Grows to large size and is uniformly sure heading; crisp, mild and tender. One of the finest varieties to grow for market during the summer months. Our stock is unexcelled. Per Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 85c.

**Boston Curled.**—An excellent early variety for garnishing. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c.

**Brown Dutch Winter.**—A very hardy sort, medium size, fine flavor. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c.

**KALE OR BORECOLE.**

Sow in prepared beds, middle of April to beginning of May and transplant beginning of June, same as cabbage. All the varieties are very hardy, and are best when touched with frost. One ounce to 1,500 plants.

**Tall Green Curled Scotch.**—Finely curled, one of the best sorts. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c.

**Dwarf German.**—Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 60c.

**LEEPS.**

One ounce will sow a drill of about 100 feet.

Leeks are quite appetizing when sliced and served as a salad or they can be cooked and served like onions. Sow seed thinly in drills early in the spring; thin out so as to stand six inches apart in the row. Early in the fall draw earth up about the stems as you would to blanch celery.

**Large London Flag.**—Hardy, strong growing plant, with broad leaves. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 90c.

**Musselburg.**—The favorite market variety. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00.
MUSKMELONS.

One ounce for 60 hills; 2 to 3 pounds in hills for an acre.

The soil best adapted to melons is a warm, rich, sandy loam. Plant in hills five or six feet apart each way, ten or twelve seeds in a hill. When they begin to vine, thin out, leaving only four of the most thrifty. As melons are very sensitive to cold, they should not be planted until the settled warm weather begins—in this latitude about the middle of May. Cultivation should commence as soon as the plants appear above the ground, and be kept up once a week until the vines interfere too much. You will be pleased with our seed.

Tip Top.—A melon I recommend to every lover of this luscious fruit and to every gardener who grows for the market. It is yellow fleshed and of the very best quality. Every melon produced, big or little, early or late in the season, is a good one. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

Paul Rose.—Is a decidedly new and meritorious variety that is bound to please all classes of melon producers. It is a large "Netted Gem," with deep orange flesh, secured by crossing with the Osage. It is a great producer of extra fine quality melons; as early as the Gems and equally as good a shipper. A good variety for the large grower and equally as good for the small grower for home use. True seed is very scarce this season. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.35.

Emerald Gem.—This is undoubtedly the finest in flavor of all varieties of musk melon. It is also the earliest to ripen, and while too soft to stand shipping any great distance to market, it is unequaled for home use or nearby markets. Vines of strong vigorous growth and very prolific. If fruits are gathered as soon as they ripen, the vines will continue in bearing throughout the season. The melons are rather small and flattened at both ends. The skin is a rich, deep emerald green, smooth and free from netting. The fruits are heavily ribbed, with narrow bands of lighter green between the ribs. Flesh very thick, with thin rind and small seed cavity, crystalline in appearance, and of a rich salmon color. Pkt., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

The Princess.—The most delicious melon. The flesh is of a rich salmon color, very thick and sweet. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.35.

Osage.—One of the best melons for family use and also greatly liked by gardeners. Flesh is salmon color, remarkably sweet and spicy in flavor, extremely thick and delicious to the rind. Seed cavity is very small. It is seldom that one of poor quality is found. The whole crop is very even and extra heavy, owing to the thickness of the meat. It is of medium size, oval, slightly ribbed. Skin is thin, of dark green color and covered more or less with shallow netting. We have taken a great deal of pains to develop the thick, deep, rich colored and fine flavored flesh of this sort, and a careful comparison proves it to be unequalled. All lovers of fine melons should try the Osage. Pkt., 5c; oz., 15c ¼ lb., 50c; lb., $1.50.

Hackensack.—Deeply netted, very large and productive. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.35.

Netted Gem or Rocky Ford.—This has become one of the most popular of small or basket melons. The fruit is oval, slightly ribbed, densely covered with coarse netting. Flesh thick, green, very sweet and high flavored. I offer an exceptionally fine stock of this sort, the fruit being wonderfully uniform in shape and quality. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., $1.10.

Grand Rapids.—The earliest large muskmelon. A new, extra early, yellow fleshed sort of handsome shape. It is a most profitable variety to the gardener on account of its size, attractive appearance, and its extreme earliness. Its flavor is not as good as that of the Osage, or other standard melons, but it is ready for market before any other large variety can be picked, and that fact insures ready sales. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.35.

MUSKMELONS.

Mushrooms.—The ease and certainty with which a crop of mushrooms can be grown to perfection in any ordinary house cellar, woodshed or barn, and the astonishing success of so many who have taken up this new industry, both for profit and their own use, induces us to call especial attention to the subject. The great luxury of mushrooms can be enjoyed by all at a trifling expenditure of money, time and labor. We recommend our English mushroom spawn as generally the better both for the market garden and the private planter. Per lb., 15c; 10 lbs., $1.00; by mail, per lb., 25c.

MUSTARD.

A pungent salad, used with cress or for greens. Sow thickly in rows, cut when about two inches high. One ounce will sow about seventy-five feet of drill.

SLUG SHOT
kills the
MELON BUG.

5 lbs. 30c, 10 lbs. 50c.
WATERMELONS.

One ounce for 50 hills; 4 to 5 pounds will plant an acre.

A light sandy soil, with good exposure to the sun, is the best for watermelons. It should be prepared deeply but receive shallow cultivation. Hoe often and thoroughly. Plant in hills 8 to 10 feet apart each way. Plant 8 to 10 seeds in a hill, and, finally, when danger of insects is past, leave but three strong plants. Thousands of melon growers depend on us annually for their seeds and are universally pleased, claiming that nowhere have they ever obtained seeds so pure and reliable. It pays to have the best. Packets contain about 100 seeds.

Cole’s Early.—Decidedly the finest early variety for the private garden, but is too brittle for long shipments. It is very early and will mature farther north than most other sorts. Of medium size, very productive, continuing to bear throughout the season. Flesh of bright red color, of granulated, sparkling appearance. In flavor lusciously sweet and refreshing. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

Sweetheart.—A favorite market sort. Early, large, handsome, heavy, good shipper, long keeper, bright color and of good quality. Vines are vigorous and productive, ripening the fruit early. The fruit is large, oval, very heavy, uniformly mottled light green and dark green; rind thin but firm. The flesh is bright red, firm, solid, but very tender, melting and sweet. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

Kolb’s Gem.—Large, delicious and an excellent keeper. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

Citron.—(For preserves). Small, round fruit, makes a beautiful clear, nearly transparent preserve of fine flavor. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

Cuban Queen.—Flesh bright red, skin striped. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 45c.

Mountain Sweet.—Fruit large, dark green, rind thin, flesh hard, solid and very sweet. Pkt., 5c; oz., 10c ¼ lb., 20c; lb., 55c.

PARSNIPS.

(One ounce will sow 200 feet of drill. Five pounds will sow an acre in drills.)

Sow early in spring in good, rich soil, which has been plowed deep; in drills 15 inches apart, covering half an inch. Thin to 5 or 6 inches apart in rows. They are improved by frost.

Guernsey—(Improved half long). The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Long Smooth or Hollow Crown.—Smooth and large, very tender and sugary; best for general use. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

OKRA, OR GUMBO. One ounce will sow about 800 feet of drill.

Why not try Okra this year? It is extra nice for soups, stews, etc., and also much liked when pickled. Sow at the usual time of tender vegetables in drills 2 inches deep, leaving the plants 2 to 3 feet apart. Pick pods while still tender and slice crosswise before cooking.

Dwarf White.—Early and very productive. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 45c.

White Velvet.—The pods of this variety are round and perfectly smooth and not ridged like other Okras. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

PEPPER. (One ounce will produce about 1,800 plants.)

Sow seed in hot bed early in spring; transplant to open ground when the weather is favorable, in warm, mellow soil, in rows 18 inches apart. Seeds germinate slowly and require considerable heat.

Large Bell or Bull Nose—Early, mild and pleasant to the taste. Pkt., 5c; oz., 15c; ¼ lb., 50c.

Ruby King—Large and handsome, remarkably mild. Pkt., 5c; oz., 20c; ¼ lb., 60c.

Long Cayenne—Long, red, hot and pungent; dwarf growth. Pkt., 5c; oz., 15c; ¼ lb., 50c.

RHUBARB or Pie Plant. One ounce will produce about 100 plants.

Succeeds best in deep, rich soil. Sow in spring in drills, cover one inch. Thin plants to six inches apart. Transplant in autumn or spring to permanent beds three feet apart each way.

Victoria.—The standard variety. Large and tender. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25.

Roots.—10c each, $1.00 per dozen, by express.
A strong, deep, rich and loamy soil is most suitable for this crop. The ground should be heavily dressed with well-rotted manure, and plowed a moderate depth, taking a narrow furrow in order to more thoroughly mix the manure with the soil, if possible the plowing should be done in the fall. As early in the spring as the ground is in working order, harrow it thoroughly and make as fine a level as possible; sow thinly in drills one-fourth inch deep and twelve inches apart. Keep the surface of the ground open and free from weeds, but do not ridge up to the growing bulbs. One ounce will sow one hundred feet of drill; 4 to 5 pounds per acre.

Extra Selected Yellow Globe Danvers.—The finest shaped, best colored and largest cropper of any of the yellow onions, and not to be compared with the ordinary stock of Yellow Globe Danvers. Its points of superiority over the ordinary Yellow Danvers are earliness of ripening, smallness of neck, perfect globe shape and uniformity of shape and color. It is an immense cropper and will yield more marketable onions to the acre than any strain ever tried. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.55; 5 lbs., $7.25.

Yellow Globe Danvers.—Ordinary stock. The most popular onion all over the country. Excellent quality, mild flavored, very productive, ripens early, good keeper. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.55; 5 lbs., $6.25.

Large Red Wethersfield.—The standard sort throughout the west; the most hardy and immense crops can be raised when more tender sorts are not profitable. Growers who prefer the red varieties will find this magnificent strain far surpassing the ordinary Red Wethersfield in size, productiveness and keeping qualities. Of finest form, skin deep purplish red, flesh purplish white, finer grained than many of the red sorts. Our seed of this is extra select and cannot be excelled. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.75.

Southport Red Globe.—This is a very handsome variety and is deserving of general cultivation. It is medium early (none of the perfectly globe-shaped onions are as early as the flat varieties), grows to a large size, skin deep red, flesh fine grained, mild and tender. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.60.

Southport White Globe.—The handsomest market variety; beautiful, clean, pure, silvery white bulbs of large, even size, globe-shape, mild and pleasant flavor, and outsells every other variety. Undoubtedly the best white sort. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., $2.65.

White Portugal or Silver Skin.—Standard white variety for general culture. Bulbs grow to good size, ripening early and quite evenly. A good keeper. Flesh is very mild and sweet; the skin a clear, silvery white, of very handsome appearance. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.15.

Southport Yellow Globe.—A handsome variety of large size. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.60.

Extra Early White Pearl.—A very fine new Italian variety that grows quickly to a good marketable size. The bulbs are round, flattened with a delicate, pure white skin. Flesh very mild and pleasant in flavor. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.45.

Mammoth Red Pompeii.—Grows to an enormous size, single onions often weighing from 4 to 5 lbs.; skin pale reddish-brown, flesh white, fine grained, very mild and tender. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.45.
ONIONS—Continued.

Mammoth Silver King.—Of attractive shape, with silvery white skin and flesh of a most agreeable mild flavor. It matures quite early and reaches a much larger size than any other of the flat white varieties; frequently measuring twenty inches in circumference, and weighing from three to five pounds when well grown. They must be sown thinly to produce large onions. We do not hesitate to recommend it as one sure to please the grower. True American grown seed. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.50.

White Queen.—A rapid grower, white skin, early and excellent for pickling. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., $1.45.

Australian Brown.—A new onion of real merit. The bulb develops very early from seed, and will keep longer than any other onion. It is of medium size, extremely solid, tender, crisp and mild-flavored. The skin is a beautiful amber-brown, and is very attractive. My seed is true to name and of thoroughly acclimated stock. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., $1.30.

Extra Early Flat Red.—A variety of unusual early maturity, medium size and of a deep red color. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., $1.75.

ONION SETS.

Indispensable for early onions for bunching, as in a very few weeks they are ready for the table. While it is much cheaper to grow onions from seed, still it is considerable work to keep them weeded, and many of our customers who have only a small garden, prefer to grow them from the sets and gardeners plant sets for the early market. Prices subject to change.

White Bottom Sets.—White onion sets grown from seed are the most popular and best for early use and large onions. Pt., 10c; qt., 15c; peck, 75c; bush., $2.50.

Yellow Bottom Sets.—Like the White, except color. More used than any other kind. Pt. 10c; qt., 15c; peck, 65c; bush., $2.00.

Red Top or Button Sets.—Still largely called for in some sections. Pint. 10c; quart, 15c; peck, 65c; bush., $2.00.

If by mail add 6c per pint and 10c per quart to the above prices.

Write for special prices on larger quantities.

CHIVES. SCHNITTLAUCH.

Chives are very hardy and perennial members of the Onion family. They are grown exclusively for their tops. Planted in clumps in any garden soil, they grow readily, and increase so as to render a division necessary. The tops appear very early in spring and can be cut throughout the season. Per clump, 15c; by mail, 25c.

PARSLEY.

One ounce will sow 150 feet of drill.

Culture.—Sow early in spring in drills 14 inches apart, and thin to 6 or 8 inches. Cover half an inch deep.

Extra Curled Emerald Dwarf,—Dwarf, with bright green leaves finely cut and curled; very ornamental. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c.

Champion Moss Curled.—The leaves are very finely curled and moss like. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Plain Leaved.—Harder than the curled varieties. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Hamburg or Turnip Rooted.—The roots are used for flavoring. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.

We took advantage of your generous offer again. It is certainly very kind of you, and your seeds are always first-class. We can not get any better.

MRS. THEO. REUL, Helenville, Wis.

I was more than pleased with the seeds I bought of you. Especially your Extra Select Yellow Globe Danvers Onion seed, a strain which can not be beat. GEO. H. LYLE, Oregon, Wis.

Goods received in good condition. Everything satisfactory. Thank you for your promptness.

B. ANDERSON, Big Suamico, Wis.
PEAS.

One quart will plant about 100 feet of drill; 2 to 3 bushels per acre.

Peas mature quickest in light, dry soil, not too rich. May be sown as early as the ground can be worked, and for a succession every two weeks up to July, or what is better, select several kinds which will form a succession in maturing. Sow in drills two to four feet apart, according to varieties, and 3 to 4 inches deep for general crop, although the first earlies will come to maturity sooner if only covered 1½ inches. Wrinkled sorts are marked * They should be sown thicker in the row than the smooth varieties, as they are more liable to rot if the ground is wet.

Alaska.—Height 2 feet, pods rather small, dark green color, well filled: the earliest pea known, being two days earlier than the First and Best, and ninety per cent of the pods can be gathered at the first picking. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.65; bush., $6.00.

Koss' Extra Early Market.—Unequaled for excellence, yield, size of pod and regularity of growth. Emphatically the pea for market gardeners and truckers. It is a wonderful bearer, produces pods of good size, which ripen so evenly as not to require more than two pickings to clear off the crop. Pkt., 5c; pt., 15c; qt., 25c; peck, $1.65; bush., $6.00.

Gradus, or Prosperity.—One of the finest for family use. This remarkable pea is not only large and of the best quality but it is nearly or quite as early as the small round, extra early sorts. It is a wrinkled pea with vine growing about 30 inches high. The pods are of a bright green color and measure 4 inches or more in length, and are well filled with luscious peas—8 to 10 or more in a pod. Of the highest table quality and retain in a remarkable manner their color and attractive appearance after cooking. A grand pea in all respects. Pkt., 10c; pt., 20c; qt., 30c; ½ pk., $1.10; peck, $2.10; bush., $8.00.

Nott's Excelsior.—A superb new variety, and we are sure our customers will welcome it as an ideal family garden pea. It is fully as sweet and delicious as the American Wonder and grows one-half taller. Pods are larger and it is far more productive than the Premium Gem, and it is within a day or two as early as the first early smooth peas. Mr. Geo. Buchanan writes: “I found these peas a very distinct, pure sort, with many marked excellencies over the American Wonder, Premium Gem, Advance, etc. The peas were ready for table use within forty-three days from planting.” Quality very superior. Pkt., 5c; pt., 15c; qt., 30c; ½ pk., $1.00; pk., $1.85; bush., $7.00.

American Wonder.—Popular extra early variety for family garden. Cannot be planted quite as early as smooth sorts; will not stand as much cold, wet weather, but is far superior to them in flavor and table qualities. Dwarf, robust habit, growing about 10 inches high; produces a profusion of good-sized, well-filled pods of the finest flavored peas. Pkt., 5c; pt., 15c; qt., 30c; ½ pk., $1.00; pk., $1.85; bush., $7.00.

McLean's Little Gem.—A prolific grower, a green wrinkled variety, early. Pkt., 5c; pt., 15c; qt., 30c; pk., $1.70; bush., $6.50.

Tom Thumb.—Very dwarf and early, of excellent quality, yields abundantly. Pkt., 5c; pt., 15c; qt., 30c; pk., $1.70; bush., $6.50.

Horsford's Market Garden.—A most prolific bearer, pods medium size, numerous and well-filled with peas of delicious flavor. Somewhat later than the Little Gem. Pkt., 5c; pt., 15c; qt., 25c; pk., $1.70; bush., $6.25.

Dwarf Sugar, Edible Pods.—Early, used like snap beans or shelled. Pkt., 5c; pt., 15c; qt., 30c; pk., $1.75.

Telephonic.—Immensely productive; finest quality; excellent sugary flavor; vines very strong. Pods of large size, with 6 or 7 large, delicious peas; height 4 ft. Pkt., 5c; pt., 15c; qt., 30c; ¼ pk., $1.00; pk., $1.75; bush., $6.50.

June.—The best wrinkled main crop pea in the market today. Vines robust in growth, pods stout, straight and usually borne in pairs. The pods are thick and well filled with delicious, large, sweet, dark green peas of the finest quality. Pkt., 5c; pt., 15c; qt., 25c; pk., $1.65; bush., $6.00.

Inferior Stratagem.—Late variety for family or market use. Half dwarf, vigorous, branching habit, and under favorable conditions an enormous cropper. Pods are long and filled with seven to nine large peas of extra fine quality. Pkt., 5c; pt., 15c; qt., 30c; ¼ pk., $1.00; pk., $1.75; bush., $6.50.

Champion of England.—One of the richest, best flavored peas grown. Pkt., 5c; pt., 15c; qt., 25c; ½ pk., $1.50; pk., $5.50.

Black Eyed Marrowfat.—Excellent for either garden or field culture. Pkt., 5c; pint 10c; quart 20c; peck 85c; bushel $3.25.
PUMPKIN.

One ounce will plant 35 hills; 4 pounds will plant 1 acre.

The best, most enterprising and most prosperous farmers put in a crop of pumpkins every year. They can be grown separately or with a corn or potato crop, and do not seem to interfere in the least. They are valuable for feeding to stock, and what is a fair without pumpkins, or a Thanksgiving dinner without a pumpkin pie? Planted with corn, two pounds will plant one acre.

Culhoun, or Thanksgiving Pie.—A great improvement on the Large Cheese. Color creamy brown, flesh deep salmon yellow, fine grained; seed cavity is very small. Rind thin. When cooked it is very yellow and makes pies of a rich color, sweet and of the finest quality. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 65c.

Large Cheese.—Flat shaped, flesh yellow, fine grained and sweet. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Mammoth Tours.—Is also called “Mammoth Whale.” Grows to an immense size, sometimes 3 feet in length, and to a weight of 100 to 200 pounds. Flesh of a salmon color. Seed of a peculiar shape. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

Jonathan.—This is one of the finest varieties ever introduced; a good keeper, large size, very sweet and finest of all for pies. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

Connecticut Field.—Standard sort for field culture. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 35c; 3 lbs., 90c.

SALSIFY.

Vegetable Oyster.—One ounce will sow 50 ft. of drill, 8 lbs. to acre.

Why don’t you grow salsify? It is one of the most delicious and nutritious of vegetables, and should be more generally cultivated for use in winter, when the supply of really good vegetables is so limited. It has the true oyster flavor, and makes a delicious and inexpensive substitute for them in soup, etc. Cultivate like parsnips.

Mammoth Sandwich Island.—Average fully double size of old Long White. Roots are white, smooth and, notwithstanding their enormous size, of superior quality. Pkt. 5c; oz. 15c; ¼ lb. 35c; lb. $1.00.

Large White.—Standard variety. Pkt. 5; oz. 10c; ¼ lb. 25c; lb. 75c.

Scorzoneria, or Black Oyster Plant.—Treatment same as salsify, which it closely resembles, except that the skin is black. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. $1.40.

SPINACH.

One ounce will sow about 80 feet of drill; 10 pounds to the acre.

This is the finest “greens” of any plant in cultivation. For summer, sow early in spring in deep, rich soil, in drills one foot apart; cover one inch. Sow at intervals of two weeks throughout the season. For very early spring use, sow the winter varieties first of September, and protect by covering with straw.

Long Standing.—Standard with gardeners. Leaves thick, fleshy and crumpled; slow in running to seed; leaves round, large and of a dark green color. Pkt 5c; ¼ lb. 10c; lb. 20c; 5 lbs. 70c.

Round Leaf.—Excellent market sort, equally good for spring or fall sowing; leaves large, thick and fleshy. Pkt. 5c; ¼ lb. 10c; lb. 20c; 5 lbs. 65c.

Victoria.—Distinguished by exceedingly dark, black-green color and for its very long standing qualities, being two or three weeks later than the ordinary varieties. Leaves are thick and spread out flat upon ground. Excellent for spring sowing, but not sufficiently hardy to withstand winter in this locality. Pkt. 5c; oz. 10c; ¼ lb. 15c; lb. 20c; 5 lbs. 70c.

Bloomsdale Savoy Leaved.—The leaves are wrinkled like Savoy Cabbage. Pkt. 5c; ¼ lb. 10c; lb. 25c; 5 lbs. 80c.

Prickly Seeded.—Triangular, arrow shaped leaves, one of the hardest and generally used for fall planting. Pkt. 5c; ¼ lb. 10c; lb. 20c; 5 lbs. 65c.

TOBACCO.

Connecticut Seed Leaf.—Pkt. 5c; oz. 15c; ¼ lb. 50c.

Imported Havana.—Pkt. 5c; oz. 20c; ¼ lb. 65c.
RADISH.

One ounce will sow 100 feet of drill; 8 to 10 lbs. will sow one acre in drills.

Radish seed should be sown in light, rich soil as early as the ground can be worked, and for a succession, at intervals of two weeks until midsummer. Radishes must be grown quickly and have plenty of room or they will invariably be tough and pithy. Sow in drills one foot apart and thin to two or three inches apart as soon as the rough leaves appear.

Early Scarlet Globe.—A most excellent radish for garden culture, and for hotbed forcing there is no variety so desirable as the Early Scarlet Globe. It is the earliest; its color is the handsomest; in flavor it is the mildest, most crisp, juicy and tender. It is the market gardener's favorite as a forcing radish. It forms small top, and will stand a great amount of heat without becoming pithy. Per pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 60c.

Ne Plus Ultra.—Remarkably fine in quality, of very quick growth, and ready to pull within twenty days after sowing. Perfectly globular little roots, of very bright color and excellent shape; certain to insure ready sale on the market. Per pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 60c.

Extra Early Scarlet Turnip, Forcing.—Of medium size, bright scarlet; quality superior. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 60c.

White Tipped Scarlet Turnip (Rosy Gem).—A most popular and attractive variety, a great favorite in many large markets. The radish is bright scarlet, with white tip, and of a beautiful shape; flesh white, crisp and finely flavored. Our seed is carefully grown from transplanted roots, and always produces radishes of fine scarlet color with a distinct white tip. Our strain is the finest in the market. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 50c.

Early Scarlet Turnip.—A round, red, turnip-shaped radish, with a small top and of very quick growth. A very early variety, deserving general cultivation on account of its rich color and crisp, tender flesh. Very desirable for early outdoor planting, as well as forcing. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 45c.

Freischl Breakfast.—A quick growing, medium sized radish, oblong in shape; color a beautiful scarlet, except the tip, which is pure white. A splendid variety on account of its excellent quality and attractiveness. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 45c.

White Summer Turnip.—A well known standard sort. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 45c.

Gray Summer Turnip.—Excellent for summer use, mild. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 45c.

Yellow Summer Turnip.—Withstands the heat and drought of summer well. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 45c.

Long White Vienna, or Lady Finger.—Skin and flesh pure white, mild, sweet, crisp, brittle, of quick growth. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 50c.

Long Scarlet, Short Top.—The long, slender, handsomely colored roots are most attractive in appearance. They are ready in about 25 days; crisp, brittle and of choicest quality. They attain a length of 5 to 6 inches, growing half out of the ground. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 50c.

Chartier.—It is one of the very best varieties for growing outdoors Roots are in good condition for the table very early and continue hard and crisp until they reach a diameter of about 1 1/2 inches, thus affording good roots for a very long time. The roots are long, cylindrical, and scarlet-rose in color, and gradually taper to a point and shade into white at the tip. Pkt. 5c; oz. 10c; 1/4 lb. 15c; lb. 50c.

White Strasburg.—This grows to the largest size and is usable when quite small, thus covering a long season. The mature roots are 4 to 5 inches long and about 2 inches thick, very white; the flesh is exceedingly crisp and tender. One of the best of the large summer sorts. Pkt. 5c; oz. 10c; 1/2 lb. 20c; lb. 50c.

Rose China Winter.—Very popular with market gardeners. Form conical, very smooth and of a bright rose color. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 50c.

Long White Spanish.—Root long, top-shaped, retaining the same diameter for two-thirds of its length, sharply conical at the base, and when full grown measuring seven or eight inches in length, and about three inches in diameter. Flesh white, solid and pungent. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 50c.

Round Black Spanish.—Roots round, sometimes top-shaped, three to four inches in diameter; skin black, flesh white, very compact and highly flavored. An excellent sort for winter, as the roots keep a long time. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 20c; lb. 50c.

Long Black Spanish.—One of the latest as well as the hardest of the radishes; an excellent sort for winter use. Roots oblong, black, of very large size and firm texture. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 20c; lb. 50c.

Mixed Radishes.—Superb mixture of all kinds of radishes, early, medium, fall, winter, etc. Sow a row of it and it will furnish you delicious radishes throughout the year. The early and medium ones as they mature and are pulled, make room for the larger growth of the fall and winter varieties. Pkt. 5c; oz. 10c; 1/4 lb. 20c; lb. 50c.
SQUASH.

One ounce early varieties will plant about forty hills; one ounce late will plant about twenty hills; 3 to 4 pounds to the acre.

Plant about the middle of spring in hills, the early sorts four to six feet apart, the late varieties eight to twelve. Thin to three plants in the hill. The soil cannot be too rich. Use Slug Shot to kill the bugs.

Hubbard.—The leading squash for fall and winter use, hard skinned, flesh dark yellow, fine grained, dry, sweet, rich. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c.

Warty Hubbard.—This new strain of the Hubbard is an improvement. The wartiness indicates a very hard shell, which is one of the best features of a long keeping squash. It also denotes extra choice quality; the harder and more warty the shell of a Hubbard, the more delicate and sweet the flesh. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c.

Summer Crook Neck.—Early, productive, and of good quality. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 55c.

Marblehead.—A very good winter squash, similar to the Hubbard. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c.

White Bush Scalloped.—Light cream color, large, flat, scalloped shaped, early. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c.

Boston Marrow.—A winter variety of excellent quality. Pkt. 5c; oz. 10c; ¼ lb. 20c; lb. 65c.

TOMATOES.

One ounce will produce about 1,500 plants.

Sow early in hotbeds or seed boxes, and when plants have four leaves transplant to four or five inches apart. Give plenty of air and endeavor to secure a vigorous growth. When all danger of frost is past, transplant to open ground, four to six feet apart each way. Well manured, light, sandy soil is best, but it must be remembered that a surplus of manure stimulates leaf growth to the detriment of fruit.

Spark's Earliana.—This is the earliest smooth, bright red tomato of good size now in cultivation. Plants are quite hearty, with rather slender open branches and moderate growth, well set with fruits, nearly all of which ripen very early in the season. The tomatoes are deep scarlet, generally smooth, and grow in clusters of five to eight, averaging two and a half inches in diameter. Flesh deep red and of slightly acid flavor. Pkt. 5c; oz. 20c; ¼ lb. 60c.

Atlantic Prize.—Comes in advance of such standard kinds as Acme, Beauty, etc. It bears in clusters, is of good size, smooth, round and of fine scarlet color. Choicest seed from specimen fruits. Pkt. 5c; oz. 20c; ¼ lb. 60c.

Buckeye State.—A fine new, extra large Livingston sort, nearly one-half larger than Beauty, deep color, smooth, heavy and of splendid quality. Pkt. 5c; oz. 20c; ¼ lb. 60c.

Bond's Early Minnesota.—Most of the extra early varieties are irregular in shape; this is always round and smooth. Vines vigorous, with rather small leaf; fruit of medium size, of good shape, and dark red color. Pkt. 5c; oz. 20c; ¼ lb. 60c.

Stone.—Vine vigorous and productive. Fruit round, apple shaped, large, very deep red in color and astonishingly heavy. Pkt. 5c; oz. 20c; ¼ lb. 60c.

Dwarf Champion.—Its habit of growth is peculiar, for not only is it dwarf and compact, but the stem is thick, stiff and short-jointed, it is actually self-supporting when laden with fruit. The fruit is of a purplish pink color, always smooth, and the flesh solid and of fine quality. Pkt. 5c; oz. 25c; ¼ lb. 70c.

Yellow Plum.—Good for preserving and pickling, plum shape, solid and smooth. Pkt. 5c; oz. 25c; ¼ lb. 70c.

Acme.—Early, medium size, very solid and productive, dark red, slightly tinged with purple. Pkt. 5c; oz. 20c; ¼ lb. 60c.

Livingston's Beauty.—A very fine variety of large size, grows in clusters of four or five. Pkt. 5c; oz. 20c; ¼ lb. 60c.
**TURNIPS.**

One ounce for 150 feet; two pounds to the acre.

Culture.—For early use, sow the small sorts as soon as the ground can be worked in the spring, in drills 14 inches apart. Rutabagas 18 inches. Thin plants of early varieties to 6 inches apart, and the Swedes to 1 foot apart. For fall and winter use, the early kinds should be sown from July 15 to Aug. 15. Swedes from June 15 to July 15.

Early Purple Top Munich.—A German variety, remarkably handsome, very early with purplish red top, flesh snow white and of fine flavor. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Red Top White Globe.—Similar to the Purple Top Strap Leaved except shape. The largest yielder of any turnip on the list and always brings top of market price. Desirable for table use or for stock. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

White Egg.—A quick-growing, egg-shaped, perfectly smooth, pure white variety with small top and rough leaves. Flesh very sweet, firm and mild, never having any rank, strong taste. Pkt., 5c; oz., 10c; ¼ 15c; lb., 45c.

Yellow Aberdeen.—Hardy and productive, good keeper, color pale yellow. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Early Flat White Dutch.—Standard variety, good marketable size, pure white, small top, with but few strap shaped leaves. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Long White, or Cow Horn.—This variety is carrot-like in form, growing nearly half out of the ground and generally slightly crooked. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Purple Top Strap Leaved.—The standard for this part of the country for late planting, and we sell immense quantities of it every year. One of the best table and stock sorts on the market, being fine grained and of mild flavor. Of good size, flat shape, pure white below with purplish red top. Good croper and excellent keeper. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

**RUTABAGA (Swedish Turnip).**

Largely grown in the northern states and Canada for stock feeding, and for this purpose they are superior to turnips. Sow in drills 2 feet apart and thin out to 8 inches in the row.

Imperial Hardy Swede.—Flesh orange yellow, of firm texture, very sweet, mild and well flavored. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

White Sweet German.—Large size, oval form and very solid, flesh pure white and sweet. This is the best keeping variety. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 40c.

Skirving’s Improved Purple Top.—A very popular variety; flesh firm, yellow, sweet and finely flavored. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 35c.

**SWEET, POT AND MEDICINAL HERBS.**

Herbs in general love a mellow and free soil. The chief points are to cut them on a dry day, when not quite in full bloom, and to dry them quickly in the shade, and when dry pack close in dry boxes, keeping them entirely excluded from the air.

</table>
VINE PEACH.

The vine is somewhat similar to the muskmelon vine, and requires the same cultivation. The fruit is of a bright orange-yellow color, somewhat russeted. For sweet pickles, pies or preserving, they are superb. Can be used in every way in which you would use a peach except that they are not usually liked raw. Pkt., 5c; oz., 20c; ¼ lb., 65c.

GARDEN LEMON.

Fruit is of the shape shown in our engraving, is somewhat smaller than Vine Peach, has thinner flesh, and is decidedly more acid, thus dispensing with the sliced lemons which are so important in putting up the Vine Peach. Pkt., 5c; oz., 15c; ¼ lb., 50c.

GROUND CHERRY.

Improved Yellow.—They grow well on most any dry soil; are easier raised than the tomato, and are prolific bearers, and oh! such luscious fruit. For sauce they are excellent, and for pies nothing can equal them for taste and flavor. They are delicious as preserves, and when dried in sugar are much better than raisins for cakes and pudding. Pkt., 5c; ½ oz., 25c; oz., 40c.

CHUFAS OR EARTH ALMOND.

In sweetness and flavor they resemble the cocoanut or almond and are considered very nice put on the table in a fruit dish with candies, as an after-dinner relish. Very prolific, a single one yielding from two to four hundred. The nuts grow underground, very near the surface. Plant in April, 10 inches apart, in 2½ foot rows. Cover them lightly. If seed is very dry, soak well before planting. Pkt., 5c; oz., 10c; ¼ lb., 50c.

RED CROSS PEANUTS.

As early as the earliest, and of the best quality. Boys, here is a chance for you. Think of growing peanuts in your own garden and having plenty of them to eat. Shell the nuts carefully so as not to break the inside skin, and plant as soon as the ground becomes warm, from two to three feet apart each way, four or five in a hill, covering two inches. The soil should be deep and mellow. Large pkt., 10c; lb., 40c; postpaid.

JAPANESE NEST EGG GOURDS.

Grows almost uniformly to the size, color and shape of a hen’s egg. The shells are hard and make the very best nest eggs, as they do not crack. The largest ones, when sawed in two, make excellent pots for starting tomato, strawberry and other plants. Pkt., 5c; oz., 15c.

SPECIAL OFFER.

One packet each of Vine Peach, Garden Lemon, Ground Cherry, Chufas, Red Cross Peanuts and Japanese Nest Egg Gourds for only 25c.
Realizing the vast importance of this branch of our business, we devote our careful attention to the growth and selection of the best farm seeds of all sorts.

**TRUE DWARF ESSEX RAPE.**

Dwarf Essex Rape, of the true biennial variety, is now largely grown in this country on account of its rapid growth, being ready to feed in eight to ten weeks from sowing, and producing 25 to 30 tons of green forage to the acre. It grows to a height of 3 feet and covers the surface so densely as to smother out all weeds. It can be sown all through the season, being perfectly hardy, withstands drought, and will produce a crop in any soil by sowing broadcast at the rate of five to ten pounds to the acre. Lb., 10c; 10 lbs., 75c; 25 lbs., $1.50; 100 lbs., $5.50.

**RUSSIAN FLAX.**

It will pay you to sow nice, pure high grade flax seed; it is one of the most profitable crops, especially on new land. Peck, 70c; bush., $2.25.

**WILD RICE.**

The only one of our native plants furnishing food for wild fowl, ducks, geese, etc. Sow in water having a mud bottom. Pkt., 5c; lb., 25c; 5 lbs., $1.15.

**SUGAR CANE.**

Wisconsin Early Amber.—The earliest and most popular variety, and makes the finest quality of amber syrup and excellent sugar. Lb., 5c; 10 lbs., 40c; 100 lbs., $3.50.

**THOUSAND-HEADED KALE.**

The seed can be sown early in April or any time thereafter until mid-summer. The plants grow to a height of 3 to 4 feet, and are so covered with small whorls of leaves that the name Thousand-Headed Kale has been given it. Per large pkt., 5c; ⅛ lb., 10c; lb., 35c, postpaid. By express, 5 lbs. or more, at 25c per lb.

**FIELD PEAS.**

Prices subject to market changes.

Scotch Beauty Peas.—Best blue field peas. Will yield an immense crop of superior quality. Per peck, 65c; bu., $2.50.

White Canada Peas.—More used than any other. Per peck, 55c; bu., $2.00.

Whip-Poor-Will Cow Peas.—The vines when fed green make the best fodder and are very nourishing. When ripened the ground peas make the best cattle fattener. Peck, $1.00; bu., $3.75.

**BOSTON PEA OR NAVY BEANS.**

Plant after the danger of frost is past, in dry, light soil. Best crops are grown in rich soil; but beans do well in ordinary soil. Plant 1½ bushels to the acre in hills, same as corn, or in drills. Hand picked. Quart, 15c; peck, 80c; bushel, $3.00.

Lentils.—A leguminous annual. Succeeds best in dry, sandy soil. Splendid pigeon food and also used extensively for soups. Lb., 25c, postpaid; 100 lbs., $10.00.

Lupins, Yellow.—Succeeds well in the poorest soil, and is exceedingly valuable for plowing in to improve sandy soils. Sow in the spring when the ground has become warm, at the rate of 90 pounds to the acre. Lb., 10c; 10 lbs., 85c; 100 lbs., $7.50.
OATS.

Green Mountain Oats.—An excellent variety coming in about the same time as Swedish Select. The grain is long, white and heavy, and the straw stiff and short, standing up well. Peck, 35c; bu., $1.15; 5 to 10 bu. at $1.15 per bu.

Big Four Oats.—An old favorite, medium early, grain white and heavy with a thin skin and free from awns. The straw is strong and stiff and stands up well. Peck, 35c; bu., $1.15; 5 to 10 bu. at $1.00 per bu.

Swedish Select Oats. (Wis. No. 4.)—Introduced by the U.S. Department of Agriculture a few years and now the most popular oats on the market. Its good points are earliness, yield, fine appearance of grain, stiffness of straw and freedom from rust and smut. It appears to be best adapted to high land, the best returns being obtained on clay loam. Peck, 35c; bu., $1.15; 5 to 10 bu., $1.00; 10 to 50 bu., 90c.

Regenerated Swedish Select Oats.—The stock we offer was imported by us direct from the Garten Seed Co., England, who are the originators. By their methods the yield and quality have been greatly improved. The oats this year actually weighs 50 lbs. to the bushel, and the yield was about 25 per cent more than the maximum yield of Swedish Select Oats in this country. Peck, 85c; bu. (32 lbs.), $3.00; 2½ bushels and over, $2.75.

MINNESOTA NO. 169 SPRING WHEAT.

The "Grand Prize" Wheat at the World's Fair, St. Louis. Minnesota No. 169 Wheat was the only wheat awarded a Grand Prize (the highest possible award) at the St. Louis World's Fair in 1904. It was first sent out by the Minnesota Experiment Station in 1902, ten years after being started from a single seed of Blue Stem. It is therefore an Improved Blue Stem or Velvet Chaff. For a term of 8 years on the Minnesota Station Farm it averaged 18 per cent more in yield than its parent, the Blue Stem. In quality and milling value it takes high rank, being fully equal to the famous Blue Stem. Minnesota farmers are very enthusiastic over it and are growing it largely now all over the state.

For heavy yield, strong vigorous growth and freedom from smut and rust Minnesota No. 169 now leads all other varieties of spring wheat. We have pure high grade seed, from a reliable grower. Prices: ½ pk., 30c; pk., 50c; bu. (60 lbs.), $1.75; 2 to 10 bu. at $1.65; 10 bu. or over at $1.60. Special prices for large quantities.

DURUM WHEAT (Macaroni).

Kubanka No. 5639.

The Wheat that Succeeds Where Other Wheat Cannot be Grown.

It is only about 7 or 8 years since Macaroni Wheat was first introduced in this country, but it is now a leading variety in all the great wheat markets, especially Minneapolis and Duluth. So great is its popularity that it threatens to supersede all other spring wheats. Peck, 50c; bu., $1.65; 2½ bu., $4.00.

SPELTZ OR EMMER WHEAT.

A most wonderful new grain, somewhat similar to wheat. Will thrive on most any soil and yields immensely, very often more than barley and oats. It has given good satisfaction to my customers, and every farmer should try it. Peck, 35c; bu., $1.25.

BUCKWHEAT.

Silver Hull.—A greatly improved variety. It is in bloom longer, matures its crop sooner, and yields twice as much as any ordinary sort; the grain is rounder, of a beautiful light gray color. The flour is white and more nutritious. Peck, 45c; bu., $1.15.

Japanese.—Ripens a week earlier than Silver Hull, stands up well, and makes better flour than any other kind of buckwheat. Peck, 45c; bu., $1.15.

SPRING RYE.

Valuable as a "catch" crop to sow where winter grain has failed. Peck, 45c; bu., $1.50.

ODERBRUCKER BARLEY, WIS. NO. 55.

A new variety introduced by the Wisconsin Agricultural Experiment Station in 1906. The heaviest yielding and plumpest 6-rowed barley ever introduced into the United States. Peck, 40c; bu., $1.25; 5 bu., $6.00.

MANDSCHEURI BARLEY.

An early six-rowed barley, maturing in 80 to 90 days from time of sowing, very strong strawed and stools well, bearing large, well-filled heads of beautiful plump berried grain, possessing malting qualities of a high order, and adapting itself readily to a wonderful variety of soils. Peck, 35c; bu., $1.25.
CHOICE SELECTED NORTHERN-GROWN SEED CORN.
The Seed We Offer is Grown for this Purpose, Carefully Selected.

SILVER KING CORN—(Wis. No. 7).
This Corn was originally obtained by the Wisconsin Experiment Station from northern Iowa, and by a careful selection of the best and earliest ears we now have a White Dent Corn with large ears, small cob and deep kernels that is suited to our Wisconsin conditions.
The ears of this Corn average 8 to 9 inches in length and are always well filled out to the tips. As a yields it has no superior. Two years ago 275 members of the Wisconsin Experiment Association reported an average yield for this Corn of 10 bushels per acre more than any other sort. The same year Prof. Moore of the Wisconsin Experiment Station reported a yield of 75 bushels per acre of this. This was a remarkable yield when taking into consideration that the average crop of Corn in Wisconsin was only 33 bushels per acre.

EARLY YELLOW DENT CORN—
(Wis. No. 8).
This Corn was secured by the Wisconsin Experiment Station from Prof. Hays of the Minnesota Experiment Station in 1902, as Minn. No. 13. It is noted for its early maturity, and can be depended on to ripen anywhere in Wisconsin, and is especially adapted for the lake shore counties and northern Wisconsin, where the seasons are too cool and short for Silver King and other large sorts. It makes a fairly large stalk growth, well clothed with leaves. The ears average 7 to 8 inches long. Quart, 20c; peck, $1.00; bu., $2.75.

KOSS' EARLY GOLDEN SURPRISE.
Unapproachable as a yielder, it withstands the harshest weather and when shelled this corn produces a superior quality on account of extreme smallness of cob and depth of grain. The grains are of a rich golden color, very deep, and profitable on account of small per cent. of waste of cob. The cob is so small that 35 pounds of ears produced 31 1/4 pounds of shelled corn. The Corn is a vigorous grower, with short, strong stocks and an abundance of deep green foliage, which makes it an excellent fodder corn. It matures uniformly in 90 days from planting, and all points considered it is the best field corn in cultivation. Golden Surprise is the greatest money earner yet introduced to the American farmer. There can be nothing of greater importance to him than to increase the yield and feeding value of corn. Early Surprise will give that result. Quart, 15c; peck, 50c; bu., $1.50; 2 1/4 bus., $3.50.

IOWA GOLD MINE.
A handsome early Corn, ripening a few days after Pride of the North; ears are of good size, very even and uniform in shape, cob small, with very deep grains of a bright golden color, which dry out very quickly as soon as ripe. Ears have been shelled of this variety which produced 64 pounds of shelled corn and only 6 pounds of cobs to the bushel. Quart, 15c; peck, 50c; bu., $1.50; 2 1/4 bus., $3.50.

IOWA SILVER MINE.
A very popular White Dent Corn, maturing medium early. The stalks grow seven to eight feet high, in many cases yielding two and three good ears, which are set about four feet from the ground. Quart, 15c; peck, 50c; bu., $1.50; 2 1/4 bus., $3.50.

WHITE CAP YELLOW DENT.
This now famous corn possesses the earliness of Pride of the North, and will produce a greater yield on thin, poor land than any other corn. Grows about 6 to 7 feet in height, with abundant foliage and fine large ear. The tip ends of the grains are white, the inside yellow, making it a beautiful color, both when on cob and when shelled. Quart, 15c; peck, 50c; bu., $1.50; 2 1/4 bus., $3.50.

ANGEL OF MIDNIGHT.
An extra early yellow flint, 8-rowed variety. The ear is perfect in shape; length 10 to 13 inches. Rows straight and even, and filled from tip to tip; stalks are of medium size. Quart, 15c; peck, 45c; bu., $1.50; 2 1/4 bus., $3.50.

WISCONSIN WHITE DENT.
The best White Dent for this northern latitude, 16 to 20 rows, small cob, large kernels. Quart, 15c; peck, 50c; bu., $1.50; 2 1/2 bus., $3.50.
KOSS’ GOLDEN BEAUTY CORN.

Has the Largest Grain and Smallest Cob of Any Corn in Cultivation.

This famous corn still retains its popularity as an exceedingly early and prolific variety, always maturing in 90 days; often shelling 62 pounds of grain from 70 pounds of ears. Kernels closely set, large, of deep orange color; cob very small; stalks about 7 feet in height. This is probably the best Dent Corn for general cultivation in the North, and is now largely used in the South and West, as it matures its crop before the hot winds affect it. We offer pedigree seed grown from the original stock with care. This corn is not fully appreciated until the large yield and small percentage of cob is carefully noted. There is no yellow Dent Corn yet discovered that can take the place of this most valuable variety. It is a safe corn for any section of country, never disappoints the grower by maturing too late, yields more corn acre for acre than any other, and has by far the most satisfactory record of any yellow Dent Corn ever introduced. Quart, 15c; peck, 50c; bu., $1.50; 2½ bush., $3.50.

PRIDE OF THE NORTH.

No variety of corn has been more extensively grown in the northwestern states than this. It is early, with a fairly large ear and small cob closely set with deep kernels; color bright yellow. It will shell 60 to 64 lbs. per bushel of 70 lbs. of ears; 14 to 16 rows often placed irregularly on the small red cob. Quart, 15c; peck, 45c; bu., $1.50; 2½ bush., $3.50.

BRAZILIAN FLOUR CORN.

A grand stooling sort; each kernel produces several stalks, each stalk bears two or three beautiful white ears which make a flour equal to wheat. It produces an immense amount of fodder for feeding stock. Quart, 20c; peck, 85c; bu., $3.00.

SWEET FODDER CORN.

This is made up of any unselected stock we may have of Sweet Corn and is valuable for feeding, the stalks and stems being so sweet and juicy that cattle eat it up greedily, leaving no waste of stalks, which is common with other fodder Corns. Quart, 15c (by mail 25c per quart); peck, 65c; bu. (measured), $2.50.

PEDIGREE RED COB ENSILAGE CORN.

This variety is now grown in the large dairy regions of Wisconsin so extensively as almost to exclude all of the other so-called Fodder Corns, and the verdict is that it is the best. It is sweet, tender and juicy; has short joints, abundance of leaves, and grows to a great height, furnishing more than double the bulk and much more nourishment than ordinary field Corn. Every lot is tested and re-cleaned, hence you buy no cobs or dirt. Peck, 40c; bu., $1.25.

KAFFIR CORN.

Stocky and perfectly erect, foliage broad. The seed heads grow from 10 to 12 inches in length and the product of grain will average 60 bushels to the acre. Lb., 6c; 10 lbs., 40c; 100 lbs., $3.50.

JERUSALEM CORN.

Claimed by many to be an improvement on Kaffir Corn, as it is a surer crop in unfavorable seasons. Produces a large crop of foliage which is of very good quality. Seed white and nearly flat. Yields a good grain crop also. Three to four pounds will plant an acre in drills, 40 to 50 lbs. broadcast. Pound 8c; peck 60c; bushel (50 lbs.) $2.25.
SEED POTATOES

"The Proof of the Potato is in the Eating."

Prices on potatoes frequently change as the market advances or declines. If you want a quantity write us for special quotations.

With no other seed is the importance of change more essential than with potatoes, and by using our northern grown seed you are assured of early maturity, inewedase and vigorous growth. The following varieties are, we think, the best and most satisfactory sorts for growing in Wisconsin and other states of the same latitude. Most of our seed potatoes are grown in Minnesota or the Dakotas and are of superior quality. Order as early as possible and we will ship as soon as weather permits.

Pound Prices.—All varieties, except where quoted, 25c per lb., 3 lbs. 60c, postpaid.

Early Prosperity.—An extra early sort that is of such superior merit that it is sure to at once take a tront place with market gardeners as well as with everyone who wants a potato of first-class quality which will mature very early. It is a seedling which was offered last year for the first time and in it we have for by far the earliest white potato that we have ever seen. While it is not so much earlier than our Triumph, still it is much larger, of better quality and does well on soils which do not seem favorable to the Triumph. It is of very strong, vigorous, healthy growth appearing to be entirely blight proof. The tubers are of oval shape, slightly flattened, smooth, and few eyes. They cook well even when small and are white, floury and of excellent flavor. Summing it all up it is as early as any potato on our list, of handsome shape and color and unsurpassed for table use. Per peck 75c; bushel $2.50.

Extra Early Ohio.—Early Ohio is the most popular early potato in this country. We have more calls for it than for any other variety. Every potato grower knows what it is, and knows just about what it will do in his locality. It is the standard extra early the country over, and other varieties are measured by it. We have an extra choice strain of Early Ohio. We will venture to say that not one farmer in ten, the country over, who thinks he has Early Ohio has pure stock. Most of them do not know that they are mixed. But Early Ohio is an old variety and has become frightfully mixed throughout the United States. Farmers and market gardeners, better sell off your own Ohioos and get some of our pure improved, grown from Red River Valley seed. Peck, 45c; bushel, $1.45; barrel, $3.50.

Bliss Triumph.—The Earliest Potato in Existence. A handsome round variety which is by far the earliest variety in the world, maturing a week before the Extra Early Ohio, and is wonderfully productive. The tubers are not large, but are of medium size for early use, and a beautiful red color. For several years past it has been the most popular variety in the southern states and in the Bermudas, and hundreds of carloads are shipped to the northern market and bring fancy prices. It is a vigorous grower and we recommend it for the first early market or family use. Peck, 50c; bush., $1.50; barrel, $3.50.

Thoroughbred.—This is an elegant new potato of the Early Rose type and in every respect just as good, if not better, than this when first originated. The skin is of a beautiful pink color, shape oblong to long and very regular; the eyes, although large, are even with the surface. It is a rank and free grower of vines and tubers, with so much vitality and vigor that it is certain to make a good crop even in seasons of severe droughts. The tubers grow large to very large, and are of handsome appearance, and the table qualities are of the very best. It is a seedling of the Early Rose and claimed to be 19 days earlier than this. Besides being so early it is an enormous yielder, and, in fact, all who have tried it consider it a perfect potato for early marketing; being of such extreme earliness, very large size and handsome form, they will always sell at first sight on the market. Peck, 45c; bu., $1.45; barrel, $3.45.

The Freeman Potato has fully realized the glowing predictions which I made for it at the time of its introduction. It proved to be a rival of the famous Early Rose, and my customers have made money out of it. The Freeman is a strong grower, containing fresh, vigorous blood. It is early in reaching maturity and enormously productive, and is universally admitted to be the finest flavored potato on the market. People say that when once used on the table it is sure to remain there on account of its superlative excellence. Peck, 45c; bu., $1.45; barrel, $3.45.
POTATOES—Continued.

Sir Walter Raleigh.—The two greatest money makers of recent years have been Rural New Yorker No. 2 and Carman No. 3. Both originated with the late E. S. Carman of the Rural New Yorker. Since then Sir Walter Raleigh has been brought forward as “Mr. Carman’s Best.” The introducers say: “In most respects it closely resembles Rural New Yorker No. 2, but is more uniform and yields practically no small tubers, every one being remarkable. It is unquestionably the best of its type. Farmers who plant this variety are practically certain of getting big returns on their investment, as it invariably yields big crops and the potatoes will always sell. Peck, 50c; bushel, $1.50; barrel, $3.75.

Carman No. 3.—This handsome main crop potato is of large size, yielding immense crops of uniform size and shape. It is of perfect form, almost every potato being of same size and shape, and averaging nearly one pound each in weight, in good seasons. It is a remarkably handsome potato, enormously prolific, and will please all potato growers. Keeps well. Per peck, 45c; bushel, $1.45; barrel, $3.45.

HOTTENTOT.—The potato of quality. This variety is very popular with the farmers, by reason of its great yielding qualities and the heavy, solid tubers of good shape and large size which make it a favorite variety in the market. We list it here in deference to the local sentiment, as we are sure that any variety that will stand the test of public demand and at the same time give full satisfaction to the grower is worthy of wide dissemination. The tubers are exceedingly heavy for size, indicating close grain,—the real basis of table quality. Color is white slightly russeted, and the plant is very vigorous and prolific. For main crop will produce enormous yields and will keep longer than ordinary varieties. Pkt., 60c; bu., $1.75; bbl., $4.25.

PENCILARIA.

This wonderful fodder plant has proven a great boon to farmers, especially in dry sections of the country where they have been delighted with it. It does not do so well during wet seasons, being particularly a dry, hot weather plant. Seed is very small, and when it first comes up it looks like grass, but very soon changes its appearance so that it more nearly resembles corn, growing very rapidly and having broad, succulent leaves. It stands out wonderfully, our customers reporting as high as 75 stalks grown from one seed. Sow in May or June in drills 24 to 36 inches apart, using 2 pounds seed per acre, or broadcast 15 pounds per acre. Per pkt., 5c; ¼ lb., 15c; 1 lb., 35c; 3 lbs., $1.00, postpaid. By express, lb., 25c; 5 lbs., $1.00; 25 lbs., $3.75; 100 lbs., $13.50.

AUSTRALIAN SALT BUSH.

This forage plant from Australia is a wonder for the alkali plains of the West. Yields 20 tons of green fodder per acre. Plant is perennial. Pkt., 10c; oz., 15c; ¼ lb., 40c; lb., $1.25.

TEOSINTE.

Somewhat resembling corn in appearance, but the leaves are much longer and broader, and the stalks contain sweeter sap. Horses and cattle eat it as freely as young sugar corn. Large pkt., 5c; oz., 15c; ¼ lb., 30c; lb., 90c; 2 lbs. (sufficient for 1 acre), $1.75.
MILLETS.

There is nothing like millet to cover up shortage in your hay crops. It can be sown up to the middle or end of July and makes a valuable catch crop. Grain bags 15 cents each extra. Prices subject to market changes.

Common Millet.—Very early, grows 2 to 3 feet high, foliage broad. Lb., 5c; 5 lbs., 20c; 10 lbs., 35c; bu., $1.50.

Hungarian (Grass) Millet.—A valuable forage plant, similar to common millet. Lb., 5c; 5 lbs., 20c; 10 lbs., 35c; bu., $1.50.

Hog Millet.—A valuable variety, maturing at the same time as Hungarian Grass; very productive. Lb., 5c; 5 lbs., 20c; 10 lbs., 35c; bu., $1.50.

German Millet.—Much better than Common Millet, as it will produce double the crop. It grows 4 to 5 feet high, very leafy, seeds round, golden yellow. About two weeks later than Common Millet. Our seed is southern grown and is much superior to northern grown seed as it yields more. Sow ½ bushel per acre. Price, best grade, lb., 5c; 5 lbs., 20c; 10 lbs., 35c; bu., $1.50.

Japanese Millet (Crus Galli).—Perhaps the most valuable introduction of recent years in the line of forage plants. Adapted to all sections and a great success wherever tried. It is very highly recommended by the U. S. Agricultural Department and by the Experiment Stations. It grows 6 to 8 feet high and produces immense crops of splendid feed, especially on moist soils. As high as 16½ tons have been reported from one acre, and it makes excellent hay, superior to corn fodder. Sow broadcast, 12 to 15 lbs. per acre. 1 lb., 8c; peck, 60c; bu., $2.00.

SUNFLOWER.

Mammoth Russian.—The largest of all sunflowers. This is without doubt one of the best paying crops that can be raised. Seeds are the best of food for poultry and is much cheaper to raise than corn. Stalks, which grow very large, make excellent fire-wood. It is also said to afford protection against malaria. Lb., 10c; 3 lbs., 25c; 10 lbs., 65c.

ARTICHOKE—IMPROVED WHITE FRENCH.

Their wonderful productiveness and the ease with which they can be produced is always a surprise to those who cultivate them the first time. Forty head of hogs and pigs may be kept without other food on an acre of Artichokes from the time frost is out of the ground until they grow again, and from October 1st until the ground freezes solid. Hogs taken from Artichokes to Blue Grass and Clover will not root up the sod, as they are free from intestinal worms, constipation, indigestion and fever, caused by feeding corn in winter. They can be planted either in fall or spring, for while in the ground freezing and thawing does not hurt them. Cut to one eye like potatoes, and plant in rows 3½ feet apart and 18 inches in the row. When dug in the fall and stored they should be mixed with one part of soil to ten parts of Artichokes, to prevent shrinking. Per peck, 75c; per bushel, $2.50; per 3-bushel lots, sufficient for one acre, $7.00. By express or freight only.

KOSS’ SEEDS ARE HONEST SEEDS AT HONEST PRICES.

SAND VETCH,

Or Winter Vetch.

A comparatively new forage plant which has proved of high value, and is highly recommended by the U. S. Dept. of Agriculture. Succeeds and produces good crops on poor, sandy soil, but is more vigorous on good land and grows 4 to 5 feet high. Perfectly hardy throughout the United States; is green all winter. Exceedingly nutritious, more so than clover, eaten with a relish, may be fed to all stock. Earliest for cutting and a full crop may be taken off before planting spring crops. Sow ½ bu. per acre in spring or fall. Per lb. 15c; 10 lbs. $1.00; 25 lbs. $2.00; 100 lbs. $7.50.
GRASS AND CLOVER SEEDS.

Prices subject to market fluctuations.

Meadow Fescue, or English Blue Grass.—Succeeds well in almost all soils, from high, dry land to moist, standing the dry summer heat. It is valuable as pasture. It grows one of the earliest in the spring and the latest in the fall. It is hardy, never grows in tufts, and being tender and succulent, makes excellent hay. It is a perennial, 2 to 3 feet high, flowering in June and July. Pound, 25c; bu., $3.00; 100 lbs., $20.00.

Orchard Grass.—One of the most valuable of all pasture grasses, coming earlier in spring and remaining later in autumn than any other. It grows about 2½ feet high, producing an immense crop of straw. It grows in tufts, and is therefore not adapted for growing alone, but should be grown with red clover. Tall Meadow Oat Grass, or Rye Grass. Pound, 20c; bu., $2.50; 100 lbs., $16.00.

Tall Meadow Oat Grass.—For either hay or permanent pasture. Does well on any soil, but of special value on clay land. Grows tall, and therefore desirable for meadow. Does not winter kill. Seldom sown alone, but should be included in all mixtures. Lb., 20c; bu., $1.85; 100 lbs., $17.50.

Red Top.—Sown largely in marshy land and swamps in this country. In the East it is one of their principal sorts, but is not so highly valued here. It makes a fine, close turf of fair quality when not allowed to go to seed. Solid or Fancy clean seed. Lb., 20c; 10 lbs., $1.75; 100 lbs., $15.00.

Perennial Rye Grass (or English Rye Grass).—A nutritious permanent grass for meadows and pasture, or for mixing with other grasses for lawns. Does well on sloping banks, as its roots are fibrous and mat-like. Does well on almost any land, but prefers rich or moist soil, such as will produce a good corn crop. Sow 20 lbs. per acre. Pound, 12c; bushel, $1.50; 100 lbs., $9.00.

Italian Rye Grass.—An annual variety of above, which can be depended upon to give a large crop the first year. Valuable for sowing with crimson clover as a catch crop on red clover fields where clover has winter killed. Pound, 12c; bu., $1.60; 100 lbs., $10.00.

Crested Dogstail.—For permanent pastures, especially on high land and hard, dry soils and hills; very hardy, little affected by extreme drought or cold. Pound, 30c; bu., $5.75; 100 lbs., $27.50.

Sheep's Fescue.—Is suited to light, sandy soil, and dry uplands or hillsides. It is deep rooted, and not affected by extreme drought. Sheep are especially fond of it. Sow 14 pound per acre. Pound, 25c; bu., $3.00; 100 lbs., $20.00.

Wood Meadow Grass.—Invaluable for wooded pastures or shaded ground, and should be in all mixtures for permanent pastures, especially in shady places. Sow 20 pounds per acre. Per lb., 70c; bu., $8.00; 100 lbs., $60.00.

Meadow Foxtail.—Closely resembles Timothy, but flowers much earlier, and thrives in all soils excepting dry sand or gravel. It succeeds best in strong, moist, rich soils. It is highly relished by all kinds of stock, endures close cropping, and forms a luxuriant aftermath. Many farmers confound this with our wild Foxtail or Squirrel Grass, which is a great mistake, as this is really a valuable variety. (10 lbs. per bushel.) Per lb., 25c; per bu., $2.25; per 100 lbs., $20.00.

Kentucky Blue Grass.—It is productive and unusually early in the spring, furnishing delicious foods for all kinds of stock. It is not easily affected by drought or frost, is suited to a great variety of soils. Unexcelled for lawns. Our seed is all new crop, and the best grade. "Fancy Cleaned." Pound, 25c; bu., $3.00; 100 lbs., $17.50.

Bromus Inermis.—This useful grass, also called Hungarian or Smooth Brome Grass, grows to a height of 3 or even 5 feet. It is a native of Hungary. It has done well in America, especially on dry, arid soils, in which situations its drought-resisting qualities are seen to advantage. It is claimed for it that it will succeed in a wider range of temperature than any other grass, and that it will produce satisfactory crops on land too poor to support timothy and the other agricultural grasses. Weight of seed, 14 lbs. to the bushel. Sow 20 to 25 lbs. per acre. Pound, 1s; bu., $1.75; 100 lbs., $12.00.

Timothy.—Wisconsin grown thoroughly re-cleaned seed. Subject to market changes (45 lbs. per bushel). Per lb. 10c; per bushel $2.25; per 100 lbs. $5.00.
CLOVER SEED.

Prices subject to market changes.

No other plant is of such importance to agriculture as clover, and this not only on account of its great value for pasture and for hay, but by far its greatest value comes in as a soil reclaimer as it restores fertility to the land that has been exhausted by continuous cropping. Clover is the foundation to all successful farming and is unquestionably the most useful plant that can be grown on the farm.

Medium Red Clover.—This is the most important of all clovers and the standard everywhere for hay and pasture. It is known as Common Red or June Clover in many sections. Our Wisconsin grown clover seed has become widely known for its purity, strong vitality, hardness, vigorous and healthy growth, and stooping qualities, so that now we receive many orders from the most distant parts of the United States. Well posted farmers are beginning to appreciate the difference between it and ordinary stock. Per lb., 20c; peck, $2.50; bu., $10.00; 100 lbs., $16.00.

Mammoth Red Clover.—Also called Sapling or Pea Vine Clover. This greatly resembles the Medium Red, but is of much taller and more vigorous growth. Nothing equals it for hog pasture as it will produce an enormous yield and is of the highest feeding quality. It gives quick results, making an unequalled crop, and is usually considered a permanent pasture grass. If your soil is poor and needs enriching there is no fertilizer as cheap and good as sowing Mammoth clover and plowing the crop under. Per lb., 20c; peck, $2.50, bu., $10.00; 100 lbs., $16.00.

White Clover.—It is the most hardy of any variety of clover, and as it is of a creeping habit it is desirable for sowing on terraces or sloping grounds. Price for our choicest quality, per lb., 30c; 5 lbs., $1.35; 10 lbs., $2.50. Sardella.—For very dry soils. Lb., 15c; 10 lbs., $1.00; 100 lbs., $8.50.

Crimson Clover (also called Giant Incarnate).—This is an annual variety in common use in the East and South for feeding green. The yield in fodder is immense, and after cutting it at once commences to grow again and continues until severe cold, freezing weather. It grows about 1 foot high, roots nearly black, leaves long, blossoms long, pointed and of a very deep red or carmine color.

Crimson Clover.

Alfalfa, or Lucerne Clover.—Under proper management it will yield 10 to 12 tons to the acre. All classes of stock are exceedingly fond of it. The roots are so long and grow so deep, frost cannot heave or throw them out in winter. One sowing will stand for 20 years, and instead of impoverishing the soil, enriches it. Grows on the thinnest sandy soil and thrives in greatest drought. Sow broadcast about 25 lbs. to the acre. Comes up very spindling and slowly, and it is necessary to mow the weeds to give it light, but when once established, the weeds will be smothered. Lb., 25c; peck, $3.00; bu., $11.75; 100 lbs., $19.50.

Turkestan Alfalfa.—This has recently been introduced into cultivation by our Agricultural Department. It was found growing on the high table lands of Asia, and is especially adapted to the sudden changes of temperature that prevail there—intense heat at midday and very often frost at night, even in midsummer. It resembles the ordinary Alfalfa, described on this page, excepting that the leaves are shorter and are sparsely clothed with short hairs. Its cultivation has been quite successful in the arid regions of the West, and under conditions where Alfalfa or Lucerne fails the Turkestan Alfalfa will prove to be of the greatest value. Lb., 25c; peck, $3.25; bu., $12.00; 100 lbs., $19.75.
SPECIAL GRASS AND CLOVER MIXTURE.

PERMANENT MEADOW MIXTURES.

Will make the best quality hay as the mixture contains such grasses as produce a heavy growth and mature together. Sow from 15 to 20 lbs. per acre, or for a top seeding about half the amount.

No. 1. For Medium Soils.—Contains Meadow Fescue, Perennial Rye Grass, Italian Rye, Orchard Grass, Tall Meadow Oat, Timothy, Red Clover, Alsike, Sweet Vernal, etc.

No. 2. For High, Dry Land, Light or Gravelly Soils.—Contains Sheep's Fescue, Alfalfa, Hard Fescue, Perennial Rye Grass, Meadow Fescue, Timothy, Kentucky Blue Grass, Sweet Vernal, etc.

No. 3. For High, Dry Land, Heavy or Clay Soils.—Contains much the same as above with the addition of Orchard Grass, Crested Dogstail and Bromus.

No. 4. For Moist and Rich Soil, or Land Subject to Overflow. — Contains Water Meadow Grass, Meadow Foxtail, Perennial Rye Grass, Meadow Fescue, Red Top, Meadow Soft Grass, Alsike Clover, etc.

No. 5. For Top Seeding Swamps, Marshes, Etc.—(Sow 10 lbs., per acre.) Contains much the same as above, in different proportions.

Prices: Any of the above Permanent Meadow Mixtures, per lb. 25; 10 lbs., $2.00; 20 lbs., $3.75; 50 lbs., $8.75; 100 lbs., $17.00.

PERMANENT PASTURE MIXTURES.

Selected with a view of having a succession of grasses coming on constantly from earliest spring through the dry summer weather, and through the fall. It is permanent and keeps improving year after year. Sow from 15 to 20 pounds per acre, or for top seeding, half the amount.

No. 6. For Medium Soils.—Contains Kentucky Blue Grass, Meadow Fescue, Perennial Rye Grass, Orchard Grass, Tall Meadow Oat Grass, Hard Fescue, Alsike Clover, White Clover, Timothy, Red Clover, etc.

No. 7. For High, Dry, Gravelly Soils.—Contains Sheep's Fescue, Hard Fescue, Creeping Bent, Bromus Inermis, Crested Dogstail, Meadow Fescue, Timothy, Kentucky Blue Grass, White Clover, etc.

No. 8. For High, Dry, Heavy or Clay Soils.—Contains much the same as above, mixed in different proportions, with the addition of Alfalfa and Orchard Grass.

No. 9. For Moist and Very Rich Soils.—Contains Perennial Rye Grass, Water Meadow Grass, Water Fescue, Meadow Foxtail, Orchard Grass, Meadow Soft Grass, Tall Meadow Oat Grass, Alsike, etc.

No. 10. For Orchards, Wood Pastures and Shady Places. — Contains Wood Meadow Grass; Orchard Grass, Kentucky Blue Grass, English Blue Grass, Meadow Foxtail, Sweet Vernal, Red Clover, Alsike, etc.

Prices: Any of the above Permanent Pasture Mixtures, per lb., 25c; 10 lbs., $2.00; 20 lbs., $3.75; 50 lbs., $8.75; 100 lbs., $17.00.

SHEEP PASTURE MIXTURE.

Everyone who keeps sheep should sow this mixture. It will grow well on high, dry, poor soil, and also on good ground; is drought resisting and endures close cropping. Contains Sheep's Fescue, Hard Fescue, Red Fescue, Creeping Bent, Crested Dogstail, Bromus Inermis, Meadow Fescue, White Clover, etc. Sow 25 lbs. per acre. Prices: Per lb., 25c; 10 lbs., $2.25; 25 lbs., $5.00; 100 lbs., $15.00.

QUICK RESULT PASTURE.

Not permanent, but when sown early will give a full crop of hay and good pasture until late in the fall. Desirable for both cattle and hogs. Contains Italian Rye Grass, English Rye Grass, Meadow Fescue, Timothy, Crimson Clover, Mammoth Red Clover, Tall Meadow Oat-Grass, etc. Sow 15 lbs. per acre. Price per lb. 20c; 10 lbs. $1.75; 25 lbs. $4.00; 100 lbs. $15.00.

PERMANENT HOG PASTURE.

Ready to use the first year and many years thereafter. Will fatten the hogs quickly and keep them in good health. Much superior to a corn diet for them and helps keep hog cholera and similar diseases away. Contains Perennial Rye Grass, Orchard Grass, Italian Rye Grass, Clover, Timothy, Red Top, etc. On any ordinary soil sow 15 lbs. per acre. Price per lb. 20c; 70 lbs. $2.00; 25 lbs. $4.50; 100 lbs. $16.50.
KOSS’ LAWN GRASS SEED

“Thank God for grass! No other glory vies
With the refreshing glory of the grass;
Not even the blue of the o’er-hanging skies,
Nor fading splendor when the daylight dies,
Can this sweet smile of living green sur-
pass.”

A nice, velvety lawn adds more to the beauty of a place than any other adornment, and even the humblest home may be made attractive with such surroundings, while without a good lawn even the finest flowering plants and elegantly arranged beds seem insignificant. How important it is then to plan for the best lawn obtainable. Do not spend money in sodding a lawn, for it is expensive and seldom satisfactory. When sod is cut from the roadside or some out of the way pasture, it is poor in quality and full of weeds, and when unevenly laid produces a rough surface which disfigures the lawn. It costs much less to sow the seed and the lawn is far better. Ask for circular, “How to Make a Lawn.”

Three to four bushels of Lawn Grass Seed should be sown per acre, or one quart for every 300 square feet. It is necessary to sow the grass seed very thick so as to obtain a close stand, which will prevent the weeds from coming up. A great many lawns have to be sown over again when not enough seed has been used. After sowing the seed it should be harrowed or raked in lightly, which should be followed by a roller so as to bring the seed in direct contact with the soil and insure an immediate sprouting. If a roller is not at hand, firm the ground down by means of a wide board or plank.

Evergreen Lawn Grass Seed.—This is a mixture of the best varieties of grass seeds suited for growing together in the central and northern states and will make a beautiful, soft velvety lawn, as handsome green as an emerald, and is formed of grasses which keep green from early spring all through the hot dry summer weather, until late in the fall. It comes up quickly (in about two weeks after seed is sown) and after once up it soon spreads to cover the ground and is ready for the lawn mower in six or eight weeks. It is permanent, maintaining its beauty for a life-time, although it is a good plan to give any lawn a topseeding once every two or three years. This mixture is made by ourselves from new crop, recleaned pure seeds of the best varieties, well suited for even and permanent growth, as good as money can buy. It cannot be excelled for producing a rich velvety lawn of permanent beautiful dark green color. Pint 10c; quart 20c; lb. 25c; 5 lbs. $1.15; 20 lbs. (1 bushel) $4.25.

Terrace Lawn Mixture.—It is sometimes difficult to get a good sod on sloping ground, terraces, side hills or embankments. This is a mixture of such grasses as have strong spreading roots, making a close turf, which heavy rains cannot wash out easily. On new lawns sow some oats also to prevent washing until grass gets started. Per pint 15c; quart 25c; lb. 35c; 5 lbs. $1.50; 20 lbs. $5.75.

Central Park Lawn Grass.—A very fine mixture for lawns, but is of special value for parks and around country homes where it is not convenient to mow the lawn frequently. It contains some fragrant grasses which give off a slight odor both when growing or when cut. It is the grass for country homes, parks and large estates and for this purpose sow about 50 lbs. per acre. Per quart 15c; lb. 20c; 5 lbs. 90c; 20 lbs. $3.25.

FERTILIZE YOUR LAWN.

Use Bone Meal.—For top dressing of lawns, pastures and meadows; also for use in the vine-
yard and about fruit trees and bushes. It carries ammonia and phosphoric acid, but not potash, and may be applied at any time of the year. It keeps on feeding the soil for fully 10 months and its effect is plainly apparent upon grass land for years. One of the safest and most econom-
ical manures. Use 400 to 600 lbs. per acre. 25 lbs., 75c; 100 lbs., $2.50; 500 lbs., $11.25.

Shady Place Lawn Mixture.—This mixture is a combination of fine dwarf growing, evergreen varieties of grass, which grow naturally in the woods or in shaded spots. They are mixed in proper proportions to make a fine lawn under the shade trees. Sow seed thickly, 1 quart to 150 square feet. Pt., 15c; qt., 25c; peck, $1.50; bu. (20 lbs.), $5.75.

Golf Links Mixture.—This is a mixture of various sorts of fine grasses which, when liberally sown, will produce a fine green sward during the growing season. They grow vigorously when cut closely, form a fine mass of interlacing roots, and also differ in their seasons of maturity, so that a succession of fresh growths is secured from earliest spring to latest fall. This mixture includes Sweet Vernal Grass, which gives the perfume of “New Mown Hay.” Pint, 15c; qt., 25c; peck, $1.50; bu. (20 lbs.), $5.75.

Putting Green Mixture.—A mixture of extra fine grasses, that will make a close, firm, green and lastling turf; improves the more it is trimmed. Pint, 15c; qt., 25c; peck, $1.50; bu. (20 lbs.), $5.75.

Kentucky Blue Grass.—Many of our customers prefer a clear blue grass lawn to the mixtures. Our stock of this is the best grade of fancy cleaned new crop, tested seed. Lb., 25c; bu. (14 lbs.), $5.00.

White Clover.—The well-known common white clover is very hardy and its dwarf growth makes it desirable for lawn mixtures. Its close, dense turf and creeping habit make it desirable for terraces and sloping ground. Seed is very small and it requires but little in mixtures. Lb., 30c; 5 lbs., $1.55; 10 lbs., $2.50.

Koss’ Select
List of
Flower Seeds

To insure success the conditions and requirements of the several species as to soil, moisture, heat, etc., should be studied and then observed in culture. Below we give a few general directions for their culture, though more complete directions will be found printed on the seed packets. The soil best adapted to most flowers is light, rich loam, containing enough sand to make it porous. If there is some clay with it the colors will be brighter. Make the surface as smooth and fine as possible; sow seeds in rows, covering each sort of seed in proportion to its size (a good general rule being to cover twice the diameter of the seed) and press the soil down firmly over it. Do not plant any seeds when the ground is wet. Many varieties, such as pansy, verbena, daisy, hollyhock and the fine greenhouse plant seeds, should be sown early in shallow boxes in the house, in soil consisting of equal parts of fine sand and loam. Cover the seeds with fine soil and stand in a warm place. When the seedlings are large enough to handle transplant to boxes from 1 to 2 inches apart to remain until put in permanent beds.

Discounts.—In spite of our very low prices by the packet, we still offer flower seeds, in packets and ounces only, at a discount. See second cover page. This discount does not apply to collections of seeds. All flower seeds are sent free by mail on receipt of price.

ABRONIA.—The Abronias are trailing plants, with Verbena-like flowers; leaves light green, of long oval shape; the stem is fleshy, lying prostrate on the ground. May be traced to sticks, or left to its natural mode of growth. Colors, delicate rosy lilac with white center, and pure waxy yellow. Very fragrant, and a long time in bloom. The seeds are enclosed in a husky covering, which remove before planting, and transplant to 1 foot apart. Hardy annual. Mixed colors. Pkt., 5c.

ACROCLINIUM, Everlasting Flower—Silphium.—This is one of the most beautiful of the Everlasting Flowers. It is of strong growth, about 18 inches in height and bears a great number of pink and white daisy like flowers, with a yellow center. Mixed colors. Pkt., 5c.

ADONIS, Pheasant’s Eye—Monarda.—Very brilliant scarlet flowers. The foliage is pretty, delicate, and many parted. It will grow readily in a shaded place, under a tree, or by the fence, and requires no extra care in planting and cultivating. Hardy annual, one foot high. Pkt., 5c.

AGERATUM.—A Mexican flower of a brush-like appearance, desirable in the garden, and prized by florists because it bears a great many flowers, and keeps in bloom a long time; and it is, therefore, desirable for bouquet making, for which purpose we have but few better flowers. It blooms constantly all summer. Grows 1½ foot high, and plants should stand 2 feet apart. Colors, light blue, and pure white. Start the seeds under glass, or sow in open ground, and transplant. Hardy annual. Pkt., 5c.

AGROSTEMMA.—A bright little pink-like flower, of deep crimson with light center, produced on long slender stems. The plant is branching, rather dwarf, and pretty for edging. Also called “Mullein Pink.” Hardy perennial. Pkt., 5c.

ALYSSUM, Sweet—Schneeflocke.—A desirable hardy annual, flowering from early spring until killed by frost. Flowers pure white. Pkt., 5c.

ANTIRRHINUM, Snap Dragon—Gänseblümchen.—The Antirrhinum, perhaps better known by its old and popular name, Snapdragon, is an old favorite border plant, with dark and glossy leaves, and large and curiously shaped flowers, with finely marked throats. They have been much improved by careful selection, and are now really magnificent flowers. They will blossom the first season from seed sown in the spring, but the blossoms will be much stronger the second season. Succeeds best in dry, loamy soil. Tender perennial, two feet high. Mixed colors. Pkt., 5c.

ASTERS.—Aster.—This splendid class of plants is not only one of the most popular but also one of the most effective of our garden favorites, producing in profusion, flowers in which richness and variety of color are combined with the most perfect and beautiful form. For flower beds and mixed borders it stands unrivalled, hardy annual.

Paony_flowered Mixed.—Beautiful large flowers, all colors. Pkt., 10c.

German Quilled Mixed.—All shades. Pkt., 5c.

Dwarf Bouquet Mixed.—A splendid mixture. Pkt., 5c.
BACHELOR’S BUTTON—Spergularia. — A perfectly hardy border plant, old-fashioned, but very popular. Perennial, blooming the first season. Mixed colors. Pkt., 5c.

BALSAMS. Lady Slippers—Salpiglossis.—Highly colored and free bloomers. By transplanting them once or twice the flowers are apt to be more double. Hardy annuals, growing two feet high.

Camellia Flowered.—Extra fine fixed. Pkt., 10c.

Double Mixed.—A good assortment. Pkt., 5c.

Camellia Flowered White.—A pure white, double blossom, very choice. Pkt., 10c.

BALSAM APPLE.—Very curious trailing vines with ornamental foliage, the fruit of which, when used in liquor, makes an excellent liniment for cuts and bruises. Plant outside when the ground has become warm. Pkt., 5c.

BARTONIA, Aurea.—One of the most showy of our hardy annuals. The plants grow 18 to 24 inches high with thistle-like downy leaves, begin to flower early and continually. Flowers saucer-shaped, 2 ½ inches across, and of a bright metallic yellow. Pkt., 5c.

BROWALLIA.—Handsome, profuse blooming plants, covered with pretty blue and white blossoms throughout the whole summer. The plants are quite minute when they first come up and should be protected from the hot sun, or they will be destroyed. Half-hardy annual; 1 ½ ft. high. Pkt., 5c.

CALLIOPSIS.—Showy, free blooming bedding plants, producing numerous rich colored flowers, sometimes called Beautiful Eye. Annual, mixed colors of every shade. Pkt., 5c.

CINNA, Indian Shot. — Distinguished by the luxuriance and diversity of color of their foliage, but above all by the size and brilliancy of hue in their flowers.

Crozy’s Finest Mixture.—Pkt., 10c.

CANDYTUFT.—Echites.—Favorite plant of the easiest culture, useful for growing in beds or masses, bloom long and freely. Hardy annual.

White.—Large, pure white trusses. Pkt., 5c.

Mixed Colors.—Fine, sweet scented, very popular. Pkt., 5c.

CRYSANTHÉMUM. — Flower freely during summer and fall months. Pkt., 5c.

CLARKIA.—The flowers are very pretty and of many colors, single and double; hardy annuals, 1 ½ ft. high. Pkt., 5c.

COCKSCOMB. Celosia.—Salmenfuum. Annual plants, tropical origin and one of the most showy. Pkt., 10c.

COLUMBINE. — Finest colors. It grows wild in most every temperate country in the world, and called by the children the Wild Honeysuckle. The old single varieties of Columbine have been known and admired for centuries under the name of Honeysuckle. The new double sorts are very beautiful, and embrace a great variety of colors and forms. They are nearly all hardy, and seed can be sown in open ground in spring or autumn, and they can also be increased by dividing the roots. Hardy perennial; 2 feet high. Pkt., 5c.

COSMOS.—Annuals growing to the height of 7 feet, with masses of elegant foliage and star-like flowers of all colors. Pkt., 5c.
CARNATION, Marguerite—Reife. — These superb new dwarf Carnations have created a great sensation, not only by reason of their fine double, fragrant flowers, but also because they can be treated as annuals. Like the Dianthus they flower freely the first season from seed. Pkt., 10c.

DAHLIAS—Georginen. — The Dahlias can be grown easily from seed and flower beautifully the first season. Choice Mixed. Pkt., 5c.

DAISY—räumliche Blüten. — One of the most charming spring flowers, and indispensable for cool, shady places. With protection they will withstand the winter; double mixed, fine colors. Pkt., 10c.

Datura. — An attractive plant with large foliage and of vigorous growth, producing a succession of large white, purple-tinted, trumpet-shaped flowers, larger than a calla lily, and having a faint perfume. The plant usually endures the winter and blooms for several years. Pkt., 5c.

ESCHSCHOLTZIA. California Poppy—Eschscholtzia. — Very attractive plants for beds, edgings or masses; profuse flowering; in bloom from June until frost; 10 to 12 inches high; leaves finely cut; very showy colors. A bed of Eschscholtzia in the sunshine makes a blaze of color. As the stalks and branches are delicate, they will do better if supported by small sticks. Sow where the plants are wanted to bloom, as they do not bear transplanting. Thin to six inches apart. Half-hardy perennial; 1 foot high. Pkt., 5c.

FORGET-ME-NOT—Vergeriümminni. — Popular and beautiful little plants blooming the first year from seed; an old favorite. Pkt., 10c.

FOUR O’CLOCK. — The flowers are funnel-shaped, very fragrant; hardy annuals. Pkt., 5c.

FOX GLOVE—Fingerhut. — Fine mixed; long racemes of beautifully spotted flowers. Pkt., 5c.

GAillardia. — The flowers are some 2 or 3 in. across; semi-globular, dense, and therefore very showy. Pkt., 5c.

GERANIUM. — Can easily be raised from seed, germinating in from 5 to 7 days. Fine mixed. Pkt., 10c.

GIILIA. — A familiar and popular garden plant, with finely cut foliage, producing dense globular heads of clustered blossoms of a celestial blue. Foliage and flower are both beautiful, and it remains in bloom 4 months. Sow early in spring in any good garden soil. Hardy annual; 2 feet high. Pkt., 5c.

GODETIA. — A beautiful variety; the plant of neat, dwarf, compact habit, with a profusion of rich carmine-crimson flowers, produced in a succession of bloom from August till frost. Pkt., 5c.
HELICHRYSUM—Everlasting Flower—Zioflorum. Pkt., 5c.

ICE PLANT—Handsome and curious plants for hanging baskets, rock work, vases and edges. The leaves and stems are succulent and fleshy, and appear as though covered with ice crystals, and look like rock candy. The whole plant is peculiarly brilliant in the sunshine. The flower is white and not conspicuous. Succeeds best dry, sandy loam and especially in a warm situation. Can be grown in pots or open border, the former having preference. Tender annual trailer; 6 inches high. Pkt., 5c.

I. TANIA—Finest French Hybrids—Popular and very rapid growing, free flowering plants, with large heads of variously colored flowers, which emit a powerful aromatic perfume, and are continually changing their color. The plants form bushes, and during the summer months are completely loaded with blossoms, which are succeeded by green berries, which, when ripe, turn to a deep blue. Start the plants in hotbed or greenhouse, and protect from frost. Tender perennial; 2 feet high. Pkt., 5c.

LARKSPUR. Perennial—Ritterborn. Very ornamental, combining the greatest variety of brilliant colors with duration and profusion of bloom. Pkt., 5c.

LOBELIA. Gracilis. Fine for pots, hanging baskets and vases. Pkt., 5c.

LUPIN—Called Sun Dials.—Conspicuous Plants. An elegant species of this old favorite flower, with large spikes of pea-shaped blossoms, white shaded with yellow, blue and purple. Looks well as a backdrop to other lower growing annuals. The seed should be planted where they are to remain, in spring, and thinned to one and one-half feet apart. Hardy annual. Mixed colors. Pkt., 5c.

LYCHNIS Chaledon—Breath of Eternity. (Burning Star.) Blossoms of an intense, bright scarlet. Pkt., 5c.

MARIGOLD—Zinniaflora. Well known free flowering plants, with double flowers of rich and beautiful colors, half hardy annuals, 1 foot high. Pkt., 5c.

MIGNONETTE. Grandiflora—Mignonette. A well known favorite that continues to bloom and send forth its sweetness all the season; hardy annual. Pkt., 5c.

MOURNING BRIDE—The Sweet Scabious is not so generally cultivated as it deserves. The perfectly double flowers are fine for cutting, they are gracefully borne upon long slender stems, well above the foliage. Handsome flowers in hemispherical heads of exceeding sweetness. The colors are deep and light purple, scarlet, pure white and a dark mulberry red; some of the dark shades are tipped with white. With proper protection the roots will bloom 2 or 3 years. They are very useful for bouquets, as their long stems work in easily, and their striking color as well as fragrance are desirable. Plant the seed in hot-bed, and transplant to one and one-half feet apart. Hardy annual; 1 to 2 feet high. All colors. Pkt., 5c.

NICOTIANA, Giant. Tender annual. Five feet high. Magnificent sub-tropical ornamental foliage and flowering plants for the lawn or borders. Pkt., 10c.

PETUNIA.—Charming free flowering effective plants of easy culture, tender perennials, choice mixed. Pkt., 5c.

Phlox. Star of Quedlinburg. A very striking novelty. Dwarfed more than the Phlox Grandiflora. Flowers star-shaped; assorted colors. Pkt., 5c.

PINKS. Chinese Double Mixed—Zinniaflora. Well known favorites; their neatness and beautiful colors can hardly be surpassed; they are easily raised from seed and delight in a warm, sandy soil. Pkt., 5c.

POPPY—John. A genus of showy free flowering plants, producing a rich and effective display; choice mixed double. Pkt., 5c.

Tulip Poppy. Very attractive. Pkt., 5c.
These will always be valuable summer flowers. They stand any amount of heat and drought. They will flower better, however, in a poor, rocky soil, as a rich one has a tendency to make them run "to leaf." Hairy annual.

**Majus.**—Tail, all colors, mixed. Oz., 15c; Pkt., 5c.

**Minor.**—Dwarf, all colors, mixed. Oz., 15c; Pkt., 5c.

**PANSY**—Stiefmütterchen.—Too well known to need any description. Hardy perennials, flowering the first year.

**Black.**—A group of these present a fine appearance. Pkt., 10c.

**White.**—A delicate, pure white. Pkt., 5c.

**Azure Blue.**—Most beautiful. Pkt., 5c.

**New Superb.**—Very pretty. Pkt., 10c.

**Large Flowered Mixed.**—Extra choice. Pkt., 15c.

**Mixed.**—All shades. Pkt., 5c.

**German Mixture.**—A splendid selection of the various shades. Pkt., 10c.

**PORTULACA.** Moss Rose—Portulac Röschen. A popular strong-growing annual, delights in sandy soil; neither heat nor drought is too great for it.

**Double Rose Flowered.**—Mixed. Pkt., 15c.

**Single Mixed.**—Brilliant colors. Pkt., 5c.

**SALVIA.** Scarlet Sage.—A handsome and very free-flowering species. Sow in sandy loam, on a slight hot-bed, early in March; prick out when strong enough, either on a hot-bed or in small pots of loam and peat, and when well rooted harden off and plant out in May. Pkt., 5c.

**SENSITIVE PLANT.**—An interesting and curious plant, with globular heads of pink flowers, well known for the extreme irritability of its leaves and foot stalks, which close and droop at the slightest touch; tender annual, 2 feet high. Pkt., 5c.

**SWEET SULTAN.**—Handsome border plant, of easy culture, bearing very fragrant, double white, pink, and deep purple blossoms, from July to October. They produce a striking effect in mixed borders, and are extremely useful for forming bouquets of cut flowers in connection with other colored flowers. Plant where required in spring, and thin to six inches apart. Hardy annual; 2 feet high. Pkt., 5c.
RICINUS. Castor Oil Bean—Wunderbaum.—A tall, majestic, ornamental foliage plant with leaves of a metallic hue; tender annual. Pkt., 5c.

SALPILGLOSSIS — Trompetenzunge. — Very showy bedding or border plants, with richly colored, erect, funnel-shaped flowers. The colors are beautifully marked and penciled, purple, scarlet, crimson, yellow, blue, and almost black. They are biennial in greenhouse, but annual in open ground. Start the seed in hot-bed (or do well if sown in the open ground), and transplant 1 foot apart, into a mixture of loam and sand, with well rotted horse manure at the bottom. Bloom from August to October. Tender annual; 1½ to 2 feet high. Pkt., 5c.

SCHIZANTHUS, or Christmas Orchid Flower.—A beautiful tribe of plants for out of door decoration. Easily cultivated; of bright colors, and useful for bouquets. The Schizanthus may be treated as half-hardy annuals, and do well in the house or open ground. Indeed, those plants that have flowered in the garden may be removed to the house in autumn. Two to three feet in height and bear hundreds of flowers. Pkt., 5c.

STOCKS. Gillyflower—Levkojen.—Exceedingly valuable plants, producing an abundance of flowers of various shades and colors, and of the most delicate fragrance.

Dwarf German Ten Weeks.—Good mixture. Pkt. 5c.

SWEET WILLIAM—Bartmelke.—These plants when in full bloom present a beautiful sight, and for a fine display are unsurpassed; hardy perennial, blooming freely the first year from seed.

Single Mixed.—Pkt., 5c.

Double Mixed.—Pkt., 10c.

THUNBERGIA.—Height four feet. A trailing or climbing plant, with flowers of various shades of yellow and white, having a dark center or eye. Finely adapted for vases and hanging baskets, for piazza decoration. The seeds start slowly, and should be sown in a hot-bed, or in a box in the house, giving plenty of moisture and heat. Do finely planted out in open beds, without trellis support, covering the ground with their handsome foliage and bright blooms.

VERBENA—Eisenkraut.—A very effective bedding plant. Flowers fine for bouquets; half hardy perennial, blooming the first season from seed.

Grandiflora.—Saved from the choicest and most perfect flowers and best colors. Pkt., 10c.

Fine Mixed.—A good mixture. Pkt., 5c.

ZIRGINIA STOCK.—Free flowering annuals of easy culture, with flowers of red, white, rose and the new marbled varieties; splendid for edgings. Pkt., 5c.

WALL FLOWER.—The flower spikes are of great substance, very full, rounded at the top, of a handsome gold-red color, and unusually rich, sweet fragrance. Sow early in spring and it will bloom till frost. If sown in autumn it will bloom in spring. Pkt., 5c.

ZINNIA—Zinnia. — A grand genus of autumn flowering plants, combining the greatest richness and diversity of color with unequalled profusion and duration of bloom. Half hardy annual.

Double Mixed.—Grows 1½ feet high. Pkt., 5c.

ZEBRA ZINNIA.—The flowers of this beautiful new strain are full double, finely shaped with the great variety of colors known in the Zinnia, and a large proportion are brilliantly striped with beautiful contrasting colors, covering the plant in profusion. The flowers remain in perfection a long time; the plants begin to bloom in July and continue until frost. Sow in open ground, in May; when large enough to handle, transplant to 2 feet apart in the row. Pkt., 5c.
SWEET PEAS

There is no flower grown that is more popular, or that is more admired by all than the Sweet Pea, with its dainty colors and delicate perfume. The following list has been carefully selected and will be found to cover the entire range of colors and shades.

Blanche Burpee.—Pure white, of largest expanded form and great substance. Free flowering in clusters of three to four on long stems. Pkt., 5c.

Emily Henderson.—Fine white; not quite so large as the above, but a little earlier. Robust growth. Pkt., 5c.

Sadie Burpee.—Flowers of very largest size and purest snowly white. One of the finest of all. Pkt., 5c.

Aurora.—Flowers very large and of expanded form; three on a stem. Ground silvery white, beautifully flaked with bright orange salmon. Pkt., 5c.

Dainty.—Beautifully formed large flowers, when first opening are white, but change quickly to white with pink edge. A charming sort. Pkt., 5c.

Stella Morse.—A faint tinge of pink underlying cream, producing true apricot shade. Splendid for bunching. Pkt., 5c.

Katherine Tracy—Rose Pink.—Splendid, large, open flower, good substance and color, a vigorous grower and free bloomer. Pkt., 5c.

Mrs. Joseph Chamberlain.—Flowers enormous, three to four on a stem. White ground, heavily striped and flaked with bright rose. Excellent sort and very profuse bloomer. Pkt., 5c.

Mars.—One of the best and largest scarlet flowers of good substance and free-flowering. Pkt., 5c.

Salopian.—Beautiful, rich, deep-glowing crimson, tinged with orange-salmon. Flowers large grandiflora form. Pkt., 5c.

Monarch.—Standard maroon purple, tinged with indigo; wings velvety purple. Pkt., 5c.

Othello.—One of the best deep maroons. Pkt., 5c.

Pink Cupid.—Dwarf, growing only six inches high. Bears generally three and sometimes four flowers to a stem. Blossoms, pink standards, wings a faint rose. Pkt., 5c.

White Cupid.—The flowers are pure white, of good substance, and are very sweet. Pkt., 5c.

Eckford's Choice Mixture.—Contains all the leading varieties and is a beautiful assortment. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 50c.

Fine Mixed.—All shades. A good mixture. Oz., 5c; ½ lb., 15c; lb., 35c.

KOSS' SPECIAL MIXED.—An unsurpassed mixture, combining every shade and type. It is made up of named sorts only, all choice, large-flowering sorts, the colors being distributed as evenly as possible throughout. For diversity of color, size of flowers and beautiful forms, this mixture is unexcelled. Pkt., 5c; oz., 10c; ½ lb., 15c; lb., 40c.

WILD FLOWER GARDEN.

Mixed Seeds.—The “Wild Garden” for its unusual and varied effects, cheapness, and the small amount of labor necessary for its construction has no rival. The “Wild Garden Seeds” are a mixture of the different hardy flowers, thus insuring on account of the different seasons of bloom, something new almost every day. Pkt., 5c; oz., 20c; ½ lb., 60c.
A PAGE OF USEFUL AND BEAUTIFUL VINES.

WILD CUCUMBERS.

This is the quickest growing climber in our list. Grows wild, self-sown in many parts of the West. It will grow 10 feet in one season. It is thickly dotted over with pretty, white fragrant flowers, followed by an abundance of ornamental and prickly seed pods. For a trellis or pillar no annual vine is more chaste, and it will quickly cover an old tree or an unsightly building. Pkt., 5c.

Canary-Bird Flower. — Beautiful climber, charming canary-colored blossoms. A beautiful climber, the charming little canary-colored blossoms bearing a fanned resemblance to a bird with its wings half expanded. The plant has a fine, luxuriant, rambling character, and if the seeds are planted by the side of an arbor or trellis to run upon, it will run 20 feet high and blossom from July till frost comes. The flowers will be more numerous and brilliant in light, moderately rich soil. Tender annual climber; 20 feet high. Pkt., 5c.

Cobaea Scandens. — A magnificent rapid growing climber with beautiful foliage and large bell-shaped purple flowers; trained on piazzas, arbors, etc., the offset is grand; half hardy perennials, often attaining a height of 20 feet the first season. Pkt., 10c.

Hyacinth Bean — Dolichos lablab. — Splendid climber. Purple and lilac flowers. Splendid climber, lilac with abundant clustered spikes of purple and lilac flowers, which are followed by exceedingly ornamental seed pods. It is of rapid growth; and often runs 20 feet in a season. Plant the seeds where the plants are desired, after the weather has become warm, and cultivate like the common bean, only give support to run upon. Tender annual; 10 to 20 feet high. Pkt., 5c.

Cypress Vine — Cupressis. — One of the most elegant vines, with delicate fern-like foliage and beautiful star-shaped flowers. Tender annual. Mixed, scarlet and white. Pkt., 5c.

Moonflower — Mandrèume. — Bears immense white flowers, five to six inches in diameter, with a five-pointed star in the center; the flowers open at dusk or earlier on cloudy days, at which time they are deliciously fragrant. Pkt., 10c.

Morning Glory — Conben. — A popular climber of free growth and beautiful flowers, too well known to need any description; mixed colors. Pkt., 5c.

Passion Flower. — A beautiful climbing vine, producing peculiar shaped flowers. Hardy perennial. Pkt., 5c.

Gourds — Lagenaria. — A great variety of curiously formed and market fruit; the vines are of rapid growth, and with luxuriant foliage, adapted for covering screens, arbors, etc. Pkt., 5c.

SPECIAL OFFER—One packet of each of the above ten Climbers for only 45 cts.

Mixed Climbers. — A mixture of many varieties of climbing plants which will produce the most gorgeous effect. When the space to be planted is limited this will save some expense in purchasing so many varieties. Pkt., 5c; oz., 20c; ¼ lb., 45c.
SUMMER FLOWERING BULBS.

I offer only a select list of choicest Summer Flowering Bulbs that can be grown easily by anyone under ordinary conditions. These will soon make a gorgeous display, flower the first summer and bloom and multiply season after season.

**DAHLIAS.**
Novelties of Special Merit.

**AUNT CHLOE** (Cactus).—Rich black maroon.

**BRITANNIA** (Decorative).—Deep shade salmon. Large and early.

**DELICATA** (Cactus).—Light salmon at base shading to a delicate pink.

**GALLIARD** (Cactus).—Rich glowing crimson.

**GENERAL BULLER** (Cactus).—Cardinal red with crimson shadings.

**ST. CATHERINE** (Cactus).—Deep yellow shaded red.

**VULKER** (Cactus).—Charming free-flowering yellow.

**WM. FAWCETT.**—Cream apple blossom and purple.

20th CENTURY (Single).—Giant crimson with white.

GLOWING BEAUTY (Semi-Double).—Crimson penciled white.

Price of the above named novelties each 25c, dozen, $2.50.

**STANDARD DAHLIAS.**

**A. D. LIVONIA.**—The best and most profuse blooming, deep pink. Show Dahlia in existence.

**BURLEIGH** (Fancy).—Crimson dotted white.

**CATHERINE** (Pompon).—Yellow, free flowering.

**FERN-LEAVED BEAUTY** (Fancy).—White striped with crimson.

**MRS. LANTRY** (Fancy).—Purple changing to pink and cream towards the center.

**PRINCESS BONNY** (Show).—Free flowering, cream white.

**THOS. LISBON** (Fancy).—Lavender, pink-white center.

Prices of any of the above Dahlias, 15c each, per dozen, $1.50.

**CANNAS.**

**ALLEMANIA** (5 ft. high).—Yellow.

**BUTTER CUP** (3 ft. high).—Bright golden yellow.

**C. HENDERSON** (3 to 4 ft. high).—A beautiful glowing crimson.

**INDIANA** (5 ft. high).—Glittering golden orange.

**PILLAR OF FIRE** (6 ft. high).—A beautiful crimson.

**EGANDALE** (4 ft. high).—Bronze-leaved, currant-red flowers.

**CRIMSON BEDDER** (3 ft. high).—Bright red.

Price for dormant roots, 15c each, $1.50 per dozen.

**MADEIRA VINE** (Mignonette Vine).—Beautiful free-climbing tuberous vine. Large tubers, each 10c; per dozen, $1.00.

**GLADIOLI.**

On account of its intrinsic merit alone the Gladiolus is entitled to the high rank it holds among flowers; but when it is considered, also how easy is its culture, and for what a small sum a splendid assortment can be secured, it seems a matter of surprise that they are not found around every home.

3 for 10c; dozen, 30c.

**PRIZE GLOXINIA.**—Magnificent; will bloom in 6 weeks from the planting of the dry bulb. Bulbs, each 10c; 3 for 25c; 10 for 60c.

**GIANT BEGONIAS.**—Tuberous Rooted.

Very beautiful. The flowers, which are of brilliant color and large size, make a magnificent display through the summer. Single—Scarlet, orange, pink, white, yellow and crimson, each, 8c; doz., 80c. Double—Scarlet, orange, pink, white, yellow and crimson, each, 10c; ½ doz., 50c.

**TUBEROSE.**—Double Dwarf Pearl.

Much larger than the common Tuberose.

Please, our very low prices. For large bulbs, each, 5c; doz., 35c.

**HARDY GARDEN PERENNIALS.**

Once planted will thrive year after year. Give them a little covering in the fall. Prices include postage.

**PAEONIES.**—Double white, pink and red, each 25c.

**BLEEDING HEART.**—Each 25c.

**IRIS**—Japanese. Assorted colors, each 20c.

**PHLOX.**—White, pink, red, etc., each 15c.

**RUDbeckia purpurea.**—Giant pink daisy, each 15c.
SULPHO-TOBACCO SOAP
A Wonderful and Inexpensive Insecticide.

Best Thing for House Plants and Ornamental Shrubbery.

Sulpho-Tobacco Soap is a powerful agent for the destruction of all bugs and insects. One or two applications will rid plants of the pests. Full directions with each cake.

3-oz. Cake (makes 1½ gals. prepared solution), 10c; postpaid, 13c.
8-oz. Cake (makes 4 gals. prepared solution), 20c; postpaid, 25c.

SPRAYING UNDER THE LEAVES

For spraying plants indoors and out, for insects and dust, the LENOX IMPROVED SPRAYER is the most serviceable for both the house and garden. House plants generally suffer from lack of moisture, such as rain or the morning dew gives them. This produces a misty shower that supplies the plant most naturally and completely, as absolutely necessary to real success with house plants.

Spraying with tobacco water under the leaves is very beneficial. Had we the space, we could tell you many things about your plants, how essential it is to spray them, particularly on the underside of the leaves; it destroys the rose bug and its eggs; in fact, all sorts of insects, like the red spider, mealy bug, green fly, mildew, etc., on vines, plants, in the flower-bed, strawberry-batch, or in the family garden.

Never forget to order one of these sprayers with your seeds. You need it! Sent complete for 50c postpaid.

HAMMOND’S SLUG SHOT

Used from ocean to ocean. Annual output, over 300,000 pounds every year for 20 years. A light, composite, fine powder, easily distributed by duster, bellows, or in water by spraying. Thoroughly reliable for killing currant worms, cabbage worms, lice, slugs, etc., and also strongly impregnated with fungicides. Cheapest and most effective remedy. Needed in every garden in America, during the growing time, to kill bugs and save foliage.

We sell large quantities of Slug Shot every year, and know it gives satisfaction to our customers. 5 lb. pkge., 30c; 10 lbs., 50c; 100 lbs., $4.50.

WHALE OIL SOAP.—Per lb., 15c; 2 lbs., 25c; 10 lbs., $1.00.

PARIS GREEN.—1 lb., 35c; 5 lbs., $1.65.

PURE BONE MEAL.—An excellent fertilizer for lawns and gardens in general. 5 lbs., 20c; 10 lbs., 35c; 25 lbs., 75c; 50 lbs., $1.35; 100 lbs., $2.50.

Ask for our Special Catalog of FARM AND GARDEN TOOLS.

We can save you money on these goods.

BOOKS. The following Books are sent postpaid at prices quoted. Include one or more with your order.

The Gold Mine in the Front Yard; And How to Work it.—By C. S. Harrison. Everyone interested in flowers and ornamental shrubbery will want to read it. Bound in silk ribbed cloth, gold stamped with photo medallion on cover. 12mo. 200 pages. Illustrated. Price, $1.00.

Amateur Fruit Growing.—By Samuel B. Green, Professor of Horticulture in the University of Minnesota and author of Vegetable Gardening. Just the book for beginners, as it covers the entire subject of growth, cultivation and marketing of small fruit, etc. 12mo. 144 pages. Illustrated. Price, 50c.

Feeding and Management of Live Stock.—By Thomas Shaw, Professor of Animal Husbandry at the University of Minnesota. Strictly up-to-date and written in such manner that any one can get the facts without reading unnecessary matter. 8vo. 100 pages. Price, 50c.
GARDEN AND FARM REQUISITES.

Barrel Cart.—For slops, water, potatoes, etc. An old kerosene barrel will fit into the frame. All the attachments are furnished. Price, without barrel, $4.00.

Hand Cart.—Weight 80 pounds. Box 22x40 in. by 10-in. deep. Price, $5.50.

Corn Planter, Acme.—A simple, reliable and well made planter. Price, 75c; with Pumpkin Seed Attachment, $1.00.

Dibbles.—For planting cabbages, etc. Each, 50c; by mail, 60c.

Forks.—Hand weeding, cast iron, each, 10c; by mail 15c. Imported steel, each, 25c; by mail, 30c.

Garden Line Reels.—Small, 50c; large, 75c.

Garden Line.—Per 100 feet, braided, 65c.

Garden Hose.—Prices on application.

Grafting Wax.—Per lb., 30c; by mail, 50c.

Knives.—English Pruning, single blade, each, $1.50; two blades, each, $2.00.

English Budding, ivory handle, each, $1.00; two blades, each, $1.00.

Budding, cocoa handle, each, 75c.

Asparagus, chisel shape, each, 50c.

Putty Bulbs.—Scollays rubber, each 85c; by mail, 95c.

Putty.—Tremlow's Old English, semi-liquid. Per gallon, 81.25.

English Steel Trowels.—6 in., each, 25c; by mail, 35c.

Cleve's Transplanting Trowels.—25c each.

Tree Pruners.—Water's Improved. Length of pole, 4 ft., 50c; 6 ft., 75c; 8 ft., 90c; 10 ft., $1.00; 12 ft., $1.20.

Weeders.—Lang's. A first-class labor saver, 20c each, by mail, 25c.

Excelsior Weeders.—Each 10c, by mail, 15c.
POULTRY SUPPLIES

CYPHERS FIRE-PROOFED INSURABLE INCUBATORS AND BROODERS

For 1910 We offer Customers an Extraordinary Improvement in Incubators and Brooders. It is the talk of the poultry raisers that Cyphers Incubator Company of Buffalo, N. Y., have succeeded in perfecting such an Advanced Line of Fire-Proofed Incubators and Brooders that the National Board of Fire Underwriters has given them a special preference; has recognized them as Superior Fire-Proofed Machines; and in proof thereof has Granted the Cyphers Company the Right to affix to every Inspected Machine a Metal Label signifying that the Machine comes up to their requirements and has therefore been passed by them.

SEE THIS INSURANCE LABEL, THE FIRST EVER GRANTED on Incubators and Brooders. In future, therefore, our customers who buy Standard Cyphers Machines will find the Label affixed to their machines. There is No Other Way to Prove that an Incubator or Brooder is Fire-Proofed. If you have, or if you want, insurance on your house or on your buildings you must use a machine that bears the label or in case of fire you may lose all. Therefore, Don't Buy an Incubator without a Label. It would not be wise to buy one simply because it is said to be cheap. It would not be wise even to accept one as a gift.

DON'T RISK LIFE AND PROPERTY BY BUYING MACHINE WITH NO LABEL.

The Label Protects You. It signifies that the machine bearing it has withstood the severe tests and inspection of the National Board of Fire Underwriters.

When You Buy an Incubator or Brooder your First Question Will Now Be—Is it Insurable? Does it Bear the Insurance Label? After that comes the question—Is it the Best Hatcher? If not, you don’t want it. Buy the Incubator that has stood the Test of Hatching Year after Year and is acknowledged to be the best by the most successful poultrymen—Those who have made money in the business. The Principle of Construction that has made Cyphers Incubator the Leader for the past twelve years remains unchanged. The Non-Moisture Principle, the Self-Ventilating Principle, the Self-Regulating Principle, in fact the whole Hatching Principle is as it Has Been during Many Successful Years.

This enables the manufacturers to Guarantee More and Stronger Chicks than any other machine can hatch. It is well known that Cyphers Incubators are Used by More Government Experiment Stations, Large Practical Poultry Plants, Leading Fanciers and Exhibitors, and Large Successful Duck Farms Than All Other Makes Combined. We will send you the proofs if you are interested enough to write for fully illustrated description of these superior machines.

Cyphers 1910 Standard Incubator. Fire-Proofed and Insurable. Inspected and passed by the National Board of Fire Underwriters and bearing their insurance label.

Do Not Risk Life and Property by operating cheaply-built incubators and fire-trap brooders! You need not take chances of this kind. Buy and use incubators and brooders that are built in conformity with the requirements of disinterested fire insurance experts, whose sole object in adopting such requirements was to reduce the fire hazard to the minimum, without interfering with the principles or efficiency of the machines. Remember that in this matter the interests of the associated fire insurance companies of the United States and Canada, and your interests are identical. Why not reap the benefit of the valuable work their experts have performed?
CYPHERS UNEQUALLED FIRE-PROOFED INSURABLE COMBINATION BROODERS AND COLONY COOPS.

1910 Pattern of Cyphers Unequallled Brooders possess the same advantages over other makes that are possessed by their 1910 Incubators, in that they are Fire-Proofed and Insurable. They have been severely tested by the National Board of Fire Underwriters; have come up to their requirements; have therefore been passed by them; and have been Granted the First Insurance Inspection Label ever issued on a Brooder. Experienced poultrymen know that it is more important that a brooder should be fire-proof than that an incubator should be. The floor is covered with straw or other litter which easily catches fire. The machine is used outdoors and requires more heat to bring it to the proper temperature—a larger flame than an incubator. These conditions made it much more difficult to comply with the Insurance Company's requirements; but after years of effort and experimenting the Cyphers Company has accomplished it; has complied with the new rules; has had its brooders inspected and passed; and in addition Has Constructed a Better Line of Brooders than has ever before been placed upon the market. It has often been said by users of Cyphers Brooders that they are brooder bears brooding chicks better than a hen.

Cyphers 1910 Brooders are all self-regulating and self-ventilating. The out-door brooders are also usable as colony coops for the growing chicks. They are easily convertible into colony coops by simply taking out the hover which is made removable for that purpose. This double use of the brooder means a considerable saving of money. It makes a safe and comfortable enclosure for the young chicks at night, and saves the buying of a coop for them. These outdoor brooders can also be used indoors, although we have a special brooder for indoor purposes.

In addition to this splendid line of Brooders we offer separately the Cyphers Adaptable Hover. It is designed to be used anywhere where heat is required for brooding chicks. It can be used in the corner of a colony house, hen house, barn or other building with or without any additional enclosure for the chicks. It is especially recommended for use in long brooding houses—a separate Adaptable Hover for each pen.

A second great advantage possessed by the Cyphers line of Brooders for 1910 is its Self-Regulating feature. For several years the Self-Regulator was attached only to our highest priced brooder; but it was so well received that it is now attached to all the Cyphers Company Brooders. It automatically regulates the heat in the brooder at all times, whereas in brooders without the regulator the heat has to be governed by a continuous watching of the lamp and turning it up or down whenever more or less heat is required.

For Your Own Sake, for Your Own Safety when Buying a Brooder Ask—Is it Insurable? Does it Bear the Insurance Label?

Write for fully illustrated description of this leading line of brooders.

Sizes and Prices

Cyphers Fire-Proofed Brooders:

Adaptable Hover, 75 Chicks........... $ 8.50
Style A Outdoor Brooder, 75 Chicks, 12.50
Style B Outdoor Brooder, 100 Chicks, 16.50
Style C Outdoor Brooder, 100 Chicks, 18.50
Style D Indoor Brooder, 75 Chicks... 11.50

Insurable brooders, both outdoor and indoor, any one of which could be used anywhere, at any time, without objection on the part of the fire insurance companies and without danger to the property of the policy-holding operator is what Cyphers Incubator Company offers it customers by the invention of the Fire-Proofed Brooder Heater and Standard Adaptable Hover, which is used in every Cyphers Company 1910 Brooder, and which bears the Fire Underwriters' "Inspected Brooder" label.
CYPHERS COLONY HOUSE FOR GROWING CHICKENS.

This colony house, or roost coop, will house comfortably fifty chicks, eight to twelve weeks old. It is well built of good material, is correct in principle and safe against attacks of the four-footed enemies of poultry. The hinged hood keeps out rain and snow, and can be used as an awning, or on bright days turned back upon roof to admit sunlight and purify coop. The floor is of matched boards, laid on cleats, and is removable. By setting house to one side, this floor can be readily cleaned. Our price is considerably lower than the cost of building them singly or in small numbers.

Dimensions: Floor space, 3 x 6 feet. Height in front, 36 inches. Height at rear, 24 inches.

Material used: Kiln-dried, selected white pine, free from loose knots, dressed on both sides, tongued, grooved and closely fitted. Painted in green, with red trimmings.

Price, complete ........................................... $9.00

CYPHERS NEW MODEL COOP FOR HEN WITH CHICKS.

This new and improved model coop is intended for a hen with chicks, but may be used also as a house for the chicks after they are weaned or for chicks removed from the brooder.

The house part (1 foot 9 inches by 2 feet) has removable floor, and is separated from exercise room by a wooden partition with galvanized wire-cloth window and door, admitting light and air. The exercise room (2 feet 6 inches by 2 feet) is closed at the end and screened with fine mesh galvanized iron wire, back and front. The combination door in front confines hen while chicks enjoy free range.

Dimensions: Width, 4 feet 3 inches. Depth, 2 feet. Height in front, 1 foot 9 inches. Height in rear, 1 foot 3 inches.

Material used: Kiln-dried, selected white pine, free from loose knots, dressed on both sides, tongued, grooved and closely fitted. Painted in green, with red trimmings.

Price, complete ........................................... $3.75

CYPHERS CHICK SHELTER.

The Cyphers Chick Shelter meets the needs of any of our customers. The sides and ends are made of stout, wooden frames, covered with a small mesh-wire netting. One end is made to fit front of brooder. Painted in green, with red trimmings.

Price of small size, 3x6 ft. ....................... $5.00  
Price of large size, 3x12 ft. ............... $7.50

CYPHERS HIGH-GRADE TESTED THERMOMETERS.

Hundreds of hatches in incubators fail because of inferior thermometers, and large numbers of chickens are killed in brooders for the same reason. The thermometers here listed are manufactured especially for us, and are thoroughly tested before they are shipped. Two-thirds of the thermometers on the market are made from improperly seasoned glass tubes. Our thermometer tubes are carried in stock two years before being mounted on the scale.

Incubator Thermometers, each, postpaid, $0.60; two, postpaid, $1.20; twelve, by express, $5.50.
Brooder Thermometers, each, postpaid, $0.50; two, postpaid, $0.95; twelve, by express, $5.00.

IMPROVED-PATTERN INSULATED BROODER STOVE

Cyphers Insulated Safety Brooder Stove, invented for use in our 1908 Brooders, combines a heater proper, a burner equipped with metallic chimney, an insulating plate that serves also as a stove slide, and an upright plate of galvanized iron that forms the door to the brooder through which the stove is operated. (See illustration.)

The flame can be adjusted without removing the stove.

The heat of the flame is deflected away from the oil reservoir, and the oil remains cool at all times. This stove will burn forty-eight hours or more without refilling.

Price of Cyphers Insulated Brooder Stoves, each, $1.75.

CYPHERS SAFETY BROODER STOVE.

The safety water pan on the Cyphers Safety Brooder Stove holds nearly a quart of water, and extends out over the entire surface of the oil bowl, thus placing a sheet of cold water between the oil bowl and the flame jets. We have sold many of these to persons who build home-made brooders and they give general satisfaction. Height, 7½ in.; greatest width, 10½ in.

Price of Cyphers Brooder Stoves, each ........ $1.75
CYPHERS X-RAY EGG TESTER.

Cyphers X-Ray Egg Tester is designed for use on an ordinary hand lamp, and fits over any style of burner with a diameter approximating that of the tester. In a dark room the light will be found strong enough to penetrate the shell and illuminate interior of the egg.

Price of X-Ray Egg Tester, 25c each; postpaid, 35c.

CYPHERS PRACTICAL EGG TESTER.

Cyphers Practical Egg Tester is the standard tester in use on large duck and broiler farms. Size, 18 in. high, 10 in. wide and 10 in. deep. Equipped with an extra strong reflector. No chimney is furnished, because of the liability of breakeage in shipping. An ordinary glass chimney, such as is used on a house lamp, will fit.

Price, complete (including box, lamp and reflector) ....... $1.25

CYPHERS IMPROVED PEDIGREE EGG TRAYS.

In our Nos. O and 1 Incubators, chickens can be separated into four lots; Nos. 2 and 3, eight lots. Pedigree Trays are not for use during entire hatch. The eggs should be placed in them when they are turned for the last time. These trays will fit the Cyphers only. In ordering pedigree trays, state size and number of machine and date of manufacture. If wanted for 1905, 1906, 1907, 1908 or 1909 pattern machines, state which is desired.

Prices: No. 0, each, $1.60; No. 1, each, $2.00; No. 2, per pair, $4.00; No. 3, per pair, $4.75.

CYPHERS FLAME REDUCER.

The Cyphers Flame Reducer reduces the size of the flame on a No. 3 (large size) burner to that of a No. 1 (small size) burner and does this without changing the wick or burner in any manner. By the same process that this burner reduces the size of the flame it reduces the amount of oil consumed, saving more than fifty per cent. in cost of oil. Made in two sizes, large and small. In ordering mention width of wick.

Price of Cyphers Flame Reducer, either size, 25c; postpaid, 30c.

CYPHERS COMBINATION BLUE-FLAME GAS BURNER.

Cyphers Combination Blue-Flame Gas Burner herewith burns with a blue flame and is equipped with an ingenious heat spreader that makes the heat effective as soon as it is produced. Made in two sizes, large and small.

Price of burner complete, with heat spreader, ready to be attached to gas pipe or bracket, 65c; postpaid, 75c.

FULL-NEST EGG FOOD.

A Meat Food Tonic Conditioner That Makes Hens Lay.

Everybody wants eggs when prices are high. They can get them by using Full-Nest Egg Food. For growing chicks, Full-Net Egg Food is the best substitute for insect life. Thousands of chicks are reared when insect food is out of season or unobtainable. Full-Nest Egg Food is the standard condition powder for all ages of poultry. Besides being an unexcelled egg producer, it is a concentrated meat food possessing tonic properties which promote good health, and fine condition. It stimulates and invigorates, but unlike other tonic foods, it also builds up the system and keeps it up.

Full-Nest Egg Food will help your birds through their molt, make the feathers develop normally and induce a high state of perfection in plumage. Hens begin laying sooner after molting where this egg food is used. Full-Nest Egg Food contains no injurious drugs or chemicals; it is safe and easy to use.

Full directions for use in every package.

Prices: 42-ounce package ........ $0.25 25-lb. pall .................................. $2.00

GUARANTEE.—I guarantee all goods sold by me to be just as represented, and anything not entirely satisfactory may be returned within thirty days, if in good condition, and I will pay carrying charges one way in addition to refunding purchase price. Furthermore, I guarantee safe package and free delivery to the railroad or express company or to Post-office in Milwaukee.

THEO. KOSS.
NAPCREOL.
A Fluid Disinfectant and Deodorant.
(Non-poisonous.)

Napcreol is unexcelled for disinfecting poultry houses and runs, stables, dog kennels, toilets or any place where a good germ or odor destroyer is needed. One gallon will make 100 gallons of disinfectant.

It is a reliable home remedy for all germ diseases affecting poultry. Its use prevents disease. It will cure roup, diphtheria, cholera, chicken-pox, sore eyes, canker, scaly legs, favus and diarrhoea. It will destroy disease, germs, mange, parasites, fleas, mites, lice, ticks and worms.

Full directions for use on each can. Price: Quart can, 50¢; half-gallon can, 85¢; gallon can, $1.50.

CYPHERS LICE PAINT.

Cypers Lice Paint is a scientifically compounded preparation for killing lice, mites and other parasites on fowls, also for the lice and ticks on sheep, hogs, horses and cattle.

The vapor which arises from the paint is what does the work. The vapor is lighter than air and contains an odor which permeates the plumage, and while not obnoxious to persons or harmful to fowls or animals, is deadly to lice, mites and ticks. The easiest of any lice killer to apply, stronger (thus more effective), and therefore the most economical preparation for the purpose.

Prices: 1-qt. cans 35¢, 2-qt. cans 60¢, 1-gal. cans each $1.00, 5-gal. wood-jacket can $4.00.

CYPHERS LICE POWDER.

A common complaint has been that lice powders are only strong enough to drive lice but do not kill. As soon as the powder loses its strength the lice return to the hen and she is no better off than before. In offering Cypers Lice Powder, we present a powder that is stronger than any other preparation. Contains no carbolic acid or other chemicals which will injure the fertility of eggs.

FUMIGATING CANDLES.

If you want to kill disease germs in your dwelling—lice, mites and disease germs in your poultry houses, light one of these candles and close up the house or room tight for three or four hours. Be careful to remove all the fowls from the house or room, or they will be suffocated.

Complete, each, 15¢; by mail, 25¢; per doz., by express, $1.25

“SAVE-AL” GUARANTEED EGG PRESERVATIVE.

Will Keep Eggs in Good Condition from Six to Ten Months.

Cypers Save-Al Guaranteed Egg Preservative is a tasteless, colorless, odorless, non-poisonous fluid that, when dissolved in boiling water, makes an unequalled solution for preserving eggs. It is easy to use and absolutely sure. One gallon makes sufficient solution to keep 65 dozen eggs in first-class condition for ten months. Eggs preserved in Save-Al are superior in every way to the ordinary preserved, cold storage or limed eggs. The solution has been thoroughly and carefully tested, and critical observers have found it difficult to detect the difference between a fresh-laid egg purchased in the open market and eggs which have been put down in Save-Al from six to ten months. Save your eggs when they are plentiful and cheap, and by preserving them in Save-Al they will be in good condition for sale or for use when eggs are scarce and high-priced.

Price of Save-Al Guaranteed Egg Preservative, 1 gallon jugs, each, $1.00.
CYPHERS POULTRY MEDICAL CASE.

Cyphers Poultry Remedies represent an armament sufficiently complete for combating all the common diseases of poultry and checking at the start any threatened epidemic. They are of the quality that has been used for many years in treating diseases of mankind. Equipped with the Cyphers Medical Case, the fancier or poultryman will be prepared to ward off diseases that may attack his flocks. The ten remedies are put up in a neat, strong, cloth-covered case. Each bottle is labeled, showing dosage and the disease which its contents will cure and prevent. Complete directions for use are attached to the lid of each case, and are printed on the label of each vial.

Remedy No. 1—For Catarrhal and Croupy Colds, Bronchitis, etc.
Remedy No. 2—For all sudden Colds, with watery discharge.
Remedy No. 3—For Chicken Pox, Bumble Foot and Catarrhal Colds with Croupy Cough.
Remedy No. 4—For Diarrhoea and Cholera.
Remedy No. 5—For Canker and Diphtheritic Roup.

Price of complete set of ten remedies in cloth-covered case, postpaid, $2.00. Single Vials, in strong, specially prepared mailing tubes, 25c each; postpaid, 27c each. Order separate Vials by number as given above.

CYPHERS POULTRY MEDICAL AND SURGICAL CASE.

The unprecedented success of Cyphers Poultry Medical Case, combined with their knowledge based on practical experience of the requirements of average poultrymen, has prompted them to combine with that case a surgical outfit, containing such surgical instruments and little accessories as will be found helpful in the treatment of injuries, and combating diseases, epidemics, etc.

All instruments are of good quality steel, nickel plated and carefully finished. The entire outfit is put up in a handsome, strong, cloth-covered box. The remedies are packed in metal-capped vials, and are labeled to show their uses and the dosage in each case.

CYPHERS SURGICAL CASE.

For the convenience of our patrons who do not require the combined Medical and Surgical Case, we can supply the Cyphers Poultry Surgical Case, separately, as illustrated herewith, or the Cyphers Poultry Medical Case, as illustrated and described on this page.

Cyphers Surgical Case consists of the same instruments and accessories as are contained in the combined Medical and Surgical Case, with the exception of the ten remedies which are omitted.

Price of Cyphers Poultry Surgical Case, complete, postpaid, $1.50.

CYPHERS REMEDIAL OINTMENT.

Many preparations for this purpose have been placed on the market, but they have been found to be either injurious to the chicks or would merely temporarily drive head lice to other parts of the body. Cyphers Remedial Ointment is guaranteed to kill head lice on chicks, young turkeys, etc., and is equally good for scaly leg, chicken pox, and like diseases. Price, postpaid, 25 cents per tube.

CYPHERS Roup Cure.

Positively guaranteed remedy for the cure and prevention of this dreaded disease. Also prevents colds and is unequaled for canker, especially in pigeons.

One 50c package makes 25 gallons of medicine. One $1.00 package makes 75 gallons of medicine. Directions on each package.

Price: Small size, 50c; large size, $1.00, postpaid.
KOSS' PIGEON SUPPLIES.

SANITARY PIGEON FOUNTAIN.

Pigeons cannot roost on it. Easily taken apart and cleaned. Pan is attached to top by strong spring-clip. Made of heavy galvanized iron. Capacity two gallons. Price, $1.25.

CYPHERS PIGEON PERCHES.

Price: 10c each; $1.10 per dozen.

STONEWARE PIGEON BATH.

Thoroughly sanitary, glazed. A necessity for every pigeon breeder. Two sizes, 12 inch baths, 20c each; 16 inch baths, 35c each.

STERLINGWORTH SALT CAT.

Sterling Salt Cat is a scientific combination of those aromatic and tonic properties contained in such seeds and roots as gentian, anise, coriander, etc., combined with sulphur, charcoal, limestone, salt, bone and other materials that are generally recognized by pigeon keepers as aiding digestion, promoting good health and egg production in pigeons and game fowls.

Price, per brick, 10c; by mail, 30c; per dozen, $1.10.

PIGEON NEST BOWLS.

These nests are moulded from clay and make an ideal nest for pigeons. Prices, 10c each; per dozen, 75c; 100 for $6.00.

STERLINGWORTH GOING LIGHT TABLETS.

Guaranteed to cure the dreaded disease known to pigeon keepers as "Going Light." Full directions on each box. Price, 25c.

LONG'S REMEDIES.

All of the following remedies are put up in 35c boxes. 3 boxes for 90c. Long's Pigeon Lozenges, for Atrophy or Going Light. Long's Little Cough Tablets, for Coughs, Colds, etc. Long's Golden Roup Remedy, for Roup, Canker, etc. Long's Tonic Pills, for Gorged Crop or Indigestion. Long's Homers' Bracer, a Tonic for Homing Pigeons. Long's Diarrhoea Tablets, Diarrhoea and Disordered Crop. Long's General Tonic for Loft, given in the Water.

ALUMINUM PIGEON BANDS.

Seamless, 12, 25c; 25, 45c; 50, 80c; 100, $1.40. Open, 12, 15c; 25, 25c; 50, 40c; 100, 65c.

DOUBLE CLINCH PIGEON BANDS.

Made in two sizes as shown in illustration. Price: Per 12, 15c; 25, 25c; 50, 40c; 100, 65c.

COLOREDO PIGEON BANDS.

A novelty. Bands come in different colors and are numbered. Very pretty. If interested send 6c in stamps for samples and prices.

KEIPPER'S IDEAL FOLDING COMPARTMENT PIGEON COOP.

The frame work is made of No. 8 Galvanized Wire. All other wires are made from No. 12 Galvanized Wire. All perpendicular wires are neatly and securely clinched to frame wire spaced 1 1/2 in. apart, held in place by two stiffening wires running cross-way and securely laced with steel wire which holds them in perfect shape at all times. Each compartment has a sliding door, self-closing. Bottoms are made of 5% in. matched spruce, well battened. Made in two sizes. Four compartments to each section.

No. 1—Size of compartment 15 x 15 x 16 in., full length of section five feet, price $3.00.
No. 2—Size of compartment 18 x 18 x 18 in., full length of section six feet, price $4.50.

Ask for special prices on larger quantities.
FOUST'S HEALTH GRIT.

Stands pre-eminent alone, as the highest and only high class grit available to the breeder of high class pigeons. It contains peculiar and unique special properties which no other grit contains; properties whose functions appear to be the rearing of high-class youngsters, which are so difficult, under ordinary circumstances, to bring to full maturity. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 85c, 50 lbs. $1.15, 100 lbs. $2.00.

CYPHERS PIGEON FOOD.

The best and most satisfactory mixture of the best grains obtainable for this purpose. It is almost impossible for any fancier to purchase on the open market materials of this kind and quality and assemble them in proper proportions at as low a price as we offer Cyphers Pigeon Food. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 85c, 50 lbs. $1.50; 100 lbs. $2.65.

RED COMB PIGEON FOOD.

Composed of the very best hard red winter wheat and other grains and seeds of equal quality. It is very strong in muscle and bone making elements and is so perfectly balanced that no organism is neglected. Pigeon breeders who have used Red Comb Pigeon Food pronounce it invaluable in productive incubation and rapid development of the young.

Price: 10 lbs. 30c, 25 lbs. 75c, 50 lbs. $1.35, 100 lbs. $2.50.

PRICES OF PIGEON FOOD.

The prices of Cyphers and Red Comb Pigeon Food are subject to market changes. Ask for firm prices if you want any quantity of it.

We also have Canadian Flint Corn, Kaffir Corn, Canadian Peas, Hemp and Millet Seed, etc. etc. Ask for prices of these, stating quantity you desire to purchase.

KOSS' GRIT AND SHELL BOX.

Koss' Sanitary Self-Feeding Grit and Shell Boxes work a material saving in grit, oyster shell, ground bone, charcoal or poultry foods. They are thoroughly practical, self-feeding boxes, well made out of heavy galvanized iron. This style of box is made with three compartments—for grit, oyster shell and charcoal. Like the dry food hopper, it is provided with a cover lid, which protects the contents, and being placed at an angle furnishes a slanting top, preventing fowls from roosting on the top of the box. Like the larger box, it is also provided with a strong handle by which it may be hung to the wall of the poultry building.

Koss' Grit and Shell Box, each 50 cts.; per dozen, $5.00.

KOSS' DRY-FOOD HOPPER.

Koss, Self-Feeding Dry-Food Hopper is a practical labor and food-saving device for feeding dry grain food, either whole or ground. These hoppers are well made of heavy galvanized iron.

Koss' Dry-Food Hopper has two compartments, a large one for grain mixtures, holding about six quarts, and a small one for beef scrap, holding about three quarts. The trough of the hopper is high enough to prevent waste, and at the same time permit easy access to the food. The hopper is provided with a hinged cover, which protects the grain at all times from moisture and filth, and is also supplied with a strong handle for convenience in filling and handling. These hoppers are intended to be hung against the wall of a poultry house.

This method of feeding is a most economical and practical one. Those who are interested in dry feeding and desire to economize on the cost of grain and beef scrap, cannot afford to be without Koss' Dry-Feed Hopper.

Koss' Dry-Food Hopper, each, 75 cts.; per dozen, $8.25.

BLATCHFORD'S CALF MEAL

gives better results than whole milk for feeding young calves, pigs, colts, lambs, etc. Every pound makes one gallon perfect substitute equal to whole milk. Raises or veals calves at half the cost of fresh milk. No filling. No milk feed. Every ounce just the best wholesome nutrition. Cooked and sold ready for use. Prevents scouring and insures early maturity. Feeding directions in every bag. One pound mixed with seven pints of boiling hot water, or four tablespoonfuls added to eight pints of sweet skim milk, makes a galloon of gruel as rich and nutritious as a gallon of fresh, whole milk, at a cost of 4c per gallon or less.

Prices: 100 lb. Bag, $3.50; 50 lb. Bag, $2.00; 25 lb. Bag, $1.00.
CYPHERS GALVANIZED IRON DRINKING FOUNTAINS.

Made in two parts. Easily cleaned and will not burst from freezing.
Small size, capacity 1 quart.........each, $0.18; six, $0.90; 1 dozen, $1.75
Medium size, capacity 2 quarts........each, .25; six, 1.25; 1 dozen, 2.10
Large size, capacity 3¼ quarts........each, .35; six, 2.00; 1 dozen, 3.50
Special duck size, capacity 8 quarts........each, .50; six, 2.50; 1 dozen, 4.50

CYPHERS WALL FOUNTAINS.

These fountains are something new and extra serviceable in the way of poultry fountains. One side of the back is flattened so that it can be hung on the wall of a building, or against an upright post or board at any height.
Made of the best galvanized iron, and guaranteed to last many years with proper treatment. We recommend them as first-class in every particular. One-gallon size, each 50c; two-gallon size, each 75c.

HALLOCK'S FOOD OR WATER HOLDER

The contents of the dish are protected by a wire screen which prevents fowls from polluting their food or water.
Prices: Small (1 gallon), 75c each; medium (2 gallon), $1.00 each; large (3 gallon), $1.25 each.

THE Y. S. C. WALL FOUNTAIN.

Made of heavy galvanized iron. Perfectly sanitary, can be taken apart and cleaned. Water pan is fastened with hinge and spring-clips. Only wall fountain that is perfectly sanitary. Made in 3 sizes: ½ gal., 45c; 1 gal., 65c; 2 gal., 90c.

KOSS' BROODER FOUNTAIN.

Made of heavy galvanized iron. Easily cleaned and filled. Water pan fastened with hinge and spring clip. Holds about one-half gallon. Length 8½ in., extreme height 8 in. Price, 60c each.

DAVIS FOOD AND WATER FOUNTAIN.

This is the neatest fountain on the market and the only fountain which can be satisfactorily used for either water or grit, oyster shell, etc. Can be used with any size bottle or with pint, quart or two quart glass jars. It is easily cleaned and filled, is simple in construction, and we guarantee them to give satisfaction. Price, not including bottles or jars, 25 cents each; per dozen, $2.75.

SANITARY STONWARE FOUNTAIN.

Made in two parts. Easy to clean, being glazed on inside and outside.
Four sizes at the following prices:

STONeware RABBIT FEEDER.

Size 7½ inches in diameter, 2½ inches deep. Heavy glazed ware. Each 10c; $1.00 per dozen.

STONeware DOG FEEDER.

Size 1 inch in diameter, 4 inches deep. Weight 7 lbs. each. Dogs cannot upset this feeder. Each 20c; $2.00 per dozen.

STONeware CHICKEN NESTS.

Unglazed. 15 inches in diameter. Each 25c, per doz. $2.50.
AMERICAN SANITARY FOUNTAIN.

The greatest labor saver known. Is filled at the top, will not tip over or drown the chicks. Is perfectly Sanitary in every respect. Positively automatic in action. It can be cleaned in a minute. All parts are made from the very best Galvanized Iron and will last a lifetime. For either poultry or pigeons. Water remains perfectly fresh as it is not confined with foul air as in other makes. In fact it is the Blue Ribbon Fountain. It leads them all. Prices: Three qt., 75c; six qt., $1.00; twelve qt., $1.25.

AMERICAN FOUNTAIN HEATER.

See illustration. The lamp in this heater will burn for a long time and consume very little oil. The heater is made in three sizes to fit the three fountains. Price, for 3 qt. 75c; for 6 qt. $1.00; for 12 qt. $1.25.

AMERICAN FOUNTAIN HEAD.

Practically the same device as the American Sanitary Fountain, with the exception of the bucket, which is replaced by a pipe that leads to a barrel or tank. As many heads can be used on the same line of pipe as desired. Intended for use on large plants where the carrying of water is quite a problem. Price for Fountain Heads (only) $1.50 each.

AMERICAN CHICK SERVER.

Two styles, one for water and the other for food. A practical little device, which I take pleasure in recommending. Can be attached to any size Mason Fruit Jar. The chicks cannot get into them and they can be used for charcoal, beef scrap, grit, or any food that you may desire to feed. The pan is spun of one piece of galvanized iron and is fastened to fruit jar cap by a patent yoke, the same as on the American Fountains. Price, either style food or water (be sure to specify which), 35c each, by mail postpaid 50c.

THE AMERICAN FEEDER.

The most practical Feed, Water or Mash Trough on the market today. It can be used between two pens or hung upon the wall. Will not rust or leak. Is made of galvanized iron and tinned steel wire. The spring guard prevents the chicks or fowl from polluting the food or water. The trough is slid out of the end of guard. They cannot turn it over in any manner or waste the contents. Saves 25 per cent. in food, and every bird gets its share. Made in three sizes:

- 3 in. trough, 18 in. long, $0.50
- 4 in. trough, 24 in. long, .75
- 5 in. trough, 36 in. long, 1.00

AMERICAN ROOSTING DEVICE.

Built entirely of metal with the exception of roosting bars. The dropping boards are galvanized sheet iron as are also the pans which receive the offal when dropping boards are raised. Ask for descriptive circular giving full details.

Prices:

- No. 1, 4 feet long (18 birds), $7.00
- No. 2, 5 feet long (24 birds), 8.00
- No. 3, 6 feet long (30 birds), 9.00

MANN'S SWINGING FEED TRAY FOR POULTRY.

Saves all waste of food. Weight of hen tips the tray and throws her off. Upper rod tips up also if hen tries to roost over pan. Trays 6\(\frac{3}{4}\) inches wide, 3 inches deep, and made from one piece of galvanized iron, water tight, will not rust. Price, 18 inch, $1.00; 27 inch, $1.25; 36 inch, $1.50.

EGG DATERS.

If you want to work up a good private trade for strictly fresh eggs, it will pay you well to date each egg with our daters. Price of daters 25c each. Ink Pads for same 15c each.
CYPHERS CHICK FOOD.

A Complete Food for Young Chicks: Is a mixture of eleven (11) different grains and seeds, proportioned so as to meet all the needs of growing chicks and to fully nourish them. By the term "fully nourished" we mean a great deal. Chick foods, as a rule, contain too much fat-forming and not enough bone-forming elements; and in consequence the chick develops indigestion and diarrhoea, which ultimately means no digestion at all and quickly starves to death. If you feed Cyphers Chick Food, you are relieved of all concern, as the food is a complete and properly balanced food, ready for use. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 85c, 50 lbs. $1.50, 100 lbs. $2.50.

CYPHERS DEVELOPING FOOD.

A special food intended for properly maturing young chicks after they are ready to be weaned from Chick Food. Contains a variety of grains in sizes and quantities exactly suited to the purpose. Price: 10 lbs. 30c, 25 lbs. 70c; 50 lbs. $1.25; 100 lbs. $2.25.

CYPHERS FORCING FOOD.

Composition of material that will be considered with special favor by the hens, something in fact, that their system craves. A little of this food scattered in the litter will quickly start them scratching, which means healthy fowls, full of vigor and vitality, and a full egg basket of hatchable eggs. Price: 10 lbs. 30c, 25 lbs. 70c; 50 lbs. $1.25; 100 lbs. $2.25.

CYPHERS SCRATCHING FOOD.

Made up of several different food materials in such proportions as to best furnish the elements necessary to fully nourish the body and promote egg production. Price: 10 lbs. 30c, 25 lbs. 70c, 50 lbs. $1.25, 100 lbs. $2.25.

CYPHERS SHORT CUT ALFALFA HAY.

This is Alfalfa Hay cut into short lengths and free from waste in the form of long stalks, weeds, etc. Fed either in mash or scalded and fed in a trough by itself. Price: 5 lbs. 20c, 10 lbs. 30c, 25 lbs. 65c, 50 lbs. $1.15, 100 lb. bag, $2.00.

CYPHERS MEALED ALFALFA.

This article is finer cut than Short Cut Alfalfa and not so fine as Meal Alfalfa. For use in the daily mash. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 70c; 50 lbs. $1.25; 100 lb. bag, $2.25.

NOTICE The prices quoted on this page are those current at time of going to press—January 15th, 1910. They are subject to change with the fluctuation of the market without notice.

RED COMB POULTRY FEEDS.

Red Comb Poultry Feeds are rapidly becoming recognized by successful poultry raisers as the standard for egg and flesh production. They are composed of choice grains and seeds, carefully selected as regards purity, cleanliness, sweetness and freshness, and are mixed with such care that each mixture is a scientifically balanced ration for the purpose for which it is intended. They stand pre-eminent in the realm of poultry foods today.

RED COMB FINE CHICK FEED.

Composition of cracked grains, seeds, charcoal and grit. Highly nutritious, easily digested, and especially suited to the tender digestive organs of the little chick. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 80c, 50 lbs. $1.40, 100 lbs. $2.50.

RED COMB COARSE CHICK FEED.

A developing food composed of whole grains and seed of the highest quality and especially adapted to the growing period, and when used in- cants a strong and rapid growth. This feed also contains charcoal and grit. Price: 10 lbs. 30c, 25 lbs. 70c, 50 lbs. $1.25, 100 lbs. $2.25.

RED COMB POULTRY FEED.

For grown fowls, is composed of choice grains, seeds and charcoal. A clean, bright, balanced ration for general use. As a scratch feed it is unequalled. Price: 10 lbs. 30c, 25 lbs. 65c, 50 lbs. $1.15, 100 lbs. $2.00.

RED COMB MEAT MASH.

A mash feed prepared expressly for egg production, being very rich in egg making elements. This mash is unsurpassed as a winter egg maker. Price: 10 lbs. 30c, 25 lbs. 65c, 50 lbs. $1.15, 100 lbs. $2.00.

RED COMB FORCING FEED.

A great flesh producing feed, composed exclusively of food elements, producing a tender and juicy meat in the shortest possible time. It is particularly valuable when fed once a day in connection with Red Comb Coarse Chick Feed. Makes the chicks grow fast and strong. Price: 10 lbs. 30c, 25 lbs. 65c, 50 lbs. $1.15, 100 lbs. $2.00.
CRUSHED OYSTER SHELLS.

We purchase these goods in car lots, hence can offer them at the lowest rock-bottom prices. Every pound of Oyster Shells offered by us is dried by a patent hot-air process and not by direct fire which burns out some of the most desirable qualities.

Our shells are crushed and ground to the size which expert poultrymen agree to be the best. If you have purchased other brands of Oyster Shells you have noticed that there are 10 to 25 lbs. of waste, consisting of dirt and dust, mixed in with every 100 lbs. of shell. This means a loss to you. Every pound of shell we sell is all shell and no waste.

It is needless for us to enlarge upon the value of Crushed Oyster Shells for poultry. Every poultryman realizes their importance as an egg-shell maker and general promotor of good health.

Prices: Grade No. 3. The right size for hens. 10 lbs. 10c, 25 lbs. 20c, 50 lbs. 35c, 100 lbs. 65c, 500 lbs. $3.00. Grade No. 2. Ground finer than the No. 3, and intended for pigeons, young chicks and Bantams. 8 lbs. 10c, 25 lbs. 25c, 50 lbs. 45c, 100 lbs. 75c.

Special prices on larger quantities.

MICO-SPAR CUBICAL GRIT.

Mico-Spar Cubical Grit is a hard mineral product containing sodium, aluminum, magnesium, lime and iron, natural chemical properties which every poultry raiser knows are necessary to produce paying hens.

When laying her share of eggs regularly and willingly, never needing to be "forced" because they are well and strong. These are the slow but sure kind, the kind that helps raise the mortgage.

Mico-Spar Cubical Grit produces this kind of paying hens because it makes and keeps hens healthy. It creates perfect digestion because it keeps things in the crop on the move, owing to the fact that the corners of the cube always remain sharp. Honest, practical tests have shown that Mico-Spar Cubical Grit is the hen's choice, and that the minutest cube left in the crop retains its sharp corners.

Four sizes: No. 1 for Turkeys, Ducks, Geese and large Asiatics. No. 2 for poultry in general. Popular size, No. 3 for pigeons and chicks over three weeks old. No. 4 for baby chicks. Price: Any size, 8 lbs. 10c, 25 lbs. 25c, 50 lbs. 45c, 100 lbs. 75c, 500 lbs. $3.25.

Special prices on larger quantities.

HIGH PROTEIN BEEF SCRAP.

We have no hesitancy in recommending High Protein Beef Scrap as the best of their kind on the market. These goods are ground at the Chicago Stock Yards especially for our trade. We guarantee their purity. No pork or fat is used to add weight. The ordinary commercial scrap contains but 35 to 45 per cent. protein and from 20 to 30 per cent. fat, while our scrap, as analyzed by the State Board of Agriculture, shows 50 to 65 per cent. protein and only 15 to 20 per cent. fat. Fat in excess reduces the feeding values of poultry food, protein being the essential element. We, according, claim that 100 pounds of High Protein Beef Scrap has the feeding value of 200 pounds of any other scrap on the market. This scrap is now being used by the largest duck and poultry raisers in the country. A trial will convince you of the superiority of High Protein Beef Scrap. Do not compare the price you pay for High Protein Scrap with the price asked for other so-called scraps which, as a rule, are no less than refuse from soap factories or fertilizing works and have little or no value as a food. We mail you a sample package for the asking.

Price: 5 lbs. 25c, 10 lbs. 40c, 25 lbs. 85c, 50 lbs. $1.50, 100 lbs. $3.00. Special prices on larger quantities.

BEEF MEAL.

This is made from meat, bone, blood and the liquor from cooking. Rich in albumen and protein. It is a nitrogenous food and a great egg producer. Price: 100 lbs. $2.50, 50 lbs. $1.55, 25 lbs. 75c, 10 lbs. 35c, 5 lbs. 20c.

GRANULATED BONE.

The impression prevails in many quarters that bone must be fresh or green to be of value as a food. This is not the case. The fresh bone contains about 40 per cent. water and 12 per cent. grease; 52 per cent. of matter which your fowls do not need or care for and which also taxes the digestive organs unnecessarily. The granulated bone we offer is made from fresh, green bones, from which the moisture and grease have been taken, leaving nothing but the phosphate, lime and protein. These are the only food values of bone, green or dry, so when you buy dry bone you do not pay freight on moisture or grease. Granulated Bone will keep in any climate or kind of weather, if kept in a dry place. Bone is especially valuable as an egg-shell producer. Sample package mailed on application. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 75c, 50 lbs. $1.35, 100 lbs. $2.50. Special prices on larger quantities.

FINE GROUND RAW BONE MEAL.

Raw Bone Meal is also made from fresh bones and is of the same stock as the Granulated Bone, but is reduced through a finer sieve. It is ground fine and is especially useful to mix with mash food. Cypers Laying Food is a complete ration and it will not be necessary to use Ground Bone Meal if this food is fed, but with any of the other poultry foods offered we recommend the use of Raw Bone Meal. A sample package mailed on application. Price: 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 75c, 50 lbs. $1.35, 100 lbs. $2.50. Special prices on larger quantities.
BLOOD MEAL.

Unexcelled as an Egg Producer.

Pure Blood Meal fed your poultry will make your hens lay, your chicks grow fast and keep your fowls healthy. The Blood Meal offered by us is guaranteed to be pure and free from adulteration, also free from objectionable odor which generally accompanies other poultry foods containing animal matter. Our Pure Blood Meal contains no ground bone or other cheap adulteration of any kind. It has less than 5 per cent, of moisture, and is the most complete poultry egg food in use. Price: 5 lbs. 50c, 10 lbs. 50c, 25 lbs. $1.10, 50 lbs. $2.00, 100 lbs. $3.75.

CHARCOAL.

No poultryman can afford to be without charcoal. A little goes a long way, and it is worth its weight in gold to raisers of young chickens. It aids digestion and promotes the health of brooder chicks to a wonderful extent. The use of charcoal is generally corrective of numerous poultry ills.

As charcoal absorbs 90 per cent. of its own weight of ammonia (a deadly poison to young chickens) it is necessary that charcoal for poultry should be specially prepared — ordinary commercial charcoal should not be used. Our charcoal is guaranteed pure, and free from dangerous poisons. Sold in two sizes, granulated and pulverized. Prices: 1 lb. 5c, 5 lbs. 20c, 10 lbs. 35c, 25 lbs. 75c, 100 lbs. $2.75.

"NEPONSET" ROOFING AND LINING PAPERS.

Water tight, air tight, frost tight, vermin proof — actually and fully. "Neponset" is made in two styles, each adapted to certain uses. One is the "Neponset" Red Rope, which is used for roofing, siding, covering and carpeting. The other is "Neponset" Black Sheathing, and is used for lining and insulating and where the Red Rope proves too expensive.

"Neponset" is not a coated paper, but the same all through. It is water tight; this fits it for roofing. It is impervious to air; this fits it for siding. It is a high non-conductor; this fits is to take the place of back plaster as a defense from the sun in summer and the cold in winter, and also makes it valuable for all insulating purposes.

"Neponset" Red Rope Paper, rolls 36 inches wide, per roll of 100 square feet................. net, $1.35
"Neponset" Red Rope Paper, rolls 36 inches wide, per roll of 250 square feet................ net, 2.75
"Neponset" Red Rope Paper, rolls 36 inches wide, per roll of 500 square feet................. net, 5.00

Black "Neponset" Water Proof Building Paper, rolls 36 inches wide. Per roll of 250 square feet.............. net, $1.00 | Per roll of 500 square feet................. net, $1.75

CAPONIZING INSTRUMENTS.

These instruments are in demand, especially throughout the west, where caponizing pays hand some profits. We recommend and offer for sale the Pilling instruments. Price, per complete set with instructions, in pasteboard box, $2.50, in velvet case $2.75. Instructions, fully illustrated accompany each set of instruments. The price quoted cover postage.

KOSS' EXHIBITION COOPS.

Front is 3/4 in. round iron bars; top, ends and back are made of heavy canvas, and there is a strong canvas curtain that fastens down the front for shipping. Door roll height, nicely painted. Price for pair or trio size, $1.80; pen size, $2.25.

KOSS' SHIPPING COOPS.

These coops are not only slatted in order to secure the single rate expressage, but are entirely lined with strawboard, which protects from injury and keeps fowls warm and prevents chilling from draft. Prices: For single bird, 12x18 in., 18 in. high, 40c each, $4.00 per doz.; for trio, 18x24 in., 18 in. high, 50c each, $5.00 per dozen; for pen, 24x30 in., 18 in. high, 60c each, $6.00 per dozen.
"TYCOS" INCUBATOR HYGROMETER.

For incubators requiring applied moisture the "Tyco's" Hygrometer supplies a long felt want. Many chicks die in the shell from too much or not sufficient moisture. You can overcome this difficulty by investing in this moisture device.

The amount of moisture required in an incubator during the period of incubation is between 55 and 65%. The first period of the hatch, say the first week, should be about 65%, the second week about 60%, the third week about 55% and at the time of hatching about 53%. Moisture is regulated by adding or decreasing shallow pans of water, sprinkling the eggs, wet sand trays or other devices and by adding or decreasing ventilation.

Price complete with directions... $1.75

GAPE WORM EXTRACTOR.

In some localities the young chickens are attacked by the gape worms, and if they are not removed in time the chicks will soon succumb to them. They lodge in the windpipe and must be extracted. This little instrument will remove them. It cannot hurt the chick. Full directions with each instrument. Each 25c, postpaid.

STERLINGWORTH DIARRHOEA REMEDY.

Unequaled for the treatment of Diarrhoea in young chickens, and also excellent for all forms of Diarrhoea in matured fowls. A guaranteed cure. Price, 50c per box.

CYPHERS LICE-PROOF PERCH SUPPORT.

These supports are manufactured of cast iron and with ordinary care will last a lifetime. They are cheap in price, easily put up and if once used will always be used. They are attached to the wall with screws. The oil cup is covered with a cap to prevent accumulation of dust. Fill each cup with liquid lice killer. When the little cup is full, it is impossible for lice to pass from the walls of building to the roosts, or from the roosts to the building.

Prices: Per pair, 25c; postpaid, 45c; per dozen single hangers, $1.20.

DAVIS ANTI-LOUSE ROOST BRACKETS.

Will effectually protect your fowls from midge louse or mite ravages by making it impossible for them to reach the fowls at night. Each point of contact between the roosts and building is provided with oil cups and the mites cannot get on the roosts from the building, or vice versa. The roosts can be raised up out of the way for cleaning the dropping board, or they can be taken out of the building by merely drawing out the spring cotter pins with which the brackets are put together.

Prices:

No. 1 or Single Roost Style—Brackets only: Per pair, 75c; three pairs, $2.00; six pairs, $3.50; twelve pairs, $6.25.

No. 2 or Multiple Roost Style—Brackets complete without roosts: Per set, $1.25; three sets, $3.25; six sets, $6.00; twelve sets, $11.50.

STERLINGWORTH FLY DRIVER AND GERM DEATH.

Completely protects cattle and horses from all winged pests. It is non-poisonous, harmless, easily applied and lasts longer than any other Fly Driver sold for three times its price. It does not burn or gum the animal's coat, or contaminate milk, and is equally good for horses as for cattle.

For destroying foul odors and disinfecting diseased quarters it will be found not only a most satisfactory article, but moderate in cost. It possesses valuable antiseptic qualities and is an excellent deodorizer and germ killer.

We guarantee it to comply with the National Food and Drugs Act of June 30, 1906. Serial Number 6654. Try a can and you will say that it is not only the cheapest but the best Fly Driver you have ever used.

Prices: One quart can makes two gallons Fly Driver, 60 cents; (costs 30 cents per gallon ready to use). Two quart can makes four gallons, $1.00; (costs 25 cents per gallon ready to use).
MANN'S GREEN BONE CUTTERS.

New design, enlarged table, new device to control feed: you can set it to suit any strength; never clogs. A Standard Machine, easy and rapid cutting, feeds automatically and leaves both hands free to operate.

The Mann's Bone Cutter cuts more rapidly than any other; its knives are in action all the time. The Mann's has a perfectly self-governing automatic feed. You do not have to use one hand for controlling the feed—a tiresome, tedious, awkward process. You do not have to take the machine apart to clean the plates or adjust the knives. You drop the bone into the open cylinder. There is no packing, no fastening, no bother, no arranging. You simply toss the bone on one side or both sides of the partition, as you like, drop the follower in place, clasp on the feed handle, and you are ready for business, with both hands free to relieve each other in turning, if you so desire. The feed is both automatic and self-governing, a feature not successfully accomplished by any other bone cutter.

REMEMBER.—Green bones are tough and no matter how perfect the machine is, you want them large enough to cut for your flock easily.

Don't Get Too Small a Size.

PRICE LIST.

| No. 5C | With Crank Handle | $6.00 |
| No. 5B | With Balance Wheel | 8.00 |
| No. 5BM | With Balance Wheel—Iron Stand | 10.40 |
| No. 7 | With Balance Wheel | 12.00 |
| No. 7 1/2 | Combination Hand or Power Cutter | 16.00 |
| No. 9 | Standard Bone Cutter | 18.40 |
| No. 11 | Combination Power Cutter | 26.00 |

DRY BONE AND SHELL MILL.

This is one of the handiest appliances in use. It is the best thing for grinding dry bone, oyster or clam shells, coarse grains like corn, charcoal, etc. It is a well-made mill, and thousands of them are in successful use. We have never yet received a complaint from anyone to whom this mill has been sold. The low price at which it is sold places it within the reach of every poultryman, and it will pay for itself in less than one year's time. Diameter of hand wheel, 20 inches. $4.50 each.

BANNER ROOT CUTTER NO. 7.

Next to the Green Bone and Clover Cutter as a factor to winter egg production comes a Vegetable and Root Cutter. In winter when all vegetables are frozen up, some substitute for the tender blade of grass and other green food which poultry finds during the summer is necessary to get best results. Cut clover helps out to some extent, but some more succulent food is greatly relished by the birds and does much to keep them in a healthy laying condition. Sugar beets fill the bill. Carrots, potatoes, cabbage, onions, etc., are also very good. The Banner will cut all these vegetables into the best of shape so that fowls eat it down as they would worms. It has an iron grate in hopper next to knives so that all dirt will rattle through. Hopper can be removed readily by removing 2 screws so that knives are easily accessible if in need of sharpening. Weight, 35 lbs. Price, $5.00.

BANNER ROOT CUTTER NO. 24 B.

The No. 24 B is for people who keep a small flock of fowls and want to feed roots and not buy the larger machines. Adjustable. Cuts fine or coarse. 7x18 inches. Price, $1.00.

The patent Banner Knife is used, so the cut feed coming from these root cutters is alike and can be fed to all poultry large and small.
“NEW MODEL” CLOVER CUTTER.

The feature that gives the "New Model" easy supremacy over similar machines is the cutting mechanism. The machine can be kept in perfect cutting order at all times, because the cutter bar is adjustable and easily accessible, and the four 7-inch spiral steel knives can readily be removed for sharpening. Those who are familiar with "ordinary" Clover Cutter construction will appreciate these improvements.

The "New Model" is made only of iron and steel, from entirely new patterns. Length over all, 28½ inches.

Weight 60 lbs. Price $10.00.

SILVER CLOVER CUTTER.
A Good Low Price Machine.

This machine has four 8 in. solid center spiral knives and cuts 1/4 in. in length. The length over all is 24 in.; length of box 18 in.; width of box at largest end 10 in.; width of box at throat 8 in. Will cut a bushel of clover in 10 minutes. Weight 60 lbs. Price, $5.50.

LIGHTNING LICE KILLING MACHINE.
Put chickens in the cylinder, turn it slowly and they will stir up the powder so as to completely cover themselves with it. Price, each, $3.00.

LIGHTNING POULTRY BITS.
Stops feather pulling instantly. Each 10c; $1.00 per dozen.

LEE'S LICE KILLER.
The use of this preparation has become so universal, and results are so satisfactory, that most poultry raisers would not know how to keep house without it. A can of Lee's Lice Killer, and a few minutes work in applying it to the roosts, means all the expense and labor now necessary to keep the fowls free from both mites and body lice. Price: 1 quart 35c, 1/2 gal. 60c, 1 gal. $1.00, 5 gals. $4.00.

LEE'S EGG MAKER.
Lee's Egg Maker is one-half granulated blood (deodorized). The other half consists of powdered roots, salts and spices mixed in proportion as most needed and best adapted to the health and productivity of poultry. Price: 42 oz. package, 125 feeds for 10 fowls, 25c, 25 lb. pail $2.00.

LEE'S GERMZONE.
For Roup, Canker, Inflammation of the Throat, Cholera or Bowel Complaint. It pays to give a little Germzone in the drink two or three times a week, even though there be no sign of sickness. It disinfects the drinking vessels, wards off colds, roup and cholera, and prevents sickness. Price, 50c.

LEE'S INSECT POWDER. 25 cts. per box.
DAVIS’ CHICK MARKER.

Punch is reversible and cuts two sizes as shown, giving you practically two tools for the price of one. Handle is nicely nickel plated and polished and the Marker complete only weighs ½ ounce.

You should mark your chicks as soon as they are taken from the nest by punching a hole in the web between the toes and keep a record of the marks. This will serve to keep track of the age and parentage of chicks and furnishes a means of identification in case they are stolen. Order one today. Price 25c each, three for 60c, postpaid.

CYPHERS PERFECT MARKER.

Makes a good, clear, clean cut, and does not mutilate the web, as do many cheaper punches.

Price, 50c postpaid.

PHILADELPHIA POULTRY MARKER.

Price, 25c each postpaid.

PETTEY’S POULTRY PUNCH.

Keep an accurate record of all breeds, strains, hatches, etc. Many a breeder has been unable to reproduce birds equal to ones he has already raised because he has no way of knowing what mating produced them. Marking your chicks with a Pettey Poultry Punch and keeping a record enables you to know, and the man that knows wins.

JUMBO POWDER GUN.

This Insect Powder Gun has been made to meet a demand for as large a gun as can be held in the hand. The bottom, or spout part, as will be seen, screws on or off, and makes a large opening for filling with powder. Just the thing for applying Cyphers Lice Powder. Price, each 20c, postpaid 25c.

POULTRY KILLING KNIFE.

Cyphers Special Pattern.

Every poultry raiser who kills and dresses for market, either chickens, ducks, geese or turkeys, should own one of these knives. This knife penetrates the brain in such a manner that the feathers loosen and come off easily. They are made of finely tempered instrument steel, with nickel handle, and will last a lifetime. If you have half a dozen or several hundred fowls to kill and dress for market, one of these knives will prove a highly satisfactory investment. Price, 50c.

PORCELAIN NEST EGGS.

These eggs are made of first-class flint glass, they do not break easily and will last a lifetime. Prices, two, 5c. Per dozen, 25c.

OVINAPHTHOL NEST EGGS.

Our Ovinaphthol Lice Killing Nest Egg is the standard combined nest egg and lice killer. By simply using it in the nests in the same manner as any ordinary nest egg is used, laying hens are rid of lice and mites and are able to occupy the nests with comfort. The use of this nest egg insures absolute freedom from all kinds of insect pests in the nest. They are always at work, safe to use and certain in results. Being prepared with great care for this special purpose they will last a long time and always retain their effectiveness. This makes them the most inexpensive medicated nest egg that can be used. They are standard size eggs, tinted a natural brown color.

Prices of Ovinaphthol Nest Eggs, each 10c; per dozen, 75c.

WIRE NESTS.

These nests are strongly made from heavy japanned steel wire and will last a lifetime. They are intended to fasten to the wall with screws or screw hooks. There is no room on them for lodgment of lice or vermin of any kind; they are easy to keep clean and are far superior to wooden boxes. Prices, each, 15c. Per dozen, $1.50. Special prices for large quantities.
LEG BANDS.

Climax Leg Bands—The "Stay On" Kind.

They are in general use by leading poultrymen and poultry associations, and their immense sale attests their popularity. Rings are made of spring brass and the tags are of aluminum.

Sizes: No. 1, ½ in.; No. 2, ¾ in.; No. 3, ¾ in.; No. 4, ¾ in.; No. 5, 1 in.; No. 6, 1½ in. Always give sizes wanted, or state breed of fowls bands are to be used on. They are not made in pigeon sizes.

Prices, postpaid: Per doz. 15c; per 25, 30c; per 50, 45c; per 100, 75c; 500 for $3.25.

Sizes used for different breeds: No. 1, Bantams and Small Mediterraneans. No. 2, Mediterranean Females. No. 3, Mediterranean Males and American Females. No. 4, Large American Females, Small American Males and Small Asiatic Females. No. 5, American Males, Asiatic Females, Small Asiatic Males. No. 6, Asiatic Males and Turkeys.

THE "PERFECTION" LEG BAND. EXACT SIZE.

![Image of "PERFECTION" LEG BAND]

No. 1, for Bantams and small Mediterraneans. No. 2, for Mediterraneans. No. 3, for American females. No. 4, for American males, Asiatic females, small turkeys. No. 5, for Asiatic males and turkeys. Prices: 15c per 12; 25c per 25c; 40c per 50; 65c per 100.

THE ECLIPSE LEG BAND.

![Image of THE ECLIPSE LEG BAND]

THE SMITH SEALED LEG BANDS.

The Smith Sealed Leg Band makes positive identification of the banded bird possible. When sealed on, and the band number and description duly entered on score card, or award card, any child that can read can pick out the bird from card and band. Smith's Sealed Leg Bands never come off when once fastened on and never can be taken off without destroying the band.

These bands are numbered in lettered series of A1 to A10000, B1 to B10000, etc. No duplicate numbers are ever made.

No. 1, Bantams and small Mediterranean females, etc. No. 2, ordinary Mediterranean and Pit Game females, etc. No. 3, Mediterranean males, American females, American males, medium Asiatic females, turkey hens, etc. No. 4, large Asiaticos and Tom Turks, etc. No. 5, extra-large Asiaticos and very large Tom Turks, etc.

Prices: 12, 30c; 25, 50c; 60, $1.00; 100 $1.50; 250, $3.50; 500, $6.50; 1,000, $12.50.

Sealers for Smith Bands: Plain, 50c; Lettered jaw, 65c; Nickel-plated lettered jaw, 75c.

THE IMPROVED CHAMPION LEG BAND.

Made of aluminum, adjustable to fit any fowl, large or small. Impossible for them to come off, being held by double lock.

Price: Per dozen, 15c; per 25, 25c; per 50, 40c; per 100, 65c; 500 for $2.75. Postpaid.

LEADER ADJUSTABLE LEG BANDS.

Easily attached, absolutely secure and have no catching points. Made from heavy aluminum, strong and substantial. Prices: 1 doz. 15c, 25 for 25c, 50 for 40c, 100 for 65c, 500 for $2.75. Postpaid.

THE PERFECT BELGIAN HARE EAR MARKER.

These ear markers are made of aluminum, and are numbered from one to one hundred. They are light in weight, durable, and never tarnish or corrode. Price of tags, postpaid, are as follows: 12 tags 15c; 25 tags, 25c; 50 tags, 40c; 100 tags, 70c.
Successful Poultry Keeping. Contains, we believe, more and better practical reliable information on the subject of "Poultry for Profits" than any other book published. Compiled by the editor of the "Reliable Poultry Journal." 176 pages, 9x12 inches, illustrated. Price, $1.00.

Poultry Houses and Fixtures. Shows plans of low cost, practical and labor-saving houses, designs for inside fixtures, roosting coops and coops for young chicks, and appliances for pages, 9x12 inches, illustrated. Price, 50 cents.

Artificial Incubating and Brooding. Solves all problems of artificial incubating and brooding. Tells how to obtain strong-germed, fertile eggs, etc. Results gained from practical experience. 96 pages, 9x12 inches, illustrated. Price, 50 cents.

The Chick Book. Tells how to obtain good hatches; how to feed and care for chicks of all ages; how to feed for breeders and for broilers and roasters; how to build coops; gives complete instruction in all work connected with successful chicken growing. 50 pages, 9x12 inches, illustrated. Price, 50 cents.

Eggs and Egg Farms. Is made up of articles from experienced breeders, giving methods of housing, breeding, rearing and feeding to increase egg production; pedigree breeding. 96 pages, 9x12 inches, illustrated. Price, 50 cents.

The Wyandottes—All varieties. The greatest amount of reliable and authoritative information compiled to date in regard to the Wyandotte breed can be found in this book. It tells how to select breeders and mate for best results. Care, feeding and management fully discussed. Color plates of White and Silver Wyandottes. 160 pages, 9x12 inches, illustrated. Price, $1.00.

... The Leghorns. The best illustrated standard of all varieties of the popular Leghorns. Mating schemes clearly described. Color plate of S. C. White Leghorns. 78 pages, 9x12 inches illustrated. Price, 50 cents.

Ducks and Geese. Gives all details of hatching, rearing, fattening and marketing. Describes labor-saving methods. 80 pages, 9x12 inches, illustrated. Price, 75 cents.

Turkeys. Every detail of the turkey business explained fully and clearly. Written by the world's foremost turkey growers. Contains color plate of ideal Bronze turkeys. 96 pages, 9x12 inches, illustrated. Price, 75 cents.

The Bantam Fowl. Mr. T. F. McGrew, judge and breeder, tells how to house, feed and grow Bantams, how to treat their diseases, etc. 72 pages, 9x12 inches. Price, 50 cents.

Reliable Poultry Remedies. Points out the causes, describes symptoms and gives simple and tested remedies for all diseases. 84 pages, 6x9 inches. Price, 25 cents.

Turkeys, Ducks and Geese, by H. A. Nourse and Geo. H. Poland. It tells plainly and fully how to do every detail of the work of breeding, hatching, rearing, fattening, dressing, marketing and developing, fitting, showing and selling for all purposes. This information will enable anyone to succeed in this work and save disappointment and needless loss of money. 128 pages, fully illustrated. Price, paper, 50 cents.

Egg Record and Account Book. An easy method of keeping correct account of expense and income; also record of eggs laid, set or sold; chicks hatched and sold, etc. 52 pages, 5x10 inches. Price, 25c.

Simple Poultry Remedies. A book which describes the symptoms of each disease and tells how it can be cured and prevented by simple methods, without expense. The reader can tell at once, by the aid of this book, just what is the matter with any ailing fowl. The best and simplest remedies for each disease are given so that the sick bird may be cured and the spread of disease to others prevented, often at a cost of only a few cents and sometimes without any cost at all. Price, paper cover, 25 cents.

Reliable Poultry Journal. Undoubtedly the best poultry paper published. 68 to 188 pages monthly. Most profusely illustrated. Subscription price, 50 cents per annum. We offer it to you for 40 cents per year.

We take subscriptions for any of the leading poultry and pigeon journals, at the regular subscription price, and can also supply you with books not mentioned in this catalogue. Turn over your orders to us.
Recognizing the widespread demand for down to date reliable poultry books, we offer the Cyphers Series on Practical Poultry Keeping.

**Book No. 1—**"Profitable Poultry Keeping in All Its Branches." Essentially a book for the beginner.

**Book No. 2—**"Profitable Care and Management of Poultry," tells what to do and how to do it. How to use incubators and brooders; prevention and cure of diseases.

**Book No. 3—**"Profitable Poultry Houses and Appliances," illustrates and describes 60 practical poultry buildings and many labor and time saving poultry plant fixtures.

**Book No. 4—**"Profitable Egg Farming," treats exhaustively this important branch of the poultry industry.

**Book No. 5—**"Profitable Market Poultry," fully describes and illustrates this profitable branch of poultry work.

**Book No. 6—**"Carpenter for Profit," is a practical treatise on caponizing.

Price of these books is 50 cents each postpaid.

Any five of the above books will be sent to one address, when ordered at one time, for $2.00; any three to one address, ordered at one time, for $1.25; all six books for $2.50.

**Book No. 7—**"Poultry Plant Construction." The best that years of experience and observation have taught specialists in the construction of poultry buildings. Price, $1.00.

**Book No. 8—**"Profitable Poultry Feeding." Covers the subject of feeding poultry from beginning to end. The profitable feeding of newly hatched chicks, growing chicks, broilers, roasters, ducks, geese, etc. Price, 25 cents.

**Poultry Manual**, by Franklane L. Sewell and Ida E. Tilson. A safe guide to successful poultry culture in all its branches, fancy and practical; breeding and feeding; diseases and remedies; how to make farm poultry pay, etc., etc., 12 mo., 148 pp. Price 50 cents; paper, 25 cents. (40th Thousand. Revised Sept. 1, 1908.)

**Egg Money. How to Increase It, by H. A. Nourse.** A book of complete and reliable information on the more profitable production of eggs on the city lot, the village acre and the farm. The instruction in this book will make the "200 eggs a year hen" a reality for the intelligent poultryman. 128 pp., completely illustrated. Price, paper, 25 cents.

**HEXAGON Poultry NETTING.**

More of this netting is used for poultry yards than any other made. It gives first-class satisfaction, rolls out smooth and is practically indestructible. After the fabric is woven it is given a heavy coating of zinc, which prevents rust, and this in combination with great tensile strength, makes it the best poultry netting on the market.

Each roll 150 feet long. The two inch mesh, which is used for old fowls, we furnish in No. 19 wire. The one inch mesh, which is used for little chicks, we furnish in No. 20 wire. Either mesh furnished in the following widths and weights:

**2 in. Mesh, No. 19 Wire.**

**Heavy Galvanized Steel Wire Staples**, 10c per pound, 5 lbs. 45c.
AUTO SPRAY NO. 1.

The Auto Spray No. 1 is the standard of all compressed air sprayers. It consists of a 4-gallon reservoir made of heavy material, either brass or galvanized steel as ordered. In this tank is inserted and locked our brass air pump which may be attached or detached by the simple shift of the cam. To this reservoir is attached a lead of discharge hose with customer's choice of any one of the shut-off attachments. To the shut-off is attached a nozzle and the nozzle may also be operated in connection with the extension pipe or elbow.

**Diameter**....... 7 Inches **Weight empty** ..... 8 lbs.

**Height**.......... 2 Feet **Weight loaded** ........ 39 lbs.

**Capacity**....... 4 Gallons **Shipping weight** .......... 13 lbs.

Sold under a positive guarantee to give satisfaction or money refunded. A self-operating or automatic compressed air sprayer is an excellent whitewashing tool. This spray nozzle has a device, stop cock and fittings turned from solid brass, with deep cut threads, three-ply rubber hose; the pump and valve are entirely of brass where they come in contact with the solution. All cast iron parts are malleable iron; the carrying strap is made of eight-ply haler web.

**Auto-Pop No. 1** is a patented shut off device with self-cleaning attachment. Operating the lever opens or closes the valve and regulates the nozzle aperture automatically.

**Auto-Pop No. 2** operates similar to the Auto-Pop No. 1, but has no cleaning device.

**Brass Strainer.**
A great convenience in the preparation of solutions.

**The Torch.**
For burning worm's nests. Burns kerosene oil vaporized with air, and the flame is hot that worms are instantly destroyed.

**Extension Pipe.**
Furnished in 2 ft. lengths of solid brass. Three lengths generally used for trees.

**Elbow Extension.**
For spraying the under side of grapes, melons, etc.

**Two-Row Attachment.**
For spraying 2 rows of potatoes, etc., at one passing.

For use with Cattle Fly Oils and other oil preparations, we furnish, where so ordered, special oil hose, for which an extra charge is made of .45c.

**THE NO. 3-B AUTO SPRAY.**

Will apply whitewash and cold water paints to any surface more rapidly and thoroughly than ten men with brushes. No sprayer manufactured develops greater power, hence it will handle any solution that will work in any other sprayer—in fact, anything that can be formed into a spray. Whitewashing poultry houses, stables, cellars, factory walls, and so forth, are very simple operations with this "Auto-Spray" No. 3-B. Price, complete outfit, including 8 gallon galvanized tank, 8 feet of three-ply discharge hose, 8 feet iron extension pipe, and latest pattern Vermorel nozzle, $12.50.

**LITTLE GIANT SPRAY PUMP.**

For Whitewashing, Window and Buggy Washing, Tree Spraying.

Many poultrymen have become tired of whitewashing their poultry houses in the cold with a brush and are looking for an effective spraying pump, at low cost, that will do the work satisfactorily and with far less trouble. We offer such a pump in the **Portable Brass Spray Pump** illustrated herewith. This pump has a brass cylinder and air chamber, hence will not corrode. It has a steel rod and is furnished complete with foot rest and discharge hose. It is designed to set in a pail or vessel of water with the foot rest outside. It is also arranged to discharge a fine jet in bottom of bucket. This answers the same purpose as an agitator keeps the whitewash or other mixture thoroughly mixed, and is especially recommended for whitewashing, spraying trees, bushes, flowers, etc. Price, complete, $3.75.

**TRI-JET SPRAYERS.** These little Sprayers have met with a large sale since their introduction. The are needed by every poultryman and farmer, and should be in every household. Great advantage is derived by the use of these sprayers in exterminating potato bugs, tobacco, corn, tomato and currant worms, and all plant insects; also in killing lice in poultry houses. They are used extensively on horses, cattle and swine, and for spraying clothes, carpets, etc. in fact, wherever a spray is needed. These sprayers are light, strong, compact and well made. Each is tested with an automatic spray pump before it leaves the factory. We recommend this sprayer for spraying liquid lice killers, disinfectants, etc. Price, each, 75c.

**TWO-JET SPRAYERS,** 50c each.
CONKEY'S REMEDIES.

Conkey's Roup Cure. A positive and guaranteed cure for all forms of this disease. Effective for Turkeys, and for Canker in Pigeons. Price, 50c and $1.00, postpaid.

Conkey's Noxicide. A non-poisonous soluble disinfectant, deodorant and germ destroyer. One quart makes 25 gallons. 1 pt. can 55c; 1 qt. can 60c.

Conkey's Laying Tonic. Will positively increase the egg production. Price, 1½ lb. package 25c; 3½ lb. package 50c.

Conkey's Lice Liquid. Carefully prepared and guaranteed to please. Price, quarters 35c; ½ gallons 60c.

Conkey's Head Lice Ointment. Instant death to these pests. Price, 1 oz. tin 10c; 3 oz. tin, enough for 300 applications, 25c, postpaid.

Conkey's Gape Cure. Gradually overcomes the worm. Price, 50c per box.

Conkey's Chicken Pox Remedy. A combination salve and powder that is guaranteed to give satisfaction. Price, 50c.

Conkey's Lice Powder. Claimed to be the strongest and most effective powder in the market. 15 oz. box 25c.

Conkey's Healing Salve. Valuable in treating Pavis, Wounds, Sores, Cuts, Bruises, etc. Price, 50c postpaid.

Conkey's Cholera Cure. A positive cure for Bowel Trouble, Indigestion, Diarrhoea, Dysentery, Cholera, etc., in both old and young fowls. Price, 50c per box, makes 50 gallons of medicine.

Conkey's Scaly Leg Remedy. A combination wash and ointment. This disease is contagious and injurious to fowls. Price, 50c.

Conkey's Poultry Tonic. A remedy especially valuable for fowls run down, off feed, recovering from disease and during the moulting season. Also for chicks that do not thrive. Price, 25c.

Valuable Book Free.

The G. E. Conkey Co. have published a 48 page book entitled, "Poultry Diseases and Useful Information," which sells for 25c. It is full of suggestions of the utmost value to the poultry raiser. We have secured a limited quantity of these books which we offer free of cost to any one sending us four cents in stamps to cover postage. Send for it.

LAMBERT'S DEATH TO LICE.

A Disinfectant Insect Powder.

For lice on setting hens, laying or exhibition stock. Does not soil the plumage, yet purifies and cleanses down to the skin. Price: 5-oz. box 10c, 15-oz. box 25c, 48-oz. package 50c, 100-oz. package $1.00.

DEATH TO LICE SPECIAL.

In powder form for dissolving in coal oil or kerosene. Will make one of the best Liquid Louse Killers on the market. Keep dry and mix as wanted. Price: 16-oz. box 25c, makes 1 gallon.
IMPERIAL EGG PACKAGE.

This new package for shipping eggs is so constructed that each egg is incased in a cylinder made of heavy corrugated paper, which conforms to the shape of the egg, the end of each egg resting on a cushion support, thus giving absolute protection to the vital parts. These cylinders are adjustable to any size egg and prevent breakage.

The Imperial Package possesses great strength and is built of good, strong material. Every package is equipped with a strong, stiff wire handle, which locks the lid of the box. There is positively no way in which the contents of this package can be tampered with without leaving traces, when our directions for packing which accompany every box, are followed.

Prices: 15-egg size, 20c each, $2.25 per doz.; 20-egg size, 25c each, $2.75 per doz.

EYRIE EGG SHIPPING BOX.

Unquestionably the best device yet found for shipping safely fancy eggs by express. Made of heavy corrugated cardboard; are very strong, compact, light and convenient. The handle, when put in place, locks the box, and it cannot be tampered with in transit.

Price: 1 sitting, each, 15c; per dozen $1.50
2 sitting, each, 20c; per dozen $2.00

IDEAL PAPER EGG BOXES.

Just the Thing for Your Family Egg Trade.

These boxes are intended for use in delivering eggs to private families. They are exceedingly neat in appearance, and go a great way toward making satisfied customers. They ship "knocked down," can easily be set up and can be sent by express or freight at very low rates. The customer, after using contents, can take them apart and return them.

Prices: 1 dozen size, 1 dozen 15c, 25 for 30c, 50 for 50c, 100 for 90c. Ask for special prices on larger quantities.

WOOD'S REVOLVING EGG CABINETS.

Eggs intended for hatching should be turned daily; the warmer the temperature the more necessary that they be turned. Eggs for market should be turned every two or three days if kept any length of time. Wood's Revolving Egg Cabinets are a practical device for doing this work, and meet a widespread need among poultrymen who save eggs for hatching. Eggs for table use (not fertilized) have been kept from three to four months in an ordinary cellar by using these cabinets.

Prices of Wood's Revolving Egg Cabinets:
150-egg size, weight 30 lbs. $3.50 550-egg size, weight 75 lbs. $7.25
288-egg size, weight 55 lbs. 5.50 1050-egg size, weight 100 lbs. 11.00

WOOD'S PONY CABINET.

We recommend this cabinet to fanciers who have small numbers of eggs to turn. Simply reversing the cabinet does the work.
Price of Pony Cabinet, capacity 72 eggs $1.00

HUMPTY DUMPTY FOLDING EGG CRATE.

A very light, strong and convenient Egg Crate and Carrier. Made of hard wood slats securely fastened. The lid with handle springs into position when crate is filled. Folds perfectly flat when empty.

Prices:
6 dozen size.................. each, 25c; per dozen, $2.75
9 dozen size.................. each, 30c; per dozen, 3.25
12 dozen size.................. each, 35c; per dozen, 3.75

SEFTON LIVE CHICK BOX.

Made of the same grade of corrugated paper as the Eyrie Egg Boxes. Dead air cells in the paper protects the tender chicks. Each box is divided into compartments that will hold about 25 chicks. There is money in shipping live chicks. Get a supply of our Live Chick Boxes, start your incubator and keep it running.

Prices:
50 chick capacity, size 12x12x5 inches. Per dozen $1.50
100 chick capacity, size 24x12x5 inches. Per dozen 2.50
in accordance with the
made on the other side of this coupon I enclose herewith the sum of THIRTY FIVE CENTS, for which send me FARM JOURNAL two years.

Seeds and Poultry Supplies
Dear Sir:—

I am giving a special cash discount of 5% on all seed orders received prior to March 1. I do this in order to secure as many orders as possible before the busy spring business starts, and urge that you take advantage of this opportunity to secure best quality seeds at a reduced rate.

Also I am making a special offer to purchasers of my seeds in packets and ounces only, giving a bonus of from 30c to $1.75 worth of seeds according to the amount of your purchase. You will find particulars of this offer on the second cover page of this catalog.

In addition to the cash discount and the bonus for the purchase of seeds in packets and ounces, I am enclosing a due bill good for 25c on your first trial order. I do this because I know once you give me a trial order, you will say with the rest of my customers, "Koss gives more for the money than anyone else," and I shall have you for a regular customer.

In making up your order, which I trust you will do before March 1, in order to receive the 5% cash discount, remember you can order from the catalog with perfect safety. The illustrations in this book are taken from life and the descriptions are absolutely true.

"Honest Seeds at Honest Prices" is my motto, and back of every seed sold is my guarantee that it is absolutely as represented or money refunded.

In view of the high quality of these seeds, my guarantee back of them, and the special inducements I am offering you at this time you cannot do better than place a trial order with me. Pick out what you want from this catalog, write me and I will ship the seeds at once deducting in accordance with my 25c due bill, my special bonus offer and my 5% cash discount.

Very truly yours,

THEO. KOSS, Seedsman.
RETURN THE ATTACHED

25c SEED DUE BILL 25c

Good for 25c Worth of Seeds in Packets

We want every one who receives this catalogue to send us at least a trial order. A large per cent. of our customers remain with us from year to year, and by fair dealing we endeavor to make all our personal friends. Again, last year, through the good-will of our friends, we increased our mailing list many thousands, and this year we hope to introduce ourselves, through the medium of our catalogues and by fair representation, to thousands more of new people.

Any one receiving this insert, in one of our catalogues, can detach the “Due Bill” below, and by returning it to us, with his first order, select 25 cents’ worth of seeds, in packets, additional. See Due Bill.

We want your orders, and as a special inducement for you to give us a trial this year, we make the above offer. This is in addition to the discounts we allow on packets and ounces.

A small order from you this spring, will place your name and address on our books, and you will receive our catalogue again the first of next season.

THEO. KOSS, Seedsman.
488 National Ave., MILWAUKEE, WIS.

DETACH HERE—SEE OTHER SIDE.

25c SEED DUE BILL 25c

This Due Bill (see other side) is good for 25 cents’ worth of Vegetable or Flower Seeds in packets (not including collections), your own selection, when returned with any order amounting to $1.00 or more.

If returned to us, this season, without any order, we will keep your name on our mailing list and send you our catalogue for another year without request.

THEO. KOSS, Seedsman.
MILWAUKEE, WIS.

25c SELECTIONS MUST BE MADE AT TIME OF ORDERING (OVER) 25c
EARLY ORDERS SOLICITED

FIVE PER CENT. CASH

Discount on Orders Received Before March 1st.

March and April are our busy months, and we often find it necessary to work nights, in order to keep up with our orders. From one cause or another many of our customers delay sending in their orders until the last moment. To induce as many as can to order earlier, we have decided to offer an extra discount—five per cent. in cash—on all seeds quoted in our catalogue, except Vegetable and Flower Seed Collections, and a few things like Clover Seed, where the prices are marked "subject to change," provided the order reaches us on or before March 1st. In other words, if your order amounts to $5.00 and you intend sending it to us in March or April, mail it so we will receive it by March 1st, and we will accept, from you, in full payment for the order $4.75. Furthermore, we will allow you (see other side) 25 cents' worth of seeds in packets extra, with your first order.

No matter how large, or how small your order, it will pay to send it in early—five per cent. is a pretty liberal discount for so short a time. If, however, you should not order until the seeds are needed, we will give the order our usual prompt attention.

THEO. KOSS, Seedsman,
This Discount Does not Apply to Poultry Supplies. MILWAUKEE, Wis.

DETACH HERE—SEE OTHER SIDE.

RETURN THIS SLIP—Good for 25 cents' worth of Seeds, in packets, when returned with your first order amounting to $1.00 or more. (See other Side.)

All orders for potatoes, plants and perishable goods are carefully booked on receipt and filled in rotation as soon as weather permits. If shipped early they are at buyers risk.

Total Amount of Order,

**IS YOUR ORDER COMPLETE?** Before mailing this please look over each department of our Catalogue and you will doubtless find many items that are just what you want. The space below is for remarks about your order. Also please write here the addresses of market gardeners, farmers and others who buy seeds and those whom you think would like to have our Catalogue. Kindly use separate sheet for correspondence.
KOSS’ ROUP CURE — CURES ROUP.

Koss’ Roup Cure is the best possible remedy for roup in all stages and forms. It is thoroughly reliable and dependable. Roup is the most common, and next to cholera, the most deadly disease affecting poultry. Every poultryman should take precautions to safeguard his flocks against this dreaded disease. Roup is a contagious catarrhal disease caused by a specific germ. It may attack any flock, and usually follows neglected, simple colds. The symptoms are first, trothing and bubbles in the corners of the eyes, then they are sneezing, snuffles and a watery discharge from the nostrils and eyes. This discharge always has a foul odor—the “roup smell.” Whenever the “roup smell” is present there roup exists. The bird’s head may swell, the eyes bulge out, and cheesy masses may form in the mouth and throat and beneath the eye lids; this condition is known as diphtheritic roup. Koss’ Roup Cure is used by simply dissolving the remedy in the drinking water. The birds take their own medicine.

Price 50c per box, postpaid.

KOSS’ LICE KILLER (LIQUID).

Don’t feed lice if you are raising poultry. It is not only unsatisfactory, but unprofitable. Get rid of the lice, mites, and all other pests by using Koss’ Lice Killer. This is the strongest liquid lice killer on the market. Koss’ Lice Killer is made under our supervision, so we can guarantee its purity and strength.

It can also be used for stock. Examine your poultry and stock carefully. If you find any signs of lice or other vermin, by all means, use Koss’ Lice Killer. You cannot afford to raise lice, poultry and stock at the same time.

Directions:—Koss’ Lice Killer does not have to touch the lice and mites in order to kill them. It evaporates, and the gases formed do the work. This is the up-to-date method, and is far ahead of the old way of dipping and greasing. For stock, sprinkle on the bedding and on the rubbing posts.

Prices: 1 qt. can, 55c; 2 qt. can, 60c; 1 gallon can, $1.00.

KOSS’ INSECT POWDER.

Removes that itchy feeling. If you prefer the powder form of Lice Killer, use Koss’ Insect Powder. Put in the nests and sprinkle in the bird’s feathers. Just the thing to kill lice on young chicks and setting hens. Also kills insects on plants, exterminates chiggers, moths, ants, roaches, fleas, etc.

Prices: 5 oz. box, 10c; by mail, 15c; 16 oz. box, 25c, by mail, 40c; 48 oz. box, 50c, by mail, $1.00.

KOSS’ CONDITION POWDER AND EGG PRODUCER.

Contains only egg forming food. Composed of pure materials of highest quality, scientifically compounded, thoroughly balanced and perfectly pure and free from harmful substance. Keeps the fowls in the pink of condition and enables them to bear up under the egg forming process. Full directions in each package.

Price: 21/2 lb. pkg., 25c; 5 pkges. $1.15.

KOSS’ “GOOD HEALTH” FOR POULTRY.

A reliable antidote for many diseases of poultry. Disease cure and preventive. Used at the strength of one teaspoonful to each gallon of drinking water, the remedy will cure Roup, Cholera, Indigestion, Bowel Complaints, etc. All vessels should be kept perfectly clean and occasionally scoured.

Price per bottle, 50c.

THEO. KOSS, 488 National Ave., Milwaukee, Wis.
